RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in *"Italics."* State-aid Railroads are distinguished by a "¶."

Saturday, May 1, 1875.

Financial and Commercial Affairs.

A very easy movement for the borrowing interest has been reported in the Money line; with a further increase of strength on the part of the City banks, notably so in the item of legal tender reserves, which has shown an unexpectedly liberal increase, and which has enabled the banks to report a net augmentation of reserve, to the amount of $1,838,150, thus carrying the aggregate up to $11,534,625 in excess of the legal requirements, under the banking Act. Call loans have been quoted from to 2@4, mainly at 2½@3 per cent to the leading borrowers, and the best mercantile credits to 4½@5½ per cent per annum. The offerings of accommodation have been very liberal; in most instances, ahead of the wants of the market. The concentration of capital has led to a decided increase in the demand for investment securities, which latter have accordingly advanced quite sharply, right through the list, and closed with an upward tendency, the recent extensive purchases having materially reduced the available supply of all the more substantial interest bearing, national, state, local, and railway. The currency reserve of the Sub Treasury was reduced $79,148; and the specie balance, $258,470. The City banks last week increased their reserve of legal tender notes $3,680,800 while reducing their deposit item $480,600 and their specie average $1,967,800. They report a reduction of $2,708,500 in the loans and discounts, and a falling off of $186,000 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $41,888,239, against $41,967,388, the preceding week; and a coin board of $60,193,619, against $60,542,089, on the previous return. The City bank exchanges in currency during the week, were $448,065,054, or a daily average of $74,677,500. The customs revenue of the port, during the week, was $2,088,000. The City banks reported their average of gold last week at $12,045,900, and their greenback average at $53,970,300. Their deposits stood at $217,926,800. The loan item was $275,886. The circulation was $21,146,200.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $11,534,625.

The aggregate of the outstanding U. S. currency, of all denominations, April 1, was $427,495,676. The outstanding amount of legal tender notes is $379,226,900. The National bank circulation is now $347,280,241.

The U. S. Treasury balances on Wednesday were as follows: Currency, $1,900,000; special deposit of legal tenders for redemption of certificates of deposit, $50,505,000; coin, (including $22 333,000 in coin certificates,) $89,140,000.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $6,877,943.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 90½ millions.

A general firm market has been reported for Gold, influenced in good part by the enlarged export drain, which tended to stimulate speculative dealings. The customs call was moderate. Toward the close there was rather less buoyancy apparent in the dealings. The extremes of the week have been 114¾@115⅜, closing on Wednesday at 115¼ as against 114⅞@115 on Wednesday of the preceding week. The specie outflow last week was $2,279,257. The imports of specie at this port since Jan. 1, have been $5,456,081 against $1,263,625 same time last year. The customs demand for Gold last week averaged $348,000 a day. Foreign Exchange has been more active and quoted firmer. Bankers' sixty day bills on London closed on Wednesday at $4 87@$4 88; sight bills on London at $4 90½@$4 91 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $8,902,349.

Government Securities have been in fairly active investment demand, and have further advanced, and closed firmly. In State and Railway bonds, business has been quite brisk, with values quoted higher and quite buoyant. And in the line of Railway and Miscellaneous share property, business has been on an enlarged scale and on a generally advancing market, favored by the remarkable ease in Money.

U. S sixes of 1881 closed on Wednesday of this week at 123⅜@123¼; U. S. Five-Twenties of 1862, at 119⅜@119½; U. S. Five-Twenties of 1864 at 121@121¼; U. S. Five-Twenties of 1865 123@123½; U. S. Five-Twenties of 1865 consolidated, 121¾@122; U. S. Five-Twenties of 1867, 122⅞@123; U. S. Five-Twenties of 1868, 122⅝@123; U. S. Ten-forties at 116¾@117¼; U. S. Fives of 1881, (Funding Loan) 117⅜@117⅝; Six per cent. currency Sixes from 124⅞@125.

General business has been comparatively moderate. Produce has been in fair request at, however, irregular prices. Cotton closed lower. Petroleum and Naval Stores weak. Breadstuffs and Provisions also favoring buyers. Groceries firmer and in good demand. Hardware, and Dry Goods, moderately active. Metals generally quiet. Of Iron Rails, 2500 tons reported sold on p. t., Eglinton Pig Iron quoted from yard at $32@$33; Glengarnock, $35@$36; No. 1 American Pig at $27 50@$29; No. 2 do. at $25@$26; Forge, $23@$24; English Rails at $48@$50, gold; American Rails at works, $48@$53; Old Rails, $28@$30. Wrought Scrap, $34@$36. Ingot Copper 22¼@22¼. Ocean freights have been more active, at firmer rates for Grain, Provisions and Cotton, the offerings of which were more liberal, mainly for British ports.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Hannibal and Naples 1st mort., 50; St. Louis, Jacksonville and Chicago 1st mort., 102½; Chicago, Burlington and Quincy 8s, 113¾; Pacific R.R. of Mo., 1st mort., Carondelet Branch, 80; Morris and Essex 7s, 1871, 104; Toledo, Wabash and Western 7s, consol., 39; Albany and Susq. 1st mort., 110; Cleveland and Toledo 1st mort. 7s, S. F., 107; Cleveland and Pittsburg 7s, consol., 108; Toledo, Peoria and Warsaw 1st mort., Western div., 55; do. Eastern div., 61; Louisville and Nashville 7s, consol., 1898, 88½; Indianapolis, Bloomington and Western 1st mort., 82; Delaware, Lackawanna and Western 7s, conv., 120; Central Pacific 1st mort., California and Oregon Branch, 94¾; do. San Joaquin Branch, 93½; North Missouri 1st mort., 89; Galena and Chicago 1st mort., 107; Mil. and St. Paul 1st mort., LaC. div., 84; do. C. and M. div., 83¼; do. I. and D. div., 78½; Western Pacific R. R. bonds, 97¾; Chicago and Milwaukee 1st mort., 96⅛; Great Western 1st mort., 1888, 79½; Cedar Falls and Minnesota 1st mort., 83½; Belleville and Southern Illinois 1st mort., 97; Boston, Hartford and Erie 1st mort., 29⅝; do. 7s, guar., 85; Am. Dock and Imp. 7s, 104; South Pacific R. R. of Mo., 77; Rensselaer and Saratoga R. R., 111¾; St. Louis, Kansas City and Northern pref., 43¾; Kansas Pacific R. R., 25; New Jersey Southern R. Cincinnati Municipal Bonds.

Messrs. Kuhn, Loeb & Co., No. 31 Nassau street, New York, acting under authority of the Commissioners of the City of Cincinnati, will receive, at the American Exchange National Bank, sealed proposals up to May 10th, inst., at noon, for $1,500,000 of the Cincinnati municipal 7 3-10ths per bonds—being the unsold balance of the $10,000,000 authorized by the City of Cincinnati for the construction of the Cincinnati Southern Railway. The allotments will be made as early as possible after the opening of the bids. The $8,500,000 heretofore marketed are mostly held by insurance companies, savings banks and estates. No bid less than 102 will be considered, to which will be added the premium offered and the accrued interest from January 1 to date of payment. The interest is payable semi-annually, January 1 and July 1, at the American Exchange National Bank, in this city, where also the principal of the bonds, when they became due in 1902, will be paid. Much competition for the possession of the remainder of this loan is anticipated.

Strength of Railroad Cars.—The Miller Platform.

There can be no doubt but that the new mode of building cars contributes greatly to the safety of the passengers when a "run off" occurs. The Pullman cars, parlor cars, and even the ordinary coaches used on the principal railroads, are exceedingly strong. A sleeping or drawing room car costs from $20,000 to $25,000, and a great deal of this large sum of money is expended in bracing and strengthening the ends and sides. The polished veneering which attracts so much attention is merely the ornamental covering that hides a frame work almost as strong as the sides of a ship. When these splendid coaches are thrown from the track they are often sadly defaced, but they are rarely broken to pieces. The strong oak ribs hold together, and although the passengers are tossed about rather roughly, they are not crushed and mangled by broken timbers. The Baltimore *American* says:

In the "run off" on the Philadelphia, Wilmington and Baltimore Railroad, recently, nobody was hurt, although three coaches crowded with passengers were thrown from the track. The train was running at the rate of 25 miles an hour, and when the tremendous speed was suddenly checked the concussion was terrible, but the frame work of the cars held together, and, except some slight concussions, passengers suffered nothing more than a great fright. The cars were dragged along the ground for a short distance, but even this rough test did not change their contour, although the windows and panels were considerably broken. There can be no doubt that the lives of the passengers were saved by the great strength of the coaches.

It is also said that the Miller Platform acted admirably, and prevented the "telescoping" which would have been inevitable if the cars had been weak and the platforms of the ordinary pattern.

Speed of Trains and Weight of Rolling Stock.

The Report of the Railroad Commissioners of Maine, recently issued, contains suggestions in regard to reducing the speed of trains and the weight of rolling stock on railroads, with a view to diminishing the wear and tear of the latter and of the track. In a communication from Superintendent Sawyer, of the St. Croix and Penobscot Railway, that officer writes:

With two engines in equally good repair, we ran one at a speed of 26 miles an hour, 42 miles daily, with a mail train, and at a speed of 14 miles an hour daily with a freight train; total, 84 miles daily until it had run 14,000 miles, when it became necessary to take it off for general repairs. The other ran 84 miles daily at a speed of 14 miles an hour, with a freight train, until it had run 21,000 miles before requiring general repairs, and was even then found in better condition than the one running at the higher rate of speed. Wood and oil were consumed nearly in the same proportion. It is fair to suppose, also, that the rails, sleepers, bridges, &c., suffered the same additional wear. It is my opinion that an increase of speed of 12 miles an hour, beyond 14 or 15 miles, will increase the cost of repairs at least 74 per cent.

In relation to wheels, I think that at a low rate of speed a 350 pound twenty-eight inch wheel is more than equal to a 500 pound 32 inch wheel at a high speed. A heavy axle will jar off at a high

speed before a light one will become unsafe with the same number of miles run at a low speed.

A 25 ton engine is of sufficient weight for general use. If additional power is required with a snowplough or heavy freights, rather increase the number of engines than the weight of them; there is less risk in moving snow with power and force than with momentum.

As to passenger cars—a fifty seat passenger car can, in my opinion, be run more economically than the ordinary car. The first cost is $1000 less, the weight and wear on the rails are less, the cost of repairs is less, and it requires less power to move six fifty seat cars than it does to move five sixty seat cars, there being a difference of 18 tons in favor of the six light cars.

The Coal Trade.

The total anthracite production reported for the week ending on the 17th ult., is stated by the Philadelphia *Ledger* at 213,074 tons, and for the year to the same date 3,005,260 tons, against 4,222,775 to the same time last year, showing a decrease of 1,217,515 tons. The bituminous production reported for the week was 65,022 tons and for the year 736,763 tons, against 663,625 tons to corresponding date last year, an increase of 78,078 tons. The total production of both kinds of coal for the week was 278,096 tons, and for the year 3,741,963 tons, against 4,886,400 tons to corresponding time last year, showing a decrease in both kinds of 1,138,437 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for two weeks was 149,636 tons, and for the year 870,152 tons, of which 726,025 was coal and 155,127 coke. This embraces all the coal carried over the road, both anthracite and bituminous, east and west. At Port Richmond for the week ending the 24th ult., there were receipts of 1100 tons of coal, shipments of 1500 tons, leaving but 800 tons on hand. The *Ledger* adds:

The anthracite coal carried to market last week was over fifty thousand tons greater than the previous week and but about one hundred and sixty seven thousand tons short of that of corresponding week last year. There is, therefore, no apprehension of a coal famine. The present production is considered quite equal to the consumption, and the carrying companies in what is known as the "Combination" are sparing no effort to prevent an advance in coal prices to consumers. Soft coal from the western part of our State, as well as Cumberland coal, is coming forward freely, and does much in abating the inconvenience of the lessened supply of anthracite. The dead lock in the Schuylkill and Lehigh regions is shorn of much of its terrors, so far as the public is concerned, by the assurance that there will, for the remainder of the season, be an ample supply of coal whether work in those regions is resumed a month or two earlier or later, and coal will be no higher than the schedule prices fixed by the "Combination."

☞ The Lehigh Valley R. R. Co. have ordered Richle Bros. (Phil.) Patent "Self Adjusting" Track Scales to be erected on the Easton and Amboy Road. It is said these scales are found to have no superior.

☞ The officers of the Atlantic City (N. J.) Passenger Railway, recently elected, are: President David C. Spooner, Secretary Joseph N. Piersol, Treasurer William G. Bartlett.

☞ The Calumet and Hecla Mining Company has declared a dividend of $5 per share, payable May 15.

CINCINNATI LOAN.

$1,500,000 MUNICIPAL BONDS.

THE UNSOLD BALANCE OF THE 7 3-10TH LOAN OF THE CITY OF CINCINNATI

Are offered for sale in Coupon Bonds of **$1,000** each bearing seven and three-tenths (**7 3-10**) per cent. annual interest, payable half yearly, Jan. **1** and July **1**, at the American Exchange National Bank, in New York, where also the principal becomes due in **1902.**

These bonds are part of an issue of $10,000,000 authorized to be made for the construction, **BY THE CITY OF CINCINNATI,** of the Cincinnati Southern Railway, which, being owned by the city, its income is paid directly into the Treasury of Cincinnati. **THE AMOUNT NOW OFFERED FORMS THE ENTIRE UNSOLD BALANCE OF THE LOAN;** eight millions and one-half having been heretofore marketed, and are mostly held by leading insurance companies, savings banks, and estates.

Each proposal will state the rate of premium that is bid, to which will be added accrued interest from Jan. 1 to date of payment, and **NO BID LESS THAN 102 PER CENT. AND ACCRUED INTEREST WILL BE CONSIDERED.**

Full payment may be made and the bonds delivered on **MAY 15**, or at the pleasure of the bidder, at any date not later than July 1. In case of deferred payments a marginal deposit of five per cent. will be required.

Allotments to the highest bidders will be made as early as possible after the opening of the bids.

The right is reserved to reject any proposals, and to allot a portion of any bid, should the total bid for exceed the amount offered.

The undersigned, under authority of the Commissioners of the City of Cincinnati, will receive sealed proposals at the

American Exchange National Bank

FOR

$1,500,000 7 3-10 PER CENT. BONDS,

being the balance of the said city loan, in accordance with the above advertisement.

Bids will be opened MAY 10, prox., at noon.

KUHN, LOEB & CO.,

BANKERS, NO. 31 NASSAU ST.

NEW YORK, April 26, 1875.

☞ A railroad meeting was held at Ironton, Ohio, on the 20th ult., which had for its object the construction of a railroad from Huntington to Cincinnati, on the north bank of the Ohio river. The meeting was largely attended, and resulted in the appointment of a committee instructed to form a railway company to construct the road. A delegation from Richmond, Va., participated in the proceedings.

☞ Ground has been broken for the Lancaster Mills Branch Railroad in Clinton, Worcester Co., Mass. A Mr. Martin, from Nashua, N. H., has contracted for all of the earth work in this job, and will push it forward rapidly. It is intended to have the road completed on or before September 1.

American Centennial Exhibition.

At the second annual meeting of the stockholders of the Centennial Board of Finance, held in Philadelphia on the 22d ult., the second annual report of the directors was presented and read, and on motion was accepted and adopted. A list of one hundred persons, nominated by the U. S. Centennial Commission, in accordance with the act of Congress, was then presented, from whom the following twenty five directors were chosen: John Welsh, William Sellers, Samuel M. Felton, Daniel M. Fox, Thomas Cochran, Clement M. Biddle, N. Parker Shortridge, James M. Robb, Edward T. Steel, John Wanamaker, John Price Wetherill, Henry Winsor, Amos R. Little, John Baird, Thos. H. Dudley, A. S. Hewitt, William L. Strong, John Cummings, John Gorham, Chas. W. Cooper, Wm. Bigler, Robert M. Patton, John S. Barbour, J. B. Drake, and George Bain.

The report states that thirty one foreign governments have formally accepted the invitation of the President of the United States to participate, and their acceptances have been officially received,

viz: Argentine Confederation, Belgium, Brazil, Bolivia, Chili, Canada, China, Ecuador, Egypt, France, Great Britain and Ireland and Colonies, Gautemala and Salvador, Hayti, Honduras, Hawaii, Italy, Japan, Liberia, Mexico, The Netherlands, Nicaragua, Portugal, Peru, Sweden and Norway, Spain, Tunis, Turkey, U. S. of Colombia, Venezuela, Victoria. Many of these have already selected Commissioners from their most intelligent and enlightened citizens to promote and direct the exhibits of the country, and made large appropriations of money to defray the expenses incident thereto. Besides which, there are abundant evidences that citizens of powers whose acceptance has not yet been received at the Department of State are making preparations in advance of governmental action to take part in the Exhibition. Indeed, so encouraging are the advices received from the four quarters of the globe of the efforts which will be made by Empires and States to excel in the brilliant array, that it behooves the people of this country to drop all overweening confidence of excellence in any department of industrial exhibits and put forth their best energies that, whatever results may follow, it will not be accompanied with regrets of insufficient preparation on their part for the great rivalry.

Referring to the progress made in the construction of the buildings, the report states that the permanent or Memorial Building, 365 feet by 210 feet, to be used as an Art Gallery, which was begun on the 4th of July last, is now in a forward state. The main Exhibition Building, 1880 feet in length by 464 feet in breadth, covering more than twenty acres, begun at the same time, has all the foundations laid for its 672 piers, and the iron frame work and the glass work and all other portions of the building have been in rapid course of manufacture in the iron mills and glass furnaces ever since, and are all in an advanced condition of progress. The contractor for these two buildings is Mr. R. J. Dobbins; the time for their completion is January 1, 1876, and there is no doubt they will be finished by that time. It is expected that all the framework will be up by the first of September. The contract price for the first building is $1,199,273, and for the second $1,420,000, exclusive of drainage, plumbing, &c., and decoration.

Machinery Hall, to be used for the exhibition of machinery, 1402 feet by 360, with an annexe 208 by 210 feet covering fourteen acres of floor space, is being pushed forward rapidly by the contractor, Philip Quigley, of Wilmington, Delaware. It is to be ready October 1st, 1875, and the contract price is $542,300.

The Horticultural Building is being constructed by John Rice, to be delivered September 1st, 1875. It is 383 by 193 feet, and the contract price is $253,937.

The Agricultural building, 820 by 540 feet, with a floor space of ten acres, will be contracted for in time to be erected by the first of September next. The cattle and stock inclosures are outside of this.

Around the Exhibition grounds, which include 236 acres of the Park, there will be a fence over 16,000 feet in length and the walks and roads will have a total length of seven miles. Ample provision has been made for thorough drainage, and full supplies of water and gas, and means of communication between the buildings. With respect to the important matter of transportation the report says:

It is a cause of congratulation that, whether as to materials for exhibition or visitors to the Exhibition, the arrangements are as perfect for their approach as it is possible to have them. The steam roads which connect with the grounds of the Exhibition connect also with the wharves in Philadelphia and all the railroads entering the city, so that from abroad or our own country no transhipments are required, and the approaches from the various parts of our extended city will be made equally convenient by many horse railroads and some of the steam roads, which will set down their passengers immediately at the entrance.

It is the opinion of one who has had official connection with all of the great International Exhibitions in Europe that none of them had such perfect facilities for transportation as the American Centennial Exhibition will have.

From the statement of the Treasurer, appended to the report, it appears that the receipts from May 1, 1873, to April 1, 1875, the close of the fiscal year, amounted to $1,436,105 33; and the disbursements to $796,597 53—leaving a cash balance on hand of $639,507 80. The report states that to fully complete the work and bear its expenses to the end, it will be necessary to raise the sum of $3,500,000. This amount the directors express the strongest confidence will be forthcoming with the passing away of the present temporary depression.

Referring to the patriotic Centennial celebrations in which the country is now engaged, and from which the board derive much encouragement, the report says:

Memorial meetings of the events connected with the early struggles are rapidly succeeding each other. We may instance that of the 5th of September last in Carpenters' Hall, Philadelphia, commemorating the meeting of the first Congress in 1774; those of Concord and Lexington, Massachusetts, on the 19th of April, which have absorbed the attention of the entire country; that to occur at Mechlenburg, North Carolina, on the 20th of May, and of Bunker Hill, Massachusetts, on the 17th of June, which show that the patriotic feeling of the nation is being aroused, and with it the contributions flow in more freely than at any previous moment. We have the gratifying assurance that, as our buildings rise and confidence is felt in our ability to be in readiness in advance of the opening on May 10th, 1876, there is no State nor Territory in the Union which will not cheerfully lend its aid. Already New York and Massachusetts have begun to move earnestly; the State of Delaware has seconded the example of its sister State of New Jersey (which gave us $100,000 acknowledged in our last report), and made an appropriation of $10,000 from its treasury in aid of our work, and the city of Wilmington, Delaware, one of $5000. During the present month, and since the date of the Treasurer's statement, these movements and appropriations which we note have added $100,000 to our subscription list, and we welcome this as the precursor of larger amounts in each successive month to follow.

The amount paid for installments by stockholders to the close of the last fiscal year was $1,045,251 50; and in soliciting further subscription to the capital stock the board state that although they have not hitherto regarded it as an investment for profit, yet with a full and liberal allowance for all the cost and expenses incurred and to be incurred, if the number of paying admissions to the Exhibition, at 50 cents each, shall reach 10,000,000—a number but little exceeding the admissions to the Paris Exposition of 1867—they will be able to return every dollar to the stockholders.

And as a further inducement to subscribe, the certificate of stock is mentioned—a fine steel engraving, executed with great care in the engraving department of the U. S. Treasury—which, as a work of art, both in design and execution, is alone worth the price at which the shares are sold. This certificate is printed and is now ready for delivery to the stockholders.

Liability of "Consolidated" Companies for Obligations of the Old Ones.

The facts in the recent case of Prouty *vs.* The Lake Shore Railway Company (52 N. Y., 363), will sufficiently appear in the following opinion:

In so far as the property formerly of the Michigan Southern and Northern Indiana Railroad Company is concerned, the present consolidated company is the successor of the former company; but in respect to the properties of the other companies, which have joined in the consolidation, it is a new and independent company, as to the creditors of the old Michigan Southern and Northern Indiana Railroad Company, and they have no claim upon such new company under their original contracts, but only by virtue of the assumption by the new company of the obligations of the several corporations which united in the consolidation. So of the individual defendants. In so far as the trust devolves upon them of managing the property formerly of the old company, they occupy, in relation to the plaintiff, the position of successors to the individual defendants named in the complaint, and are bound by all proceedings had against their predecessors. But as to the other properties which have come under their charge, they are successors to officers of other companies against whom the plaintiff had no right of action upon his original contract. Therefore, both as to the corporation defendant, and the individual defendants brought by the order of substitution, if the only effect of the substitution was to continue against them proceedings which affected the property of the original defendants, the case would be simply one of the substitution of new parties representing the same interests as the original defendants, and this might properly be done by motion within one year (code § 121).

But the effect of the substitution in the present case is much more extensive. It not only continues the proceedings against the successors of the original defendants, but against a corporation, and the treasurer and directors thereof, having control of and being vested with the property formerly of two other companies, not originally liable upon the contract by virtue of which the plaintiff claims; and subjects the property of those two companies to a decision rendered subsequently to the consolidation in an action to which they were not parties.

In the action as originally brought, the defendant being a foreign corporation, a judgment could only be enforced against such of the property of the defendant as could be found within the State, and by personal remedies against such of the officers as resided within this State, or were here found and served with process in the action. By the decision of the Referee, the directors and treasurer of the original corporation defendant

were not only required to pay the amount found due to the plaintiff for back dividends, but were also restrained from making any disposition of the funds, effects of property of the corporation defendant or any part thereof, and from declaring or paying any dividends on its common stock, until the claims of the plaintiff, and all other holders of the guaranteed stock described in the complaint, should be satisfied in full. The substitution of the present consolidated company and its officers as defendants in place of the old Michigan Southern Company, and its officers, the original defendants, makes all these provisions obligatory upon the substituted defendants, and subjects them and all the funds and property of the consolidated company to the restraint adjudged against the old Michigan Southern Company.

It may be said that the obligations which the consolidated company has assumed render it just that such a judgment should ultimately be rendered against it. But however clearly it may appear that the plaintiff and those in whose behalf the action purports to be brought are entitled to such a remedy, it can legally be obtained only in an action against the parties affected, founded upon their assumption of the liabilities of others, and not by the summary process of a motion to insert their name as defendants, and thus to apply to them an adjudication previously made against the original debtors.

☞ The first track of the Easton and Amboy Railroad, it is said, is all finished except through the tunnel at Jugtown, which, it is supposed, will be completed about June 1st, when the road will be open for travel. The second track is also being pushed forward very fast, being laid from Perth Amboy to within half a mile of Bound Brook. The immense coal dock and storehouses of the road at Perth Amboy are steadily approaching completion.

☞ The property of the West Castleton (Vt.) railroad and slate company, embracing a farm of several hundred acres, a valuable slate quarry, a large slate mill, with machinery, some 50 dwellings, a large store house and personal effects, once valued at $300,000, has been sold to a new company, and business will soon be resumed.

☞ John Scott has been elected President, Wm. P. Shinn Vice President, and Fred. E. Volz Treasurer pro tem., of the Allegheny Valley Railroad Company.

☞ Contracts have been let for the grading, bridging and fencing of the London, Huron and Bruce (Canada) Railway. The road bed is to be finished by the 1st of August.

Kansas Pacific Railway Co.

CONSOLIDATION OF THE KANSAS PACIFIC AND COLORADO CENTRAL RAILWAYS.

The following is a copy of the agreement entered into between the Union Pacific Railroad Company and the Kansas Pacific Railway Company:

First: The said Kansas Pacific Railway Company, incorporated under the laws of Kansas, and the Colorado Central Railway Company, incorporated under the laws of Colorado, shall be consolidated under the name of the Kansas Pacific Railway Company, with a capital of $20,000,000, and all necessary and proper steps shall be taken to effect such consolidation in due and proper form in accordance with the laws governing such corporations, and the parties hereto agree to do all in their power to aid and effect the same.

Second: Of the said consolidated capital stock $10,000,000 par shall be issued to parties to be designated by the Union Pacific Railroad Company, and thereupon all outstanding shares of the stock of the Colorado Central shall be surrendered and canceled, and the residue of said consolidated stock shall be issued to the Kansas Pacific Railway Company, party hereto, to be distributed in exchange among its stockholders.

Third: The Consolidated Company shall issue its Coupon Mortgage Bonds to the amount of $5,000,000 having 30 years to run, and bearing seven per cent. interest, the principal and interest payable in lawful money of the United States, in the city of New York; which said bonds shall also be secured by a mortgage to a trustee or trustees to be agreed upon, and such bonds and mortgages to contain such clauses and provisions as may be determined by the Consolidated Company, and said mortgage shall be subject to the existing mortgage on the Colorado Central, and to the existing mortgages upon the Kansas Pacific Railway, and such consolidated mortgage shall not, however, include any of the lands of the said last mentioned Railway Company lying between the 893d and the 405th mile posts on the line of said road, which said lands shall be excepted from such mortgage.

Fourth: Of said $5,000,000 of bonds, $1,250,000 shall be used by the Kansas Pacific Railway Company Consolidated in retiring the outstanding income bonds of the original Kansas Pacific Railway Company at the rate of not more than 30 per cent of their face, exclusive of interest, and $525,000, or thereabouts, of said consolidated bonds shall be applied by the Kansas Pacific Railway Company Consolidated, to retire, either by exchange or otherwise, that amount of an issue of $1,125,000 of outstanding bonds issued by the Arkansas Valley Railway Company, who hold the residue of said issue.

Fifth: Of said $5,000,000 of bonds, there shall be issued to the Union Pacific Railroad Company bonds not exceeding $1,300,000, which shall be used in extinguishing the indebtedness of the Colorado Central Railway Company; and the Union Pacific Railway Company agree that the said last named Company, when consolidated, shall be free from indebtedness, except its funded debt, which does not exceed ——.

Sixth: The residue of the said $5,000,000 consolidated bonds not used and applied as before mentioned, shall remain in the Treasury of the Consolidated Company, and form a part of its assets and property, and shall be used as far as possible to redeem and retire $600,000 of first mortgage bonds of the Junction City and Fort Kearney Railway Company, and $445,000 of an issue of $1,500,000 of second mortgage land grant bonds of the present Kansas Pacific Railway Company so as to restore said bonds to the possession of the said last named Company, which shall cancel and discharge the $445,000 second mortgage land grant bonds above mentioned; and said Company shall retain the whole issue of $1,125,000 Arkansas Valley Railway Company bonds mentioned in the fourth article, and the $600,000 of Junction City and Fort Kearney bonds herein above mentioned, and the same shall form part the assets of the said Consolidated Company.

Seventh: All stock in and bonds made by either of the following companies, viz., the Junction City and Fort Kearney Railway Company, the Arkansas Valley Railway Company, the Denver Pacific Railway and Telegraph Company, the Denver Bowlder Valley Railway Company, and the Colorado Central Railway Company, owned by either of the parties hereto, shall be transferred to and held by the trustees in the five million mortgage before mentioned as further and additional security for the said bonds.

Eighth: It is further agreed that if, by reason of any want of authority on the part of either of the parties hereto, they are unable to secure the objects hereby sought to be obtained in the mode herein provided, the parties hereto agree to adopt any other proper and legal mode, either by contracts of lease, running or traffic arrangements, or otherwise, to secure such objects.

In witness whereof the parties hereto have affixed their seals this 23d day of April, 1875.

The Union Pacific Railroad Company, by SIDNEY DILLON, President.

Kansas Pacific Railway Company, by ROBERT E. CARR, President.

Before the execution of the agreement between the officers of the Companies, the following document was signed:

It is understood and agreed that if the arrangements for consolidation of the Kansas Pacific Railway Company and the Colorado Central Railway Company now pending be carried out, the Union Pacific Railroad Company will abandon to the Consolidated Company all the local traffic in Colorado, and will not interfere therewith, and that the Consolidated Company will abandon to the Union Pacific Company all claims to prorate on the traffic west of Cheyenne, and that such instrument as may be necessary to carry out and effect this object shall be executed.

Dated New York, April 22, 1875.

The Union Pacific Railroad Company, by SIDNEY DILLON, President.

Kansas Pacific Railway Company, by ROBT. E. CARR, President.

Northern Pacific Railroad.

Mr. Charles H. Wright, of this city, has been elected president of the Northern Pacific Railroad, in place of George W. Cass, resigned. Mr. Wright for the last five years has been a director of the company, and for most of the time chairman of its finance committee. Some efforts are making by the officers of the company to better its financial condition, and, if possible, start up work upon the line of the road. Several projects to this end have been suggested, but none as yet decided upon. The present assets of the company are reported to consist of 550 miles of finished road and over 10,000,000 acres of land, while the liabilities are mortgage bonds to the amount of $30,000 000 stock to the amount of $25,000,000, which was distributed as a premium to the bonds, and a floating debt of less than $700,000, of which $500,000 is due to the directors of the road. Besides this there is $2,500,000 of back interest due, which is unclassified, and which will probably be relinquished by the stockholders in their settlement of the present difficulty. Three plans have been suggested as means of relieving the company from embarrassment: First, to form an association of bondholders that might be strong enough to foreclose the mortgage and buy in the road; second, for the bondholders to exchange their bonds for preferred stock, leaving the completed road clear of debt as the basis of a new series of bonds, and then later to effect a second exchange of bonds for the stock, if desired; third, to hold the road built and lands earned as sole security for the bonds now out, to divide the road to be constructed into sections of twenty five miles, and to make an issue of bonds for each section, to be secured by that particular section and the lands earned through it. Something may be said in favor of each of these several plans, but nothing has been determined as yet.—*Philadelphia Ledger.*

☞ The Luzerne Union says it is reported that the Pennsylvania Coal Company pledges itself to pay not only an increase of wages when other companies increase, but will give the men in their employ, should such an increase occur this year, the full amount of their wages since the reduction of the 1st of January. That is, they will add the ten per cent taken from them at that time and return it as back pay. The pledges of this great company having always been faithfully kept in the past, the men have every confidence that no deviation from the regular order of business will occur.

☞ The Ogdensburg Advance says that the motion before the Court of Appeals made by Col. E. C. James, in the suit of the Ogdensburg and Lake Champlain Railroad Company against the Central Vermont Company, was decided last week in favor of the Ogdensburg and Lake Champlain Company. The motion was to shut out the plaintiffs from Court, on the ground that they had received rents from the Vermont Central since the commencement of the suit.

The Dickson Manufacturing Co. of Scranton,

Centennial Items.

Ex Governor Bigler, of Pennsylvania, Financial Agent of the Centennial Board of Finance, reports the following subscriptions to Centennial stock taken within a few days:—In Boston, to the amount of $15,000; in Buffalo, $1,000; in St. Louis, $1,000; in New York city, $1,000; in Jersey City, $1,000.

We learn from Paris, that M. de Lafayette, President of the French Commission for the Philadelphia Exhibition, states that encouraging letters have been received from all parts of France, and that many deputations from the metal manufacturers, the principal wine growers of the Gironde and the merchants of Lyons have visited the committee and promised active co-operation.

Professor Baird will have a whole building in the Centennial devoted to an exhibition of fish and fish culture, and models of every boat, vessel and seine used in capturing the fish. The Swedish Government has appropriated $100,000 for a similar object.

A firm in New York is manufacturing a fishing rod for the Centennial which is to cost $2 000.

The Pennsylvania Railroad Company are building at Altoona a car intended for hauling passengers from Philadelphia to Fairmount Park during the Centennial. The car is built like a gondola, with three seats running parallel with the track.

☞ A meeting of the directors of the Baltimore and Drum Point Railroad Company will be held at Annapolis, Md., in June, to elect a President and other officers, with a view to carrying out the construction of the road.

THE
James Cement Co.,
(Successors to J. B. JAMES,)

Manufacture a superior quality of ***Rosendale Cement,*** put up in good barrels made by themselves, and well papered. Address

J. B. JAMES, Pres't,
24 Dey St., New York.

LAWRENCEVILLE
CEMENT COMPANY.
ROSENDALE
HYDRAULIC CEMENT.

This Company Manufacture Hydraulic Cement of a Superior quality at Rosendale Ulster County, New York. This brand of Cement has been extensively used for past years upon Fortifications and Government Works, giving universal satisfaction, meeting the approval of our best Architects, Engineers, Contractors and Builders.

It is put up in substantial barrels, made by the Company, thoroughly seasoned and well papered, containing 300 lbs. of Cement.

All orders will receive prompt attention.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

L. M. Brigham, KINGSTON, N. Y. J. H. Butts, Ag't, 95 LIBERTY ST., N. Y.

HOFFMAN
ROSENDALE CEMENT,
Being the STANDARD CEMENT used at the
BROOKLYN NAVY YARD.
MADE AND SOLD BY
THE LAWRENCE CEMENT CO.
M. W. WOODWARD, Sec'y,
No. 67 William St., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY,
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.

WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.

For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

American Railroad Journal.

New York, Saturday, May 8, 1875.

The Position of the Pacific Railroads.

Twenty-five years ago the advocates of a railroad line to the Pacific Coast were regarded as a set of visionaries. Even Senator Benton, in introducing his first bill on the subject to Congress, was not quite sanguine enough to propose a continuous iron track to California, but limited it to a "railroad where practicable," and to a wagon road for the remainder of the distance. The sturdy Californians, who were the first to show their faith in the feasibility of the plan by putting their own money into it, were so dismayed at the enterprise that after the passage of the act of 1862, granting lands and credit in aid of the road, their agent telegraphed to his associates in Sacramento: "We have drawn the elephant; now go to work." Under that act the companies were required to build forty miles of road before receiving a dollar from government; and they had 33 miles of heavy work completed when the act was changed so as to permit the companies to draw bonds on the completion of 20 miles of road. Even after that date the whole Union Pacific Railroad franchise, with the privilege of building the line as far as the California boundary with all its lands and subsidies, was hawked about Wall Street, and could have been purchased outright for half a million in cash—this same road, be it remembered, out of which, it is alleged, so many millions have been made in the construction. After the road was begun from this end there were few who believed it would be built within a life-time; but on the contrary, many predictions that it would be carried to the mountains and there stop. Middle aged journalists put themselves on the record that the road was so long that one end would be worn out before the other was built.

In what a different aspect the Pacific Railroad now appears! How marvelous the change within a few years! After its first completion there came the doubt whether there would be business for it; then there were doubts if it could be kept open during the winter season; then, again, the road had cost so much from mismanagement, haste and waste, and had so piled up the indebtedness against it, that the public were skeptical whether the stock capital had any value at all. The 1,032 miles of single track stretching from Omaha to the eastern shore of Salt Lake are made to have cost $110,000 per mile, or more than double some of our best double-track roads—could anybody ever expect the road to earn reasonable interest on that amount? Yet what do we now see? The six per cent. first mortgage bonds above par, the seven per cent. land bonds near par, the third mortgage bonds above 90, and the stock selling at 75, with the promise held out of a regular six per cent. dividend! Presto! what magical change is here!

While the trunk lines east of Omaha are cutting one another's throats in fierce competition, the Pacific Railroads are masters of the situation. They are not only independent, making their own terms over their own lines, but they stand in the attitude of patrons having favors to bestow on one or other of the eastern connections. The only competition which the Pacific roads had to contend with was that via Panama and the Pacific steamships, and that has been surrendered to the Railroad Companies. The Pacific Mail having been silenced, the outstanding differences with the Kansas Pacific were taken up next in order; and the latter Company also promptly surrendered, consenting to divide the ownership of their own line with the Union Pacific rather than risk competition with the Julesburg branch of the latter. The New York parties, having carried the affairs of the Union Pacific all their own way, observers are wondering which will be the next victim. The three lines to Chicago hold each other in check, and can be left to a more convenient season; but having gained control of the Kansas Pacific, it is natural of these Union Pacific magnates to want a road of their own into St. Louis, viz: either the old Missouri Pacific—a direct line—or the old North Missouri (now called St. Louis, Kansas City and Northern) which has to cross the Missouri River twice to make the connection.

The Atlantic and Pacific Railroad Company have, however, possession of the Pacific Railroad of Missouri by a somewhat onerous lease, to whom it is a necessity, forming their sole entrance into the City of St. Louis; and as it and the line on the north bank of the Missouri are well loaded up with indebtedness, it is an interesting problem to see which of them will first succumb to the pressure brought to bear through the money markets.

East of the Mississippi it is by no means certain whether the great minds of the Pacific Railroad have any designs; but on the Pacific Ocean it appears the Pacific Railroad Compa

nies, together, are in earnest in having a line of steamers of their own to take at least a share of the China and Japan trade. The business of the Pacific Mail ships will be given to the railroads, besides all they can bring by their own vessels. The two steamship companies will, in all probability, ultimately be consolidated, and the lines to the Isthmus, on both oceans, reduced to a small class of vessels. In other words, the owners of the Pacific Railroads are exerting by far the greatest influence in money and transportation matters, at this time, of any men in the country.

Is all this based on real solid success; or is it the transient bubble of speculation? So far as the main line to the Pacific is concerned we regard it as a substantial and deserved success. We have always held that the Companies were in the right in their controversy with the government in regard to the interest on subsidy bonds. The roads have been brought up to a high state of efficiency; the winter storms have been overcome, and the damage by freshets on this side of Salt Lake will be remedied by changing the grade at critical points along 200 miles of the line. Notwithstanding the extensive wash-outs on the line, the earnings for April are reported to be far in excess of those for April 1874, and though the net profits may be cut into by repairs, the future prosperity of the road is not seriously touched.

The Coal Trade.

The total anthracite production reported for the week ending on the 24th ult., is stated by the Philadelphia *Ledger* at 271,164 tons, and for the year to the same date 3,318,489 tons, against 4,855,965 to the same time last year, showing a decrease of 1,537,476 tons. The bituminous production reported for the week was 58,797 tons and for the year 796,450 tons, against 738,085 tons to corresponding date last year, an increase of 58,365 tons. The total production of both kinds of coal for the week was 329,961 tons, and for the year 4,114,939 tons, against 5,594,050 tons o corresponding time last year, showing a decrease in both kinds of 1,479,111 tons. The quantity of coke and coal transported over the Pennsylvania Railroad for the weeks was 70,905 tons, and for the year 941,057 tons, of which 782,240 was coal and 168,817 coke. This embraces all the coal carried both east and west. The *Ledger* adds:

The corporations of Lackawanna and Upper Luzerne are working their mines day and night and shipping loaded cars to New York. The Delaware and Hudson Coal Company and the Delaware, Lackawanna and Western Railroad Company have issued circulars of their prices for coal for May, which show an advance of twenty cents per ton instead of fifteen, the usual advance. This advance in price will no doubt continue until all the regions go to work, when the usual programme will be adopted. The prices of coal at Rondout and at Hoboken are both the same—Lump, $4 80; steamer, $4 90; grate, $5; egg, $5 15; stove, $5 60, and chestnut, $4 60. At Newburg the prices of Pennsylvania Coal Company's coal have been fixed at $4 85 for lump and steamer, $4 95 for grate, $5 05 for egg, $5 55 for stove, and $4 60 for chestnut. Rodgers, Sinnickson & Co. offer on board vessels at Greenwich the Franklin Lykens Valley coal at $6 for broken, egg and stove, $6 10 for stove, $4 95 for egg, and $5 25 for chestnut.

To Prevent Cars Jumping the Track.

To prevent the numerous accidents to which railroad trains are liable from one car jumping the track, it is proposed to apply to cars a kind of shoe, consisting of a clamp-like arrangement which is affixed between the wheels of each truck. This runs about two inches above the rail, and if anything happens to throw the wheels from the track the clamp at once grasps the rails, holds the car on the track, and brings the train to a speedy halt. Such a shoe will, it is claimed, prove a great saving of railroad rolling stock, and will add one third to the strength of the truck, it being constructed of iron and weighing about 500 pounds. It is found by experiments made with cars provided with this device that the arrangement insures perfect security against the class of accidents it is designed to meet, and it is also estimated that on account of this additional strength which such an attachment must necessarily supply a car must last twice as long, on an average, with as without it.—*Harrisburg Patriot.*

Connecticut River Railroad.

The earnings of this road for the years ending September 30, 1873 and 1874, were as follows:

	1873.	1874.
From passengers	$348,738 12	$347,704 43
" freight	365,963 49	321,527 78

" July	95,000 00	102,500 00
Surplus September 30	228,409 40	214,116 84
Total, as above	$491,168 74	$490,096 82

Compared with the figures for the preceding year the income account shows a decrease of $44,898 29 and the expense account a decrease of $44,492 07, resulting in a diminution of $406 22 in net income. In view of the general falling off in railway traffic, this result is more satisfactory than was to have been anticipated.

Under the head of car repairs, the expense account includes, in addition to ordinary repairs, a new post office and baggage car, costing $5,000, the placing of the Miller Platform on 9 cars at a cost of $2,200, and Power Brakes on 19 cars at a cost of $2,100.

The Miller Platform and the Power Brake are now attached to nearly all our cars.

Nine locomotives have also been provided with the Power Brake (eight of which have it applied to the driving wheels) at a cost of $2,500, and a further sum of $4,800 has been expended upon a new locomotive not yet completed.

The road department has been provided with fifty tons of iron, fifty tons of Silicon Steel, and four hundred and fifty-two tons of Bessemer steel rails, one hundred and twenty kegs of spike and about 35,000 cross ties; the full cost of the steel rails being carried to the account of operating expenses. Had the difference, at $35 per ton, between the cost of so much new iron rail and the cost of Bessemer steel rails been carried to construction account, the net income would have been increased by $15,820.

In addition to ordinary repairs, the station accommodations of the road have been improved by the erection at "Brightwood" of a passenger house combined with a dwelling for the station keeper, at a cost of $4,000, and the enlargement of the Chicopee Falls station buildings, at a cost of $2,000, all being charged against the income for the year.

The arch of a stone bridge over a highway in Greenfield having come to need extensive repairs, it was decided to rebuild the entire structure and adapt it for two tracks. This was done at a cost of about $2,000, one-half of which was carried to construction account and the other half set against the income of the road.

Since our last annual report the second track has been completed between Holyoke and Northampton. It was opened for business on the first of August. With limited exceptions both the tracks between Springfield and Northampton are laid with steel rails; the aggregate length of steel rail now in the entire road being 39 miles.

The amount expended during year on the second track, and charged to construction account, is $210,819 55. The cost of the road with its branches and equipment now stands at $2,680,417 32, or say $47,865 per mile of road.

Fifteen hundred additional shares of capital stock have been issued and sold during the year for $208,209 12. The present amount of capital stock is $2,100,000. The mortgage debt is $250,000 and matures in September, 1878. The sinking fund established for its payment now amounts to $165,137 45.

The company have 19 locomotives, 25 passenger, 2 sleeping, 6 smoking and baggage, 6 smoking and Post-office, 2 baggage and express, 132 house freight, 121 platform freight and 32 stone (platform) cars, and 1 steam car. Miles run with passenger trains, 197,223; with freight, etc., trains, 157,232—total 354,455. Number of passengers carried, 1,121,005; do., carried one mile, 12,189,908. Tons of freight carried, 327,893; carried, one mile, 8,028,601. Earnings per mile of road, $12,614 38. Earnings per mile run, $1 93.3; operating expenses per mile run, $1 25.5; net earnings per mile run, $0 72.8. Percentage of expenses to earnings, 67.

BALANCE SHEET, September 30,

	1873.	1874.
Cost of road and equipment	$2,469,597 77	$2,680,417 32

The office of the company is at Springfield, Mass. The officers are:

President.—DANIEL L. HARRIS.

Directors.—Daniel L. Harris, Ignatius Sargent, I. M. Spelman, Edward A. Dana, Chester W. Chapin, Oscar Edwards, W. B. Washburn, Roland Mather, S. M. Waite.

Clerk and Treasurer.—SETH HUNT.

Auditor.—JOHN WHITTELSEY.

Superintendent.—JOHN MULLIGAN.

The Maryland Passenger Tax.

In the case of the Baltimore and Ohio Railroad Company vs. the State of Maryland, the Supreme Court of the United States on the 3d inst. affirmed the judgment of the State Court of Appeals against the company for $500,000. This was an action by the State to recover the one-fifth part of the whole amount of the moneys received by the railroad company for the transportation of passengers over the Washington Branch of the road from 1865 to 1870. The claim of the State was based on the charter under which the Washington French was constructed, one condition of which was that the company should pay this proportion of the passenger earnings of the road into the Treasury of the State. The charter with this condition was accepted by the company and the payment made as required for many years, but finally the constitutionality of the stipulation was disputed and further payment was refused. Upon these facts this Court holds that a stipulation in the charter of a railroad company that the company shall pay to the State a bonus or a portion of its earnings is not repugnant to the constitution of the United States. Such a stipulation is different in principle from the imposition of a tax in the movement or transportation of goods or persons from one State to another. The latter is an interference with and a regulation of commerce between the States and beyond the power of the State to impose, the former is not. The power of a State to construct railroads and other highways, and to impose tolls, fare or freight for transportation thereon, is unlimited and uncontrolled. The disposition of the revenues thus derived is subject to its own discretion. But a State cannot impose a tax on the movement of persons or property from one State to another. The cases of Crandall vs. Nevada (16 Wall, 42), and the freight tax cases (16 Wall, 232) are cited and reaffirmed. Relief from burdensome and onerous rates of transportation, imposed under State authority, must be sought in the competition of different lines, and, perhaps, in the power of Congress to establish post roads and to facilitate military and commercial intercommunication between different parts of the country. The charter of the Baltimore and Ohio Railroad Company for constructing and operating the branch railroad between Baltimore and Washington contained a stipulation that the company at the end of every six months should pay to the State one fifth of the whole amount received for the transportation of passengers. This condition was within the power of the State to impose and it was accepted by the company. It was a contract to pay and not a receipt of money belonging to the State and if it were unconstitutional the objection could be set up as a defence to an action brought by the State to recover the money. The alleged unconstitutionality of the stipulation being set up as a defence, the State Court was bound to pass upon it, and having decided against the exemption claimed, this Court is authorized to review the decision. Affirmed.

Mr. Justice Bradley delivered the opinion. Mr. Justice Miller dissented, holding that the statute of Maryland making this requirement of the road in respect of passengers over the Washington branch, confined as it was exclusively to this part of the road, was intended to raise a revenue for the State from all persons coming to Washington by rail, and had that effect for twenty-five years, and that the statute is therefore void within the principle laid down in Crandall vs. Nevada. This case is cited also by the Court, as will be seen above, in support of the majority opinion.

Naugatuck Railroad.

The receipts from operations of this road for the years ending September 30, 1873 and 1874, were:

The office of the company is at Bridgeport, Conn. The officers are:

President.—E. F. BISHOP.

Directors.—W. D. Bishop, R. Tomlinson, E. F. Bishop, J. G. Wetmore, A. L. Dennis, N. A. Baldwin, J. B. Robertson, R. M. Bassett, F. J. Kingsbury.

Secretary and Treasurer.—HORACE NICHOLS.

Superintendent.—GEO. W. BEACH.

Vacaville and Putah Creek R. R.

The Vallejo Chronicle of April 18th says: Grading on the Vacaville and Putah Creek Railroad is nearly done, and most of the hands are discharged. Some 5,000 ties are on the ground, and they will commence laying two miles of the track this week. Stevenson says that this two miles is probably all that will be laid till some time in June. When they resume tracklaying they will push it through to Wintersville in a short time. Wintersville has been known as a town, thus far, only on paper, but we are informed that they commence selling lots there in a few weeks. At present they are repairing the old track, raising it in low places, rebuilding and strengthening culverts and bridges, and in fact giving it a general overhauling. They are going to get another engine soon.

☞ The work of constructing the Lake Tahoe (Nev.) Narrow Gauge Railroad is being pushed forward with all possible dispatch, and will be completed early in July. About fifty men are at work on the tunnel in the vicinity of Spooner's Station. The road will be laid with steel rails weighing thirty-five pounds to the yard, and will be provided with two Baldwin locomotives weighing twenty three tons each.

☞ The Findlay, Lima and Southwestern Telegraph Company, with a capital stock of $10,000, in shares of $50 each, was incorporated on the 29th ult. by George H. Miley and others. The line is to extend from Findlay to Lima, Ohio.

☞ The Sigourney branch of the Chicago, Rock Island and Pacific Railroad will be pushed forward this year as far as Oskaloosa.

Frederick and Pennsylvania Line Railroad.

The lease of the Frederick and Pennsylvania Line Railroad to the Pennsylvania Railroad Company was filed in the office of the County Clerk of Frederick Co., Md., on the 21st ult. The lease is for the term of nine hundred and ninety-nine years from the 1st of January, 1875, unless sooner determined, the stipulation being that it can be annulled after the 1st of January, 1880, by giving one year's notice. The Pennsylvania Railroad Company is to receive all freights and fares, to make all improvements required, and in case the Pennsylvania Railroad Company does not make the necessary improvements, the Frederick and Pennsylvania Line Railroad Company are to issue their bonds to the amount of $300,000 for this purpose. The Pennsylvania Railroad Company is to apply the freights and tolls collected by them: First, to the payment of the working expenses of the road, excepting salaries of chief officers and for freight cars. Secondly, to the payment of interest upon a judgment to be given by the Frederick and Pennsylvania Line Railroad Company to the Pennsylvania Railroad Company for $115,000, said sum having been advanced by them (the Pennsylvania Railroad Co.) to pay off the present floating debt of the Frederick and Pennsylvania Line Railroad Co. Thirdly, to the payment of the interest on such other floating debt of the Frederick and Pennsylvania Line Railroad Company as may be hereafter incurred by the consent in writing of the Pennsylvania Railroad Co. Fourthly, to the payment over to the Frederick and Pennsylvania Line Railroad Company semi-annually out of the surplus, if any, such sum as may be necessary to pay the matured and maturing coupons for interest on the bonds ($500,000) of the Frederick and Pennsylvania Line Railroad Company, secured by the mortgage on said road, which have already been issued, or may hereafter be issued under the provisions of the lease. But if the net earnings of the road applicable to the payment of said coupons shall at any time during the period of five years from date of lease be insufficient to pay said coupons as they mature, then the Pennsylvania Railroad Company agrees to purchase such unpaid coupons at maturity at their par value. Fifthly, to the payment of the principal of the floating debt of the Frederick and Pennsylvania Line Railroad Co., including the amount secured by the above-mentioned judgment given by the Frederick and Pennsylvania Line Railroad Company. Sixthly, to the repayment to the Pennsylvania Railroad Co. (after paying over such sum as may be necessary for the payment of interest on the bonds) of the cost of any improvements made by them on the Frederick and Pennsylvania Line Railroad, and not paid for by said Frederick and Pennsylvania Line Railroad Co. Seventhly, to the payment to the Frederick and Pennsylvania Line Railroad Company semi-annually of the residue of surplus, if any, to be applied by them as they see fit, and to their own use and benefit. The Pennsylvania Railroad Co. agrees to keep the road in good order and repair and the buildings insured, and to deliver it up at the expiration of their lease in as good condition as it is now, or may be put in during the term of lease, the Pennsylvania Railroad Co. to keep account of receipts and expenses of said road, and to furnish the Frederick and Pennsylvania Line Railroad Company monthly accounts of gross receipts and semi-annual accounts of all business. If any difference shall arise in regard to the lease, or any other cause arising under it, to be referred to arbitrators, whose decision shall be final; that if the Frederick and Pennsylvania Line Railroad shall be extended, the Pennsylvania Railroad Co. shall have the right to take and operate the same upon like terms as those specified in the lease.

The Pennsylvania Railroad Company will take formal possession about the middle of May.

Atlantic and Pacific Telegraph.

At the annual meeting of the stockholders of this company held in this city on the 28th ult., the President, Thomas T. Eckert, submitted his report on the progress of the company during the year 1874. According to that report the lines extend from New York City, via Albany, Saratoga, Oswego, Syracuse, and Buffalo, N. Y., thence by two routes to Omaha, Neb., and via the Union Pacific Railway to Ogden, Utah, with various branch lines, and having connections with the lines of several railroad companies and local tele graph companies. At Ogden they connect with the Central Pacific Railroad Company's system of lines. During the year 1873 the company pur chased in its corporate name a majority of the stock of the Franklin Telegraph Company, whose lines extend from Rye Beach, N. H., via Boston to Washington, connecting, via New York, Philadelphia and Baltimore, with all the most important intermediate cities and towns, and, by lease of the Northern Telegraph Company, with the principal towns in New Hampshire; and, by con tract with the lines of the Southern and Atlantic Telegraph Company, extending from Washington City, through the most important cities and towns on and near the Atlantic and Gulf coasts to New Orleans. At Oswego and Buffalo, N. Y., and Detroit Mich., they connect, under contract, with the lines of the Dominion Telegraph Company of Canada. At Rye Beach, N. H., they connect, by contract, with the Direct United States Cable Company. New lines were constructed during the year to the extent of 728¼ miles. The whole system of lines and connections covers 14,612 miles of poles and 28,477 miles of wire, and affords direct communication with 1,385 offices. The number of miles of pole line in the direct control of the company at the close of the year was 5,097, and of wire, 12,039. The authorized capital stock is $10,000,000; the amount issued at the end of the year 1874 was $9,578,100; the net profit was $51,-422 04. The company had on hand at the close of 1874 net assets amounting to $197,113 44, in addition to its treasury stock, besides materials and supplies sufficient for about two months' use. The company is free from debt of every kind. In November, 1874, a lease of the lines and property of the Franklin Company was negotiated. Since the beginning of this year the company has acquired working possession of the American automatic System of Transmission, which readily admits of instant change from ordinary Morse to Automatic. The company has also purchased the exclusive right to the use of the Wheatstone Automatic System of Transmission in the United States and the Island of Cuba, lately patented in this country by Sir Charles Wheatstone. The company has also purchased the inventions known as the duplex and quadruplex.

The company has recently taken charge of the Marine Line, New York to Sandy Hook. The steamer Faraday left England on the 5th April for the purpose of completing the United States direct cable.

Arrangements are now being made for an additional route from New York City to St. Louis, Mo., from Chicago to Milwaukee, and from Rye Beach, N. H., to Portland, Me. The gross receipts for the first three months of this year were $180,736 42 The increase in March over February was over $7,000, and over January nearly $8,000. The following persons were chosen to fill the places of Trustees of the company during the ensuing year: Oliver Ames, Elisha Atkins, S. L. M. Barlow, Benjamin E. Bates, F. Gordon Dexter, Sidney Dillon, G. M. Dodge, Thomas T. Eckert, William H. Guion, Jay Gould, C. P. Huntington, S. M. Mills, J. H. Mortimer, C. J. Osborne, G. G. Sampson, James D. Smith, E. D. L. Sweet, W. J. Syms, Henry M. Taber.

Joining the Two Oceans.

The Panama surveying expedition, under charge of Commander E. P. Lull, arrived in this city recently, having completed the survey of the Isthmus of Darien. It is stated that the result of the survey has clearly demonstrated the practicability of constructing an interoceanic canal route. The report that the party had finished their survey from Panama to Aspinwall, and had pronounced it to be the most desirable route for the contemplated canal, was received with great satisfaction by the people of Panama. During the progress of the survey the Congress at Bogota manifested its interest in the project by the introduction of a bill in the House of Representatives by one of the Deputies from Panama to authorize the appointment of an exploring commission of Colombian engineers to examine three routes for a canal.

The first of these routes was that which has been surveyed by Commander Lull, and which is the one selected by Garella, the French engineer, and runs from Limon Bay, on the Atlantic, to the Bay of Vaca del Monte, on the Pacific. The second was from the Bay of Mundinga, on the Atlantic, to the mouth of the Chepo river, on the Pacific. The third route was that inspected and reported upon by Captain Selfridge. Should the explorations made by this commission be found to agree with those made by Commander Lull, the government will publish the report of their engineers in this country and Europe, and lend every assistance to the construction of the canal. The full account of the result of Captain Lull's explorations will not be made public until it is presented in an official form to the United States government.

☞ The semi annual interest on the debt of New York City was paid at the Chamberlain's office on the first of May. The amount required for this purpose was $8,472,768 64. Of this the Sinking Fund Commissioners received $671,232 22.

☞ The city of New Orleans, La., defaulted on interest and on bonds maturing on the 1st inst. The Louisiana Levee Company also failed to pay interest on its bonds.

New Steamship Line on the Pacific.

By European advices, we learn, on the best authority, that the Occidental and Oriental Steamship Company of California have dispatched the well-known White Star steamer Oceanic from Liverpool to Hong Kong, where she will take her place in the line to and from San Francisco. The Gaelic and Belgic, sister ships, nearly new, will follow her shortly, and together form a regular monthly line across the Pacific. These ships, though belonging to an entirely distinct and independent corporation, will be run in co-operation with the vessels belonging to the Pacific Mail Company, making alternate trips with them. The new line vessels are very large, and are furnished with great carrying capacity as well as great speed. It is believed that the time heretofore occupied in the passage between London and the Asiatic ports via the Pacific Railroad route, will be shortened considerably, a through schedule of forty days or less being in contemplation for passengers and mails. The Oceanic will arrive out so as to leave China for San Francisco early in June, and will be due in San Francisco about July 1st with a cargo of new crop teas, silks, &c., the other ships will follow at regular intervals. Each ship is capable of carrying 5,000 tons, or sufficient to load up a train of 50 cars for 10 or 12 days. The through business of this line and the Pacific Mail will be concentrated on the Pacific Railroad route. It was to develop the trade of Eastern Asia to much greater dimensions, and to encourage the use of the overland line for this traffic the new organization was started, and it is understood the Central and Union Pacific Railroad Companies are among the chief promoters of the enterprise. The company start their vessels under favorable auspices, as most of the passengers between Europe and China would prefer a route equally speedy, which avoided the perils of the Red Sea and Indian Ocean.

☞ The travel over the new route through from Bakersfield to Los Angeles via Southern Pacific Railroad to Caliente and Tehachepi Pass, was inaugurated by the first passenger train going over the new road on the 26th of April. Stages for Los Angeles, Kernville, Panamint and Lone Pine leave Caliente daily on the arrival of the morning train.

☞ The Alabama and Chattanooga Railroad was sold at Mobile on the 3d inst. by the Master Commissioners to the Trustees for the first mortgage bondholders for $1,200,000 over and above the lien created by the Receiver's certificate, court costs, &c.

☞ The earnings of the Cheshire Railroad for the year ending April 1, 1875, were $750,608, the expenses, $642,181, and the net earnings $108,427. Balance after paying interest on bonds, $67,644.

☞ Conductors on the Pennsylvania Railroad will in future collect ten cents extra of passengers paying fares in the cars, for which a receipt will be given redeemable at any ticket office of the company.

☞ The building of the first section of the Gulf, Colorado and Santa Fe Railroad was commenced on the first of May at Galveston, Texas, in presence of a large number of citizens.

Railway between Western Europe and India.

The prospectus of the new Russian railway loan mentions certain railways for whose construction the money is to be raised, which may perhaps come to have another direct interest for this country apart from that now suggested. It seems possible from the progress of events that the railways in question may come to form part of the first through railway between Western Europe and India. This is especially the case with the Rostov-Vladikavkaz line, which was in the programme of the prospectus of the 1873 loan as well as in the present prospectus, and with which we, therefore, suppose some progress has already been made, so that its completion is now only a question of a comparatively short time. A glance at the map will show that this line will extend the railway system of Europe to the Caucasian range at a point only a very short distance from Tiflis, and much nearer to India than the extreme eastern terminus of any other extension of the European railway system. Rostov is already connected with the network of railways in Southern Russia, which are in turn connected through Roumania, Galicia and Russian Poland with the railways of Austria and Germany. The extension from Rostov to Vladikavkaz, to be shortly, we may assume, further extended to Tiflis, thus brings the entire European system into communication with a point on the Asiatic frontier which is the nearest to India of any point where the two continents of Europe and Asia meet. The distances by M. de Lesseps' route through Central Asia are enormous, compared with what requires to be overcome on the Tiflis route; and as regards the only other competing route, viz, by way of Constantinople, not only is Constantinople itself more distant from India than Tiflis is, but the connection between Constantinople and the railway system of Austria is yet incomplete, and is not likely to be soon completed as the Russian line to Vladikavkaz. The railway route to India by way of Russia and Tiflis will therefore offer itself first for completion, and when once the extension to Tiflis is completed, we should think that the idea of bridging over the interval between Tiflis and India will force itself on attention.—*Economist.*

☞ Articles of incorporation of the Brooklyn and Fruitvale Railroad Company were filed with the Secretary of State of California on the 26th ult. This company was organized for the purpose of constructing and maintaining a railroad from the track of the Central Pacific Railroad at Brooklyn to Fruitvale Avenue, both in Alameda county, a distance of about two and a half miles. Capital, $20,000, in shares of $100 each. Directors—E. C. Session, C. T. Hopkins, Wm. K. Flint, J. V. Webster and James Larue. The principal place of business will be in Oakland.

☞ A lively interest is springing up along the line of the Milwaukee and Dubuque Narrow Gauge Railroad, in the different counties through which it will pass. On the 25th of May, the town of Vernon, Waukesha county, will vote on the question of issuing $20,000 worth of bonds in favor of the road. Several other towns in the county will vote during the summer on the same question. The result from Vernon is anxiously looked for, as it is probable the vote will have a marked effect on the other towns.

☞ Railroad iron amounting to 352 tons, shipped to Stockton for the Stockton and Ione Railroad, with other material of the Stockton and Ione Railroad Company, it is to be shipped to Palisade, Nevada, to be used in the construction of the Palisade and Eureka Narrow Gauge Railroad.

Contractors' Lien on the Funds of a Corporation for Services Rendered.

In the case of Dillon vs. Barnard *et al.*, assignees in bankruptcy, of Boston, Hartford and Erie Railroad Co. and others, trustees—appeal from the Circuit Court for Massachusetts—the United States Supreme Court, in its decision on the 3d inst., held that a demurrer to a bill in equity does not admit the correctness of the averments as to the meaning of an instrument set forth in or annexed to the bill; that to create for future services of a contract a lien on particular funds of his employer there must be not only the express promises of the employer to apply them in payment of such services upon which the contractor relies, but there must be some act of appropriation on the part of the employer relinquishing control of the funds and conferring upon the contractor the right to have them applied when the services are rendered.

In an indenture of mortgage executed by a railroad corporation to the trustees, to secure bonds issued to raise money to pay off its existing indebtedness and to complete and equip its road, the corporations covenanted with the trustees, among other things, that the expenditures of all sums of money realized from the sale of bonds should be made with the approval of at least one of the trustees, and that his assent, in writing, should be necessary to all contracts made by the company before the same should be a charge on any of the sums received from such sales.

It is held that a contractor agreeing with the corporation to construct a portion of the road and obtaining the assent of two of the trustees to his contract, and subsequently doing the work, did not acquire any lien for the payment of his work under this covenant of the indenture on the funds received by the corporation from the bonds. Affirmed. Justice Field delivered the opinion.

Cincinnati Southern Railroad Bridge.

The Trustees of the Cincinnati Southern Railroad, at their meeting held in Cincinnati on the 30th ult., awarded the contract for the construction of the bridge over the Kentucky river to the Baltimore Bridge Company of Baltimore. The bridge will cross the Kentucky river at the mouth of Dix river, about ten miles below Nicholasville, and with a single exception will be the highest bridge in the world. It will be an iron truss bridge of three spans, each 356 feet in length, supported by two piers, the ends resting upon the rocky bluffs which rise on either side of the river to the immense height of 275 feet. The piers will be of iron, four columns, 176 feet in height, approaching each other as they ascend, and firmly braced, resting on the top of enormous stone piers, 61 feet in height and 124 feet in length by 39 in width at the top. The bottom of the bridge will be 220 feet above extreme high water, and 275 feet above the bed of the river. The trusses will be of wrought iron, and 38 feet in depth. The piers will be placed almost on the water's edge, so that there will be no obstruction whatever to navigation. The cost is to be $377,509.

☞ The Capital and South Washington Street Railroad Company was organized at Washington, D. C., on the 1st inst. The following directors were chosen: R. F. Fuller, Joseph Williams, Wm. Saunders, G. A. McIlhenny, W. J. Cowing, S. R. Bond and Hallett Kilbourn. A portion of the road will be placed under contract at once.

American Railroad Journal.

Saturday, May 8, 1875.

Financial and Commercial Affairs.

The Money market has been more active, and toward the close quoted firmer, especially for accommodation on call, for which the inquiry has been more urgent, chiefly in connection with the speculative operations at the Stock Exchange. The offerings on bank and private account have been comparatively liberal at the ruling figures. The banks have been gainers in legal tenders and deposits, while reporting a considerable loss of specie, due, mostly, to the free export movement of the past week. The current week's shipments of specie also promise to reach a large aggregate. The Treasury Department is, this month, a seller of Gold, chiefly to replenish the currency balance, which is now down to a very small sum. The Gold sales on Treasury account, as announced officially, will be to the amount of five millions, as follows: Thursday, May 6, $1,500,000; Thursday, May 13, $1,000,000; Thursday, May 20, $1,500,000; and Thursday, May 27, $1,000,000. The City banks are now stronger in legal tender reserves than they have been for some time past, the average being up to $57,132,200, as per the last weekly return, against $55,883,000 this time in 1874, and $40,051,700 same time in 1873. The banks are, however, weaker in their reserves of specie, but cannot fail soon to benefit in this line by the Treasury Disbursements, which, for the next three months, will be unusually liberal. Call loans are quoted at from 3@5 per cent, and the best mercantile credits at from 4@6 per cent per annum. The offerings of strictly choice grades of commercial paper are very moderate for the season, due, in part, to the comparatively tame movements in general business. The City banks last week increased their reserve of legal tender notes $3,161,900 and their deposit item $3,135,800, while reducing their specie average $2,534,100. They report a reduction of $2,367,900 in the loans and discounts, and a falling off of $361,900 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $41,481,144, against $41,888,239, the preceding week; and a coin board of $60,654,614, against $60,193,619, on the previous return. The City bank exchanges in currency during the week, were $500,100,599, or a daily average of $83,350,099. The customs revenue of the port, during the week, was $1,945,514. The City banks reported their average of gold last week at $9,511,800, and their greenback average at $57,132,200. Their deposits stood at $221,062,100. The loan item was $278,253,900. The circulation was $20,784,300.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $11,378,475.

The aggregate of the outstanding U. S. currency, of all denominations, May 1, was $423,614,253. The outstanding amount of legal tender notes is $378,051,760. The National bank circulation is now $350,536,886.

The Secretary of the Treasury has ordered legal tenders to the amount of $1,175,140 to be withdrawn from the available currency of the Treasury and redeemed and destroyed, being 80 per cent. of the additional circulation issued to banks during April.

The U. S. Treasury balances on Wednesday were as follows: Currency, $1,242,393; special deposit of legal tenders for redemption of certificates of deposit, $48,630,000; coin, (including $22,483,300 in coin certificates,) $90,515,116.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $4,744,842.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 91½ millions.

Government has issued another call for five millions of the 1862 Five Twenties, interest on which is to cease on the 1st of August next, as follows: Fifties, Nos. 17,101 to 18,700; one hundreds, Nos. 44,201 to 48,100; five hundreds, 22,410 to 25,000; one thousands, 70,951 to 75,840. The calls now out amount to $60,000,000 as follows: 14th, $15,000,000, expires May 1; 15th, $5,000,000, expires June 1; 16th, $30,000,000, expires June 11; 17th, $5,000,000, expires July 20; 18th, $5,000,000, expires Aug. 1.

The U. S. Sub Treasury receipts from all sources at this port in April were $47,048,259, including $9,819,441 from customs; payments on all ac-

counts, $43,318,794, including $2,608,388 of coin interest.

The specie shipments from San Francisco, from Jan. 1, to April 22, were $15,369,051 against $6,395,843 same time last year.

Gold has been quoted firmer in price, and more active, in the line of speculative dealings, with an increased export movement also noted. The customs call has been comparatively moderate. The extremes of the week have been 115⅛@115½, closing on Wednesday at 115¼ as against 115¼ on Wednesday of the preceding week. The specie outflow last week was $3,005,370. The imports of specie at this port since Jan. 1, have been $5,593,610 against $1,267,664 same time last year. The customs demand for Gold last week averaged $324,252 a day. Foreign Exchange has been in fair demand and quoted steady. Bankers' sixty day bills on London closed on Wednesday at $4 87¼@$4 88; sight bills on London at $4 90¼@$4 91 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,964,837.

Government Securities have been quite active and strong in price, though the later dealings indicated some falling off in the investment inquiry. The last public debt statement shows a further liquidation of $2,325,347 in April. In State and Railway bonds, business has been fair, as a rule, with values quoted generally firm. And in the line of Railway and Miscellaneous share property, business has been quite active at buoyant prices, but closed tamer, and with some irregularity as to values.

U. S sixes of 1881 closed on Wednesday of this week at 123½@123⅝; U. S. Five-Twenties of 1862, at 116⅛@116¼; U. S. Five-Twenties of 1864 at 117⅜@117⅞; U. S. Five-Twenties of 1865 119⅜@119⅝; U. S. Five-Twenties of 1865 consolidated, 121⅝@121⅞; U. S. Five-Twenties of 1867, 123⅛@123¼; U. S. Five-Twenties of 1868, 122⅞; U. S. Ten-forties at 117@117¼; U. S. Fives of 1881, (Funding Loan) 115¾@116; Six per cent. currency Sixes from 123@123½.

The earlier issues of the Five Twenties are now quoted, ex the May interest of 3 per cent, as in the foregoing list.

In general business, there has been less activity. Breadstuffs, though held with comparative firmness, have been less freely dealt in. Cotton has been depressed and irregular. Provisions have been less sought after. Pork and Lard closed lower. Wool, Tobacco, Naval Stores, and Petroleum have attracted less attention. Hardware has been in good request. Dry Goods, less active, and rather less firm. Hides, Leather, Skins, Fruit, and Groceries, quite moderately sought after. Metals have been lightly dealt in, as a rule, though Ingot Copper has been in more request and quoted up to 22¾@23. The business in Iron has been quite moderate, though prices have been quoted lower and weak. Eglinton Pig Iron quoted from yard at $30@$32; Glengarnock, $33@$34; No. 1 American Pig at $27@$28; No. 2 do. at $25@$26; Forge, $23@$24; English Rails at $48@$50, gold; American Rails at works, $48@$53; Old Rails, $27 25@$29. Wrought Scrap, $34@$35. Ocean freights have been generally quiet, with rates quoted lower, in most instances.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Improved Steam Canal Boat.

The Cumberland (Md.) News, of 26th ult., says: "The steam canal boat Ludlow Patton, which left this port at half past eleven o'clock on Tuesday morning, April 20, with 109.10 tons of coal, arrived in Georgetown at 1 o'clock yesterday afternoon, having made the distance of one hundred and eighty four and one half miles in three days and one and a-half hours, including the time required in locking. The Patton came to Cumberland from Georgetown empty, in forty six hours, and used four and a half tons of coal in the round trip. Her owners claim that she is the only steam canal boat ever built that has a practical plan for lowering her propeller into deep water, so as to economically propel the boat when empty."

☞ The New York, Kingston and Syracuse Railroad was sold at Kingston, N. Y., on the 1st inst. by T. Beekman Westbrook, Referee, on judgments obtained by the Farmer' Loan and Trust Company, in behalf of the first mortgage bondholders. The road sold for $750,000, and was purchased by the Farmer's Loan and Trust Company representing the bondholders. It cost over $2,000,000, and runs from Kingston to Stamford, Delaware County, N. Y., a distance of seventy five miles. A new company will be organized, and the construction of the road to Oneonta proceeded with.

☞ The Oil Creek and Allegheny River Railroad is advertised for sale under a decree of the Supreme Court, at the Merchants' Exchange in Philadelphia, on the 15th of May.

CINCINNATI LOAN.

$1,500,000 MUNICIPAL BONDS.

THE UNSOLD BALANCE OF THE 7 3-10TH LOAN OF THE CITY OF CINCINNATI

Are offered for sale in Coupon Bonds of **$1,000** each bearing seven and three-tenths (**7 3-10**) per cent. annual interest, payable half yearly, Jan. **1** and July **1**, at the American Exchange National Bank, in New York, where also the principal becomes due in **1902.**

These bonds are part of an issue of $10,000,000 authorized to be made for the construction, **BY THE CITY OF CINCINNATI,** of the Cincinnati Southern Railway, which, being owned by the city, its income is paid directly into the Treasury of Cincinnati. **THE AMOUNT NOW OFFERED FORMS THE ENTIRE UNSOLD BALANCE OF THE LOAN;** eight millions and one-half having been heretofore marketed, and are mostly held by leading insurance companies, savings banks, and estates.

Each proposal will state the rate of premium that is bid, to which will be added accrued interest from Jan. 1 to date of payment, and **NO BID LESS THAN 102 PER CENT. AND ACCRUED INTEREST WILL BE CONSIDERED.**

Full payment may be made and the bonds delivered on **MAY 15**, or at the pleasure of the bidder, at any date not later than July 1. In case of deferred payments a marginal deposit of five per cent. will be required.

Allotments to the highest bidders will be made as early as possible after the opening of the bids.

The right is reserved to reject any proposals, and to allot a portion of any bid, should the total bid for exceed the amount offered.

The undersigned, under authority of the Commissioners of the City of Cincinnati, will receive sealed proposals at the

American Exchange National Bank

FOR

$1,500,000 7 3-10 PER CENT. BONDS,

being the balance of the said city loan, in accordance with the above advertisement.

Bids will be opened MAY 10, prox., at noon.

KUHN, LOEB & CO.,

BANKERS, NO. 31 NASSAU ST.

NEW YORK, April 26, 1875.

Oregon Central Pacific Railroad.

The Oregon Central Pacific Railroad, to connect Portland, Oregon, with the Central Pacific Railroad at Winnemucca, Nevada, is intended to take the following route: On leaving Winnemucca it will run in a northerly direction until it crosses the State line near Camp Bidwell. From that point its course will be more westerly, across Goose Lake Valley, near the lake; thence through Drew's Valley and Sprague River Valley to the Middle Fork of the Willamette; thence down the river to Portland. In the Willamette Valley it will connect with the Oregon and California Railroad, and at the Columbia River with that portion of the Northern Pacific Railroad running south of Puget Sound.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE.

INTEREST ALLOWED ON DEPOSITS.

ADAMS EXPRESS COMPANY

Have established a Branch Office in the NATHAN BUILDING, No. 12 West Twenty-third street; also in the GRAND CENTRAL Depot, Forty-second street, both of which will be found a great convenience to the residents and business community in the upper part of the City.

Packages and freight arriving from the East will be promptly delivered direct from the above offices.

SPECIAL RATES given to shippers for the forwarding of packages of BOOKS, MAGAZINES, CIRCULARS and all kinds of PUBLICATIONS, SEEDS, CUTTINGS, BULBS, SAMPLES and other small PARCELS, when they do not exceed $10 in value.

Packages of the above described articles, weighing not exceeding 2 lb., to any office of this Company, 25 cents each.

If weighing over 2 lb., and not exceeding 5 lb., at the classified rate, but not more than 50 cents.

To any point accessible by Express in any of the SOUTHERN STATES, 30 cents. If weighing over 2 lb., and not exceeding 5 lb., at classified rate, but not more than 60 cents. For points in States of Louisiana (excepting New Orleans) and Texas, when weighing 2 lb. or under, 50 cents; if over 2 lb., and not exceeding 5 lb., 75 cents.

Orders to call for goods in any part of the City, if left at the Principal Office, or Branches, will receive prompt attention.

ADAMS EXPRESS COMPANY,
Principal Office, No. 59 Broadway,
Branch, corner Spring street and Broadway,
IN BROOKLYN, 170 Montague street.

Distances Between the Centennial Buildings.

The distances between the several buildings being erected in Fairmount Park, Philadelphia, for the National Centennial, is given by the Philadelphia *Press* as follows: Starting from the main building, the distance from that to the Art Gallery is 250 feet; from the Art Gallery to the Conservatory or Horticultural Hall 1175 feet; from Horticultural Hall to the Department of Agriculture, 645 feet; thence to the United States Government building, 1000 feet; from Government building to Machinery Hall, 800 feet, and then back to main building, 554 feet—making a total distance to be walked in going from one building to another of 4424 feet, or something less than a mile. Along this entire route buildings of great interest, either as typical of foreign architecture or as containing various processes of manufactures in motion, will attract the attention of visitors.

☞ The Indiana and Illinois Central Railroad was sold on the 26th ult. at Indianapolis, the first mortgage bondholders bidding it in at $50,000.

Steam on the Pennsylvania Canal.

The Lewistown (Pa.) Sentinel says that for more than six seasons (from July 29, 1868, to December 1, 1874,) the P. H. Sheridan, built by R. C. Craig & Son, of Newton Hamilton, Mifflin county, has been run by James C. Craig, and successfully and profitably. Her dimensions are those of an ordinary canal boat—length, 20 feet on the keel, 84 feet on the deck, 14 feet in width and 8 feet in the hull, with a capacity for 100 gross tons, and with motive power sufficient to tow three other craft carrying 400 gross tons of coal from Wilkes-Barre to Baltimore—in all 500 gross tons. The engine and propeller are of 30 horse power, the engine having been built by John W. Pincin, M'Veytown, this county, and the propeller by Neaffie & Levy, of Penn works, Philadelphia. The propeller is 60 inches in diameter, and so placed as not to revolve below the boat and dig into or dredge the bottom of the canal. The smoke stack is arranged with hinges, so as to be readily lowered in passing under bridges. The fuel used is bituminous and hard coal. The time made, with a cargo of 110 tons, towing another boat with 100 tons—210 gross tons altogether—has been three and a half miles per hour on the Pennsylvania canal, or six miles per hour empty, and ten miles per hour on the river or on Chesapeake bay, consuming one half to three fourths of a ton of coal in twenty four hours. She has upright levers to her engine, enabling the pilot to work it conveniently and with adaptability to the business. The Sheridan is the sixth boat of her class run on the Pennsylvania canal.

Coal Lands of the Erie Railway Co.

The following bill, which we are informed has passed both houses and been signed by the Governor, is regarded as valuable, among other applications, to the Erie Railway—we presume in relation to its interest in coal lands in Pennsylvania:

SECTION 1. Section 1 of chapter 146 of Laws of 1872, entitled "An act to authorize corporations to hold and convey real estate for business purposes in other states with consent thereof," is hereby amended to read as follows: First—It shall be lawful for any corporation organized under the laws of this state and transacting business in several states or foreign countries to gain, hold and convey in such states or countries, with the consent thereof, such real estate as shall be requisite for such corporation in the convenient transaction of its business, or to purchase, hold, own, and dispose of any stock in other corporations owning such real estate situated in such states or foreign countries, in conformity to the laws thereof; but the authority herein granted shall not be construed to authorize any corporations organized under laws existing or doing business in this state to purchase, hold, own, or convey any other stocks than such as may be or may have been based upon or represent real estate the possession of which shall be required in the transaction of its legitimate and ordinary business.

SEC. 2. This act shall take effect immediately.

☞ Articles of incorporation were filed with the secretary of state of California on the 9th ult. of the Salmon Creek Railroad Company, organized for the construction of a narrow gauge railroad, eight miles in length, in Mendocino county. Capital, $100,000, in shares of $100 each. Directors, Silas Coombs, David A. Vickory, P. W. Gray, Richard J. Coombs and M. D. Gray. The principal place of business will be at Little River, Mendocino county, Cal.

Nevada and Oregon Railroad.

A correspondent of the Sacramento *Union*, who understands the topography of northwestern Nevada and southeastern Oregon, writes from Bartlett Creek to that paper as follows concerning the route of the proposed railroad from Winnemucca to Oregon:

Varyville is twenty-eight miles north and seventy miles west from Winnemucca; Lake City, in Surprise Valley, is eighteen miles north and seventy miles west from Varyville, and Goose Lake Valley is twenty-four miles north from Lake City. The most available route for a railroad from Winnemucca to Goose Lake is by way of Lake City, as there is a natural pass through to that place, and there would be no heavy grades to overcome. The road would open an extensive mineral, agricultural and heavily timbered country, and would undoubtedly do the heaviest lumbering business of any railroad line in the world. The Sierras northwest from here are covered with a dense growth of the finest timber in the United States, which would upon the completion of the road, supply the greater part of Nevada and all of Utah with lumber. The timber of itself ought to be a sufficient inducement to capital to invest in the enterprise and complete the road at an early day. That a road will be built sooner or later to make this timber available there is no doubt, and the time is not far distant when it will be a necessity. The timber supply on the Central Pacific road will shortly become exhausted, and central and eastern Nevada and Utah will have to be supplied from the virgin forests northwest of Humboldt, which have never resounded with the woodman's ax, and which in extent are unequaled and practically inexhaustible.

☞ There were filed on the 22d ult., in the office of the Secretary of State of California articles of incorporation of the South Bay Railroad and Land Company—organized for the construction and maintenance of a railroad for the transportation of freight and passengers from the southerly end of Humboldt Bay, Humboldt county, near Salmon Creek Landing, to Yager creek, a distance of ten miles, with a branch three miles long running up Salmon creek. Capital, $300,000, in shares of $100 each. Directors: Calvin Paige, John Kentfield, J. W. Henderson, H. H. Bubne and Timothy Paige. The principal place of business will be in San Francisco.

☞ Articles of incorporation of the San Luis Obispo and Santa Maria Valley Railroad Company were filed with the Secretary of State of California on the 22d ult.—organized to construct and maintain a railroad from deep water in the Bay of San Luis Obispo to Santa Maria valley, near the mouth of Ulpomo canyon, in Santa Barbara county a distance of thirty six miles. Capital, $500,000, in shares of $500 each. Directors: Christopher Nelson, George C. Perkins, John Harford, E. W. Steele and Nathan Goldtree. The principal place of business will be in San Francisco.

☞ The telegraph is being extended into the interior of Japan. Two large cities in the southwest, important military centers, have just been connected by wire, and the line has been extended to Otaru, one of the seven trading ports in the northern Island Yezo.

☞ The trustees of the Cincinnati Southern Railroad have awarded to the Baltimore Bridge company the contract to build a bridge over the Kentucky river. The bridge is 275 feet high, 1200 long, and will cost $377,500.

Southwestern and Rio Grande Railroad.

This road, as chartered, will commence at the Arkansas State line, with a view of connecting at that point with a road to Memphis, Tenn., and from Shreveport southwest to the Texas State line, thence to the towns of Nacogdoches, Crockett, Bremond, Belton and to the mouth of the Pecos River on the Rio Grande. At the point where the road crosses the State line of Texas there will connect with it a road to the towns of Henderson, Tyler and Sherman, Texas. There will also connect with it at some point in Shelby county a road to Sabine Pass and to Marshall, and at the town of Nacogdoches a road to Galveston. Charters have been obtained for all these roads, all narrow gauge, with twelve sections of land to the mile. At the last session of the Texas Legislature, the grant was increased to sixteen sections, and at the same time a general railroad law was passed, giving to all roads in the State twenty sections of land, provided the companies would agree to carry passengers at two and one half cents per mile and freights at low rates.

Hanover and York Railroad.

The York, Penn., Daily says that the work on the Hanover and York railroad is being pushed forward quite rapidly, and notwithstanding unavoidable detentions it is expected to be completed by the middle of June. The total cost for grading and bridging the road amounts to $120,000, and the cost of the entire road, eighteen miles in all, allowing $8,000 per mile for ties, iron, track laying, &c., foots up $144,000, to which the cost of superstructure of bridges and trestle work must be added, amounting to $12,000, making the total cost of the entire road about $276,000, or about $15,500 per mile, ready for running trains to be put on. It is expected that regular trains will run by the first of July. One train will start daily from Columbia to run through to Frederick City, Md., and one to start from Frederick City to run through to Columbia to connect with trains on the Pennsylvania railroad. One train will leave Frederick in the evening at 8 o'clock, with sleeping car, to take passengers through to Philadelphia and New York by next morning.

☞ In the suit of the American Diamond Drill Company of New York against the Sullivan Machine Company of New Hampshire, Judge Shipman decides that the Sullivan Company infringes the Leschat patent, which is owned by the Diamond Drill Company. Not only does this enjoin the Sullivan Company from the manufacture of the drills under said patent, but several marble quarry companies using those already made will have to pay a royalty on them. Large interests in New England are involved in this decision.

☞ The Jersey City and Albany Railroad Company resumed operations on the 1st of May. The rates of fare, commutation and freights have been reduced, with a view to building up the country along the line. The road is now open to Tappan, and will soon be completed as far as Haverstraw.

☞ The officers of the Atlantic and Pacific Telegraph Company, elected on the 3d inst., are: President, Gen. Thomas J. Eckert: Vice President, W. J. Syms; Second Vice President, E. D. L. Sweet; Secretary and Treasurer, Alfred Nelson.

Improvements in Metallurgy.

In an address before the New York Society of Practical Engineers the Hon. Abram S. Hewitt stated that the production of iron direct from the ore is easy by the use of charcoal, but not with hard coal. This direct production of iron is not, however, of the same importance as it was formerly, for the reason that steel may be made direct, and is so rapidly taking the place of iron for many purposes that the production in Great Britain has risen in a few years from 20,000 tons to upward of 1,000,000, and in the United States already amounts to 500,000 tons per annum. The elimination of phosphorus from iron is no longer the problem that only recently has been the case, for it has been found that by eliminating the carbon instead, a good steel can be made containing as much as four-tenths of one per cent. of phosphorus. Good steel may contain either carbon or phosphorus, but not both together. The result of this discovery will be to open up immense tracts of American iron mines that hitherto have been of little worth.

☞ Articles of consolidation of the Peirce City and Kansas Railroad Company of Missouri with the Oswego and State Line Railroad of Kansas, were filed on the 22d of March in the office of the Secretary of State at Jefferson City, Mo., the new company to be entitled the Missouri and Western Railway Company, with a capital stock of $1,000 000. The officers are: Joseph Seligman President, Edward Livingston Secretary and Treasurer. Directors: Joseph Seligman, Josiah Macey, Jesse Seligman, Francis L. Macey, Jr., and Edward Livingston—all of New York City.

☞ At a recent meeting of the friends and officers of the Springfield, Jackson and Pomeroy Narrow Gauge railway in Cincinnati, Ohio, it was resolved that work would not be begun until $800,000 had been subscribed. The road is just one hundred miles in length, and if the sum named is subscribed a bonded debt of not more than $500,000, or $5000 per mile, will be necessary. The amount thus far subscribed is $628,000.

☞ A. C. Light, a government engineer, left Quebec on the 29th ult., with a large staff of surveyors, to begin a survey across the Island of Newfoundland, from west to east, for a contemplated railway 355 miles long, which is a part of the great scheme for shortening the travel between Europe and America.

☞ The Reno, Nevada, Journal says it is reported that Mackey and Fair, the Comstock millionaires, contemplate building a narrow gauge railroad from Virginia City to Reno.

THE WHARTON
Safety Railroad Switch.
☞ BOTH RAILS of the main track absolutely immovable, continuous and unmutilated. ☜
This Switch provides perfect safety for both the main track and the side track, besides removing all switches from the main track as effectually as if there were no sidings on the whole line.
They have been in use on various important Railroads for over two years, and have repeatedly saved passenger trains from destruction, when running at high speed, (from 30 to 45 miles per hour,) at places where by accident the Switch had been left set for the siding.

Frankford and Breakwater Railroad.

The Wilmington (Del.) Commercial says that at a recent meeting of the stockholders of the above road an election of directors took place. Three of the gentlemen elected are of New York, and represent the Old Dominion Steamship Co. This is the first annual meeting since the completion of the road, and the report of the president shows that the road thus far has about paid expenses, notwithstanding the unfavorable season and drawbacks which attend the organization of forces, &c. He also states that the gentlemen who have in hand the work of building the extension to Berlin, and from Snow Hill down to Cherrystone, have the desire and ability to push the work to completion. Wm. A. Gum, the treasurer of the company, was re elected unanimously.

Statement of the Public Debt of the United States May 1, 1875.

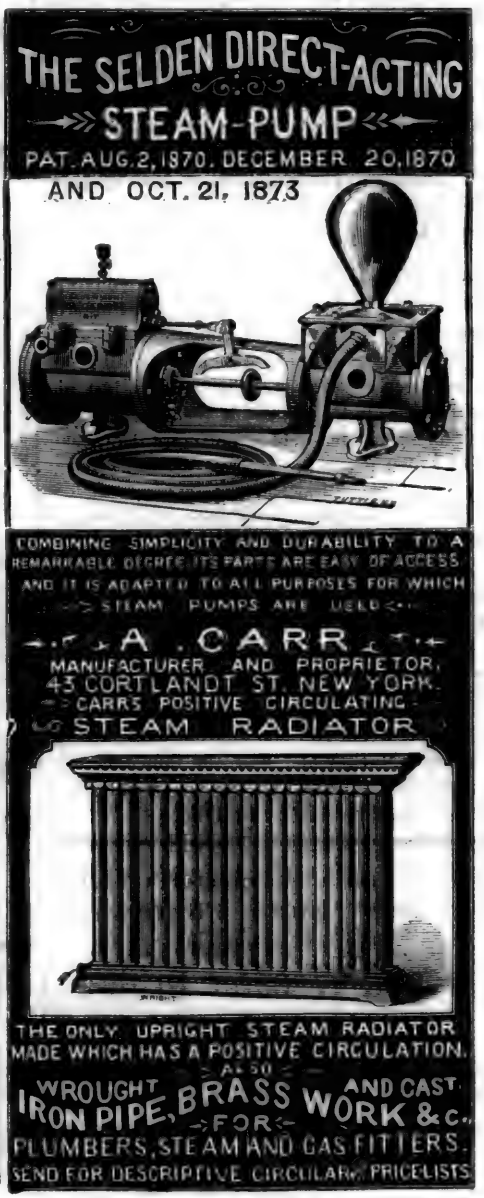
The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, April 30, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

The Canadian Canals.

Important modifications of the canal works now in progress have been resolved upon by the Government. With reference to the completion of the works on the Welland Canal, it is stated that the depth in all the locks of 12 feet will be adhered to, and the harbors of Port Colbourne and Port Dalhousie will be deepened to 16 feet, and the guard locks, at each end of the canal, to 14 feet.



A new aqueduct will be built for the Welland river. Preparations for a 14 feet system throughout having been made at both ends and at the aqueduct, the necessary change to be made at a future time can be accomplished at a small expense, and without inconvenience to navigation. Preparations are being made to let out the main works on the Lachine Canal, and provision will be made for ultimately obtaining 14 feet of water, having guard locks and other works made to shut that depth.

The canals between Prescott and Long Sault are to be enlarged; also the Cornwall and Beauharnois Canals. These portions of the St. Lawrence works will occupy the attention of the Government after the Welland and Lachine Canals have been attended to. Greater difficulty will be encountered in deepening the bed of the St. Lawrence river than in deepening the canals and enlarging the locks, as for many miles the river will have to be excavated to obtain the required depth, especially in Lake St. Louis, between the Lachine and Beauharnois canals and between the latter and Prescott.

☞ At an election for directors of the American Atlantic Cable Telegraph Company, held in this city on the 4th inst., the following named gentlemen were chosen: Lucien Birdseye, S. C. Pomeroy, W. S. Worl, Willis Gaylord, James N. Worl, President, Arthur F. Wilmarth; Treasurer, Edward Haight; Secretary, William O. Stoddard.

☞ The Lynchburg (Va.) Star states that arrangements are in progress for straightening the line of the Midland railroad, from Alexandria to Lynchburg, by avoiding the use of the Chesapeake and Ohio railroad between Gordonsville and Charlotteville.

☞ The Pennsylvania Railroad Company have declared a semi annual dividend of four per cent, payable on the 28th of May.

An Aerial Bridge in France.

A great engineering work, the only one of the kind in France, is about to be executed at Lyons. It is that of an iron bridge to connect the plateau of Fourvrieres with that of the Croix Rousse, which are two hights like that of Montmartre in Paris, at a distance of 300 metres from each other. This undertaking is estimated to cost 2,000,000 francs, of which a subvention of 600,000 only is asked from the city. This aerial bridge will consist of three spans, the central one of 185 metres, and the two others of 70 metres each, resting on open iron columns in a line with the houses on the quays. The platform of the bridge will be 65 metres above the road, and nearly 50 metres above the houses. Each of the two central columns will have inside a lift by which pedestrians will be raised in two minutes, at a charge of ten centimes, to the top whence they may reach the higher parts of the city, where they may have business. The only similar works existing in Europe are the Britannia tubular bridge in England, constructed by Robert Stephenson in 1847, and consisting of one span of 500 feet, and two smaller ones; that over the Conway, by the same engineer, of a stretch of 400 feet, and the bridge of Dirschau, in Prussia, which has six sections of 129 metres each.

☞ The directors of the Harlem River and Port Chester Railroad Company, elected on the 1st inst., are Edward M. Reed, Wilson G. Hunt, A. R. Van Nest, E. H. Trowbridge, John Hunter, William E. Barnett, John T. Shelton, George N. Miller, William D. Bishop, George B. Carhart, Edward J. Sandford, Charles M. Pond, and Nathaniel Wheeler.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

American Railroad Journal.

New York, Saturday, May 15, 1875.

A Practical Test of Iron-making in the Kanawha Valley.

The iron trade was startled some three or four years since by the assertion, made under the sanction of eminent English and Pennsylvania authorities, that pig iron would soon be made in the Kanawha Valley of West Virginia at unusually low rates—as low as ten dollars per ton below the average cost at our largest iron centres. Though received with some incredulity, it was admitted that if it proved true, it was a matter of the first importance to iron masters, as well as to the many branches of industry which depend on regular supplies of cheap iron. This great desideratum was to be brought about by effecting a communication between the ore beds of Virginia, and the coal beds of the Kanawha on the opposite flank of the Alleghenies. The Chesapeake and Ohio Railroad was completed across the coal fields in 1872; but the panic of 1873 coming on soon after, caused a suspension of both coal and iron mining. It was not until late in 1874 that the first blast furnace erected in the coal region of the Kanawha was completed. It has now been in regular operation for nearly six months. The furnace is situated at Quinnimont Station on the Chesapeake and Ohio Railroad, about 320 miles from Richmond and 100 from the Ohio River. It is on the eastern edge of the coal belt, about sixty miles from the limestone deposits, and about 125 miles from the rich ore beds on the headwaters of the James River, further east on the same road. The coal at Quinnimont is coked before being used in the stack, the small screenings being used, while the lump coal is sold and shipped east and west. All the coke the company have to spare is also shipped to other furnaces at good prices. The ores are drawn from the company's beds, situated near Clifton Forge, and it is the intention of the managers to erect a second furnace at this point also, and thereby establish a reciprocity of freights, shipping ores one way and coal the other, in the same cars, which will result in further economy of power.

As this is the first attempt made in the Kanawha to make iron on a sufficiently large scale its working has been watched with interest. We have obtained permission to transcribe the following record of a single week's run, with the assurance that it is not an unusual one, either in regard to the quantity turned out, or the proceeds of sale, though the amount of the No. 1 Furnace is slightly larger than their common working, and the total product therefore somewhat less than when the lower grades are produced. The subjoined exhibit gives the remarkable fact that a superior quality of pig metal is made in the Kanawha at $17 50 per ton; and that the lower grades can be made for one dollar per ton less. If these figures are correct, and we entertain no doubt of it, it is a discovery of the first importance to our iron men all over the country.

ACCOUNT CURRENT QUINNIMONT FURNACE, WEEK ENDING APRIL 17, 1875.

DR.—To 274¼ tons Coke, at $2 25		$617 06
To 428¼ tons Ore, at $3 90		1,671 15
To 241 tons Lime, at $1 69		407 29
To Labor		425 00
To Incidentals		92 00
		$3,212 50
CR.—By 86 tons No. 1 Foundry, at $24	$2,064	
By 48 tons No. 2 Foundry, at $22	1,056	
By 23 tons No. 1 Mill at $21	483	
By 27 tons No. 2 Mill at $20	540	
		4,143 00
Net Earnings		$930 50

We have, therefore, a gross product of 184 tons, per week, of superior pig, at a cost for materials, labor, etc., of $17 45 per ton, but which realized in the market $22 50, average per ton, net, after the payment of the transportation to the places of consumption—Richmond, Cincinnati, Ironton and Pittsburg—amounting to from $5 to $7 per ton. This shows a profit of nearly a thousand dollars a week return on an investment of $150,000 for improvements. It is proper to say that no allowance is made in the above for royalty or interest on the coal and ore lands, as both ore, coke and coal are supplied to other parties outside of the regular furnace operations, and the ore and fuel used in working the pig iron are charged at the same rate paid by others, which is, of course, greater than the cost of extraction. A certain allowance should be made for repairs to the furnace, which is estimated at $4,000 per annum, or 40 cents per ton, which would leave a net earning of say $45,000 per annum, or over 30 per cent! If these things can be done in the present depressed condition of the iron trade, what may not be accomplished when the consumption of iron shall have reached its normal dimensions?

We do not understand that the Connecticut men composing the Quinnimont Furnace Company have any special or peculiar facilities, over a hundred or perhaps a thousand, other sites in the same valley. The hills are full of superior varieties of coal. Ores and flux are readily obtainable. Water-power is abundant, subsist-

ence is cheap, and transportation to either coast or western markets good. The thought naturally occurs that with cheap iron and fuel this same locality would be a suitable one wherein to establish rolling mills and foundries for supplying the western states. Labor can be had in abundance, and the cost of living is lower than in the crowded centres of the East. We learn that an English Company has recently secured lands in the same valley, with ore beds further east for the purpose of engaging in mining coal and iron making.

Tests of American Iron.

In pursuance of a resolution passed by the Board of Supervising Inspectors at Washington, recommending the Testing Machines made by RIEHLE BROS., of Philadelphia, as best designed for the purpose, the Secretary of the Treasury has ordered one Machine for each district for the use of the Steamboat Inspectors. This firm have made this branch of Manufacture a Specialty—having designed and built more Machines for testing the strength of Material than any concern in the world. Their display at the late Fair of the Franklin Institute attracted the attention of the Engineers of the Navy, and other scientific men from all directions; and was in this way brought to the notice of the Government.

Chicago, Milwaukee and St. Paul Railway.

We have received a copy of the report of this company for the year ending December 31, 1874, from which we learn that the number of miles of road owned and operated by the company during the year, exclusive of side tracks, was 1,899, as follows:

	Miles.
Chicago to Milwaukee	85
Milwaukee to St. Paul, via La Crosse	324
Milwaukee to St. Paul, via Prairie du Chien.	405
Milwaukee to Portage City, via Horicon	96
North Milwaukee to Schwartzburg	6
Horicon to Berlin and Winneconne	57
Watertown to Madison	37
Milton to Monroe	42
Calmar to Algona	126
Conover to Decorah	10
Austin to Mason City	40
Mendota to Minneapolis	9
Hastings to Glencoe	75
Sabula to Marion	87
Total miles owned by the company	1,399

In addition to the above, the company own $2,001,000 of the capital stock of the Western Union Railroad, being a majority of the capital stock of that company.

The cost of the 1,399 miles of road, including equipment, bridges and elevators, is as follows:

	1873.	1874.
Mortgage bonds	$26,262,500	$27,100,500
Preferred stock	12,274,483	12,274,483
Common stock	15,399,261	15,399,261
	$53,936,244	$54,774,244
Less cost of Western Union stock	1,500,750	1,500,750
Cost of 1,899 miles	$52,435,494	$53,273,494
Cost per mile	$37,480	$38,080

The equipment of the road at the close of 1873 and 1874 compares as follows:

	1873.	1874.
Locomotives	198	203
Passenger cars, 1st class	64	64
" " 2d class	32	31
Sleeping cars	11	11
Baggage, mail and express	57	57
Box freight and caboose	2,984	2,995
Flat and coal	671	665
Boarding	2	2

In the following table are shown the mileage of trains, the passenger traffic and the freight traffic on all the roads collectively for the years 1873 and 1874:

Mileage:	1873.	1874.
Passenger trains	1,352,256	1,194,810
Freight trains	3 376 299	3,505,561
Wood and gravel trains	477,333	344,310
Total mileage	5,205,888	5,044,181
Passengers carried	967,754	1,051,527
Do. carried one mile	52,252,558	58,260,429
Freight (tons) carried	1,791,505	1,735,555
Do. carried one mile	257,638,532	259,168,248
Pass. revenue per mile	3.58 cents.	3.35 cents.
Freight revenue per mile	2.50 cents.	2.38 cents.

The following is a comparative statement of the earnings and expenses during the years ended December 31, 1873 and 1874:

Earnings from:	1873.	1874.
Freight	$6,421,269 24	$6,137,151 84
Passengers	1,857,196 43	1,983,664 98
Mail service	181,049 31	142,484 68
Express service	177,347 11	168,461 46
News service	6,840 15	6,707 78
Rents	6,467 84	3,805 73
Telegraph	7,141 71	9,097 44
Extra baggage	7,778 97	9,411 30
Sleeping cars	39,579 62	36,029 00
Elevator, "A"	186,548 41	214,402 63
Elevators, "B & C".	100,768 98	212,084 15
Elevator, "D"	27,139 03	52,623 97
Stock yards	26,896 75	27,642 15
Total	$9,046,123 57	$8,953,017 11
Expenses (ordinary)—		
Repairs of track	$909,506 67	$887,079 33
" bridges	48,288 44	52,336 63
" fences	14,547 76	23,066 70
" buildings	65,878 26	57,338 88
" engines	357,738 97	348,348 30
" cars	590,943 91	493,829 14
" tools, etc.	37,591 79	31,429 36
Management and general offices	145,486 07	144,856 04
Foreign agency and advertising	74,389 75	89,757 80
Station service	612,506 12	654,760 68
Conductors, baggage and brakeman	333,629 23	302,268 96
Engineers, firemen & wipers	397,722 37	382,130 64
Train and station supplies	153,953 12	112,290 18
Fuel consumed	777,573 95	800,818 68
Oil and waste	82,570 04	78,714 21
Personal injuries	32,842 91	25,661 93
Damage to property	18,256 87	14,469 62
Loss and damage of freight & baggage.	16,092 14	18,080 57
Legal expenses	36,405 68	35,553 87
New York office exp.	12,589 75	14,408 32
Taxes	204,270 84	262,706 94
Insurance	46,041 98	44,466 31
Miscellaneous	25,681 68	17,682 61
Stock yard expenses.	8,348 76	8,805 65
Rent of locomotives	2,220 00	
Rent of cars	25,769 86	80,998 25
Exp. Elevator "A"	4,687 01	53,888 33
Exp. Elevators "B & C"	5,228 99	51,184 84
Exp. Elevator "D"	981 59	13,427 92
Expenses (extraordinary)—		
Renewal of track	1,408,459 93	620,019 47
New bridges	41,787 48	21,629 25
New buildings	62,411 89	35,796 43
New tools and mach'ry	5,172 32	5,911 98
Mississippi ferry	34,984 20	
Taxes Milwaukee City and County		87,403 61
Total	$6,594,560 33	$5,871,116 38
Net earnings	$2,451,563 24	$3,081,900 73

Compared with the year 1873, the gross earnings show a decrease of $93,106 46, with a decrease in operating expenses of $723,443 95—making an increase in the net earnings of $630,337 49. The per centage of operating expenses to earnings, all divisions, was in 1874, 66 per cent. In 1873 it was about 73 per cent. The operating expenses of 1874 are divided as follows: Ordinary, $5,100,355 64; extraordinary, $770,760 74. In 1873 the ordinary expenses were $5,041,744 51, and the extraordinary expenses $1,552,815 82.

The earnings and expenses by operating divisions for the two years were as follows:

Gross earnings:	1873.	1874.
La Crosse division	$2,710,166 72	$2,200,889 44
Northern division	826,903 94	729,174 13
Prairie du Chien div.	2,361,953 64	2,457,429 54
Iowa and Minnesota and Iowa & Dakota divisions	1,480,394 51	1,469,340 39
River division	737,120 08	741,244 21
Hastings and Dakota division	66,013 72	61,828 30
Illinois and Iowa division	79,283 60	78,360 53
Chicago and Milwaukee division	774,287 86	1,114,750 57
Total	$9,046,123 57	$8,953,017 11
Expenses:		
La Crosse division	$2,261,221 12	$1,509,909 19
Northern division	549,454 23	522,132 32
Prairie du Chien div.	1,467,291 45	1,490,130 04
Iowa and Minnesota and Iowa & Dakota divisions	1,290,870 65	1,075,959 71
River division	427,176 04	429,608 38
Hastings and Dakota division	77,288 61	66,628 49
Illinois and Iowa division	91,200 12	62,657 43
Chicago and Milwaukee division	430,588 11	714,019 82
Total	$6,594,560 33	$5,871,116 38
Net revenue:		
La Crosse division	$488,945 60	$790 980 25
Northern division	287,449 71	207,041 81
Prairie du Chien div.	894,662 19	967,299 50
Iowa and Minnesota and Iowa and Dakota divisions	190,023 86	393,380 68
River division	309,944 04	311,635 83
Hastings and Dakota division	*11,274 89	*4,800 19
Illinois and Iowa div.	*11,916 52	15,703 10
Chicago and Milwaukee division.	343,729 25	400,659 75
Total	$2,451,563 24	$3,081,900 73

* Excess of expenses.

The earnings, expenses and net revenue per mile of road in the two years compare as follows:

	1873.	1874.
Gross earnings	$6 536 22	$6,399 58
Operating expenses	4.764 86	4,196 65
Net earnings	$1,771 36	$2,202 93

The average price per ton per mile, received for freight, for a series of years past has been as follows:

1865	4.11	1870	2.82
1866	3.76	1871	2 54
1867	3.94	1872	2.43
1868	3.49	1873	2.50
1869	3.10	1874	2.38

The expenditures made by the company during the year 1874, not charged to operating account, amounting to $500,975 81, were as follows:

New locomotive and cars	$111,912 64
Mississippi river bridge at La Crosse.	86,352 84
New fences in Iowa and Minnesota	19,754 02
Depot grounds, wharves, etc., in Milwaukee	38,440 50
Right of way	8,712 79
La Crosse Extension	23,183 30
McGregor Extension	18,886 84
Construction of Elevator "E" Milwaukee	25,574 89
Milwaukee Elevator grounds	45,426 48
Depot grounds St. Paul	395 42
Depot grounds Austin	600 00
Depot grounds Sparta	426 80
Depot grounds Kilbourn	75 00
Depot grounds Minneiska	2,201 86
Halstead Street Viaduct, Chicago	6,780 59
La Crescent Connection	184 42
Construction of Chicago and Milwaukee Division	60,816 08
Construction of Illinois and Iowa Div.	34,282 14
Construction of St. Paul Branch	4,125 00
Purchase of Illinois and Iowa Division	63,300 00
Expenses attending the execution of "Consolidated Mortgage,"	5,594 25
Total	$500,975 81

The increase in the Bond account arises from the issue of Consolidated Bonds to the holders of preferred stock, in payment of the dividend for 1873, as referred to in the report for that year. There has been no increase in the preferred or common stock.

The large decrease in operating expenses, as shown in the preceding statement, arises principally from the reduced expenditure for renewal of track, the company having laid, in 1874, 13,513 tons of steel and iron rails, against 16,829 tons during 1873. The cost of renewal of track, during the year 1874, was further reduced by the proceeds of sale of old iron rails.

During the year, five locomotives, two baggage and twenty-three box cars, were added to the equipment of the road.

At the close of the year, the company had 188$\frac{4316}{5280}$ miles of steel rail upon their road-bed, of which 69$\frac{4776}{5280}$ were laid during the year. Referring to the recent legislation in the States of Wisconsin, Minnesota and Iowa, the President in his report says:

The Legislature of Wisconsin at its session in 1874, passed an act fixing arbitrary rates for freight transported in Wisconsin and limiting the passenger rates of this company to three cents per mile. The road was constructed under charters that granted to the companies the right in express terms to fix their own rates for freight and passengers. Up to the time of the passage of this act the company had fixed its own rates and the Legislature had not attempted to interfere therewith. Similar laws were passed in Minnesota and Iowa at or about the same time. In view of the importance of this legislation, the several companies interested, in addition to the opinions of their regular legal counsel, obtained the opinions of the late B. R. Curtis and of Wm. M. Evarts and E. Rockwood Hoar, as to the validity of said legislation and were advised by all of them that it was in conflict with the constitution of the United States and not binding upon the several companies.

On this advice and with the knowledge that a compliance with the law would result in great injury and loss to the company, the directors determined to adhere to their old rates and not observe the requirements of the Law, so far as rates were concerned.

Two suits were instituted in the Circuit Court of the United States for the Western District of Wisconsin, one by the bondholders of the Chicago and Northwestern Railway Company, against that company, and the Railroad Commissioners and Attorney General of the State, to enjoin the adoption or enforcement of the rates prescribed by the Legislature, on the ground that under that law the company would not earn sufficient to pay the interest on their bonds; and the other suit was by the stockholders of that company, against the same defendants, for a similar purpose. These suits were prosecuted for the mutual benefit of that company and ours, and at our joint expense.

The court, on the hearing of the motion for an injunction, ruled in favor of the defendants, denying the injunction and dismissing the bills.

From the decrees entered in these cases an appeal has been prosecuted to the Supreme Court of the United States, where the causes are now pending.

The Attorney General afterwards filed an information in the Supreme Court of the State, asking for an injunction, restraining this company from charging higher rates than those established by the act of 1874, and compelling it to operate under said law. And a similar proceeding was also instituted against the Chicago and Northwestern Railway Company, and in September last, the Court, on hearing a motion for a temporary injunction, granted the same, to take effect from and after October 1st, 1874, since which time the road has been operated according to the rates prescribed by the Legislature, in obedience to the commands of said injunction. The final hearing in said cause is set for the 13th of April, 1875, at which, it is expected, a final decree will be entered, enjoining the company to observe the rates prescribed by the Legislature. From this decree an appeal will be taken to the Supreme Court at Washington, and also in three other cases, presenting all the various phases of this question for the judgment of that court, and it is confidently expected that a hearing, and final decision therein, will be reached early next term.

The Legislature, at its session in 1875, was not inclined to repeal or substantially modify said law. An amendatory act was passed, not asked by the representatives of this company, which decreases some of the rates before established, and slightly increases others, but without giving any material relief.

The Legislature of Minnesota repealed its act, leaving the roads to fix their own rates, and the act of Iowa is not seriously oppressive upon this company, except that it limits passenger rates to three cents per mile.

Our counsel are sanguine in the opinion that the Supreme Court of the United States must hold this law invalid, and the present indications of public sentiment are not favorable to this kind of legislation. Your board feel quite confident that relief from this injustice will soon come, either from the courts or the Legislature, or as they trust, from both.

The earnings of this road, monthly, for a series of years will be found on page 615 of this week's issue. Also a full description of the company's bonds—amount outstanding, rate of interest, when and where payable, and the date of maturity of the principal—will be found on page 618.

President.—Hon. ALEX. MITCHELL, Milwaukee.

Vice President.—Hon. RUSSELL SAGE, New York.

Directors.—Hon. Alex. Mitchell, Hon. Russell Sage, Selah Chamberlain, Julius Wadsworth, Walter S. Gurnee, Hans Crocker, James Buell, S. S. Merrill, F. A. Mueller, N. A. Cowdrey, F. P. James, Levi P. Morton, Elias L. Frank.

Gen'l Manager.—S. S. MERRILL, Milwaukee.

Sec. & Treas.—R. D. JENNINGS, Milwaukee.

Ass't Sec. & Transfer Agent.—JAS. MCKINLAY, New York.

Auditor.—J. P. WHALING, Milwaukee.

Purchasing Agent.—J. J. SLOCUM, Milwaukee.

☞ The Erie Railway Company have concluded a contract with the Watson Manufacturing Company of Paterson for a Post iron bridge, to be built in place of the one burned at Portage. It will be placed on iron piers 234 feet high, and is to be finished in forty-five days. During the construction of the bridge the express trains will be run to Buffalo via Avon. The only interruption to travel will be to passengers from local stations on the branch between Hornellsville and Attica, who will have to be transferred at Portage.

☞ The directors and officers of the Wheeling, Pittsburg and Baltimore Railroad Co., recently elected, are: President, C. M. Reed, Washington, Pa. Directors, W. S. Bissell, W. Keyser, J. B. Ford, Wm. Workman, W. W. Smith and J. B. Hayes. Secretary, J. B. Washington, Pittsburg; Chief Engineer, J. L. Randolph; General Agent, R. T. Devries; Treasurer, W. H. Ijams.

☞ A large number of the citizens of Philadelphia who are officially connected with the Centennial will visit Charlotte, N. C., on the 20th inst., for the purpose of participating in the Mechlenburg Centennial celebration.

☞ Mr. Crombie, Division Engineer of the Canada Pacific Survey, left for the Pacific coast 27th ult., to be occupied this summer in locating a line for the railway.

The Maryland Passenger Tax.

DECISION OF THE UNITED STATES SUPREME COURT.

We give below the full text of the decision of the Supreme Court as rendered on the 3d inst. by Mr. Justice Bradley, and also the text of the dissenting opinion of Mr. Justice Miller. The decision was in favor of the State. The court, as is shown, did not hold the case to be analogous to the case of Crandall vs. Nevada. The opinion was unanimously concurred in by the whole court with the single exception of Mr. Justice Miller, who held the principles involved to be similar to those in the Nevada case. The effect of this decision is to settle definitely not only the legality of the claim of the State of Maryland to the total amount involved in the railroad suits so far brought against the company for one-fifth of the passenger receipts on the Washington Branch, but it further establishes the principle that the state has a valid claim for one-fifth of the passenger receipts on the branch road up to this time and for all time to come, unless waived by its own volunteer act, irrespective entirely of the amount of fare charged by the company. The discussion by the court of the relative power of Congress and of the State Legislatures over inter-state commerce will be found especially interesting at this time, and will add much to the respect and confidence felt in this tribunal.

The Baltimore and Ohio Railroad Company, Plaintiff in Error, vs. the State of Maryland, in Error to the Court of Appeals of the State of Maryland.

Mr. Justice Bradley delivered the opinion of the court: This was an action of *indebitatus assumpsit*, brought originally in the Supreme Court of Baltimore City by the State of Maryland against the Baltimore and Ohio Railroad Company. The declaration contained two counts—the first for money due and payable; the second for money had and received. In answer to a demand of the defendant for a bill of particulars, the following was filed by the State:

"The plaintiff in answer to the demand of the defendant for a bill of particulars, says that its said claim is for the particulars following, viz: For $500,000, being the one-fifth part of the whole amount of moneys received by the defendant for the transportation of passengers upon the Washington branch of the Baltimore and Ohio Railroad from the first day of January, 1860, to the first day of January, 1870, which said sum of $500,000 was received by the defendant for the use of the plaintiff, and was due and in arrears to the plaintiff at the time of the institution of this action."

The case was tried upon the general issue pleaded by the defendant.

The claim of the State, in brief, was based on the charter by virtue of which the railroad company constructed the branch railroad between Baltimore and Washington, one condition of which was that the company should pay to the State at the end of every six months one-fifth of the whole amount received during that period for transporting passengers on said road by said company. The charter was accepted and payment made for many years, but the company finally disputed the constitutionality of the stipulation and refused further payment. This action was brought to recover the arrears claimed to be due by the State, and the railroad company has brought this writ of error to test the constitutional question.

The record shows that at the trial of the cause, after all the acts of Assembly constituting the charter referred to and bearing on the question had been submitted, the defendant by its counsel prayed the court to instruct the jury that these acts so far as they provide that the defendants shall pay to the treasurer of the Western Shore of Maryland, on the first Monday of January and July, in each and every year, for the use of the State, one-fifth of the whole amount that may be received for the transportation of passengers on the branch road mentioned in said acts during the six months last preceding are unconstitutional, because in conflict with the constitution of the United States; and secondly, that the defendant was not estopped from setting up the defense.

The plaintiff, on the other hand, prayed the court to instruct the jury in substance, that even if the said provision was unconstitutional, still the defendant by accepting the terms of the charter was bound to pay to the State the one fifth part of the passage money in question. The court granted the prayer of the defendant and refused that of the plaintiff, and a verdict and judgment were rendered for the former.

The Court of Appeals of Maryland reversed the judgment, and awarded a *venire de novo*. Upon the second trial the same instructions were asked by each party respectively, and the court below, in conformity with the decision of the Court of Appeals, refused the instruction asked for by the defendant, and granted that asked for by the plaintiff, and a verdict and judgment was entered for the latter. This judgment was affirmed by the Court of Appeals and is brought here by writ of error.

It thus appears that the question of constitutionality was directly raised by the defendant with a denial of any estoppel precluding such a defense. The counsel for the plaintiff contend, and the Court of Appeals of Maryland held, that whether the stipulation by the State for one-fifth of the passage money was constitutional or not, it was received by the company for the State, and was the money of the State, the company being merely the agent of the State to collect it, and that the company was therefore bound to respond to the State for it, on the ground that an agent or receiver cannot withhold the money of his principal under pretense of illegality in the transaction by virtue of which it was obtained. The general doctrine referred to is a sound one, and if it was applicable to this case it would follow that the constitutional question was not necessarily involved; but as this question was in fact passed upon by the Court of Appeals and ruled against the defendant, though not the principal ground on which it placed its judgment, it would be our duty under our recent rulings on the construction of the act of 1867 to assume jurisdiction of the case and review the judgment of the State court on the constitutional point.

But with great respect for the opinion of that learned court, we are compelled to differ with it as to the applicability to the present case of the doctrine referred to. We cannot concur in the position that any part of the passenger money when received by the company became, or was the money of the State. It was the money of the railroad company alone.

The railroad company was authorized by its charter to charge the passenger for transporting him between Baltimore and Washington what it did charge him. The State cannot be permitted to deny that it had power to confer upon the company such a franchise. Nor can it be permitted to say that the passenger could complain of any extortion practiced upon him, for the fare so far as he was concerned was perfectly legitimate. It might have been greater than it was, and yet he would have had no right to complain. The State at least is estopped from saying that he could justly do so. The company, then, charged a lawful fare. The money all went into its treasury together, and one portion was not distinguished from another. The truth is that the company was simply under a contract to pay to the State one fifth of the whole amount received for the transportation of passengers. If there was anything unconstitutional in the arrangement it was this contract. The grant of the right to build the road and operate it was constitutional; the right to charge fare and freight was constitutional; the amount of such fare and freight would have been entirely in the discretion of the company if it had not been limited by the grant. There is, in short, nothing in the whole transaction between the State and the company to which in a constitutional point of view the slightest exception can be taken except this contract to pay to the State a portion of the amount received. In the cases in which it has been held that parties engaged in an illegal undertaking are answerable to one another for moneys received therein, it was the undertaking and not the agreement to pay over the moneys received which was obnoxious to the law or its policy.

In this case it is not the transaction out of which the money grew, but the agreement to pay over a portion of it which is vicious, if anything is vicious, and the transaction is only vicious, if at all, because of the reflected effect of the agreement upon it. We think no case can be found where the agreement itself to divide a common fund or to pay over money received, as contradistinguished from the transaction out of which the money arose was illegal, in which it has been held that a recovery could be held. If it be said that the vice, if any, lies back of the agreement, namely, in the reservation by the State of one fifth, it would amount to the same thing. The right to recover would then stand on the reservation and would be no better than before.

We think, therefore, that the constitutionality of the stipulation came directly in question, and could not properly be avoided in determining the case.

In approaching the merits of the case it is unnecessary to examine in detail the various laws which constitute the charter of the railroad company in reference to the construction of the Washington branch. They were all accepted by the company, and no question of impairing the validity of contracts is raised. The substance is simply this, that the State granted to the railroad company the franchise of constructing a railroad from Baltimore to Washington and of employing machinery and vehicles thereon for the transportation of passengers and merchandise, and of charging therefor certain rates of fare for the one, and freight for the other, the passenger fare not to exceed two dollars and fifty cents per passenger for the entire distance, and in that proportion for less distances; and it was stipulated that the company should at the end of every six months pay to the State one fifth of the whole amount which might be received for the transportation of passengers. The question is whether such a stipulation is or is not a violation of the constitution of the United States, as being a restriction of free intercourse and traffic between different States.

That the road is one of the principal thoroughfares in the country for inter-State travel is conceded, and, indeed, may be judicially assumed. As, however, nearly all the railroads in the country are, or may be, used to a greater or less extent as links in through transportation, this road cannot in principle be regarded as an exceptional one in that respect. Commerce on land between the different States is so strikingly dissimilar in many respects from commerce on water that it is often difficult to regard them in the same aspect in reference to the respective constitutional powers and duties of the State and federal governments.

No doubt commerce by water was principally in the minds of those who framed and adopted the constitution, although both its language and spirit embraced commerce by land as well. Maritime transportation requires no roadway. Nature has prepared to hand that portion of the instrumentality employed. The navigable waters of the earth are recognized public highways of trade and intercourse. No franchise is needed to enable the navigator to use them. Again, the vehicles of commerce by water being instruments of intercommunication with other nations, the regulation of them is assumed by the national Legislature, so that State interference with transportation by water and especially by sea is at once clearly marked and distinctly discernible.

But it is different with transportation by land. This when the constitution was adopted was entirely performed on common roads, and in vehicles drawn by animal power. No one at that day imagined that the roads and bridges of the country (except when the latter crossed navigable

streams) were not entirely subject both as to their construction, repair and management to State regulation and control. They were all made either by the States or under their authority. The power of the State to impose or authorize such tolls as it saw fit was unquestioned. No one ever then supposed that the wagons of the country, which were the vehicles of this commerce, or the horses by which they were drawn, were subject to national regulation. The movement of persons and merchandise, so long as it was as free to one person as to another, to the citizens of other States, as to the citizens of the State in which it was performed, was not regarded as unconstitutionally restricted and trammeled by tolls exacted on bridges or turnpikes, whether belonging to the State or to private persons. And when, in process of time, canals were constructed, no amount of tolls which was exacted by the State or the companies which owned them was ever regarded as an infringement of the constitution. When constructed by the State itself they might be the source of revenues largely exceeding the outlay, without exciting even the question of constitutionality. So when, by the improvements and discoveries of mechanical science, railroads came to be built and furnished with all the apparatus of rapid and all-absorbing transportation, no one imagined that the State, if itself owner of the work, might not exact any amount whatever of toll or fare or freight, or authorize its citizens or corporations, if owners, to do the same. Had the State built the road in question it might to this day, unchallenged and unchallengeable, have charged two dollars and fifty cents for carrying a passenger between Baltimore and Washington. So might the railroad company under authority from the State if it saw fit to do so.

These are positions which must be conceded. No one has ever doubted them.

This unlimited right of the State to charge, or to authorize others to charge, toll, freight or fare for transportation on its roads, canals and railroads arises from the simple fact that they are its own works, or constructed under its authority. It gives them being. It has a right to exact compensation for their use. It has a discretion as to the amount of that compensation. That discretion is a legislative—a sovereign discretion, and in its very nature is unrestricted and uncontrolled. The security of the public against any abuse of this discretion resides in the responsibility to the public of those who for the time being are officially invested with it. In this respect it is like all other legislative power when not controlled by specific constitutional provisions, and the courts cannot presume that it will be exercised detrimentally.

So long, therefore, as it is conceded (as it seems to us it must be) that the power to charge for transportation, and the amount of the charges are absolutely within the control of the State, how can it matter what is done with the money, whether it goes to the state or to the stockholders of a private corporation? As before said, the State could have built the road itself and charged any rate it chose, and could thus have filled the coffers of its treasury without being questioned therefor. How does the case differ in a constitutional point of view when it authorizes its private citizens to build the road and reserves for its own use a portion of the earnings? We are unable to see the distinction between the two cases.

In our judgment there is no solid distinction. If the State, as a consideration of the franchise, had stipulated that it should have all the passenger money and that the corporation should have only the freight for the transportation of merchandise, and the corporation had agreed to those terms, it would have been the same thing. It is simply the exercise by the State of absolute control over its property and prerogatives. This exercise is very different from the imposition of a tax or duty upon the movements or operations of commerce between the States. Such an imposition, whether relating to persons or goods, we have decided the States cannot make, because it would be a regulation of commerce between the States in a matter in which uniformity is essential to the rights of all, and therefore requiring the exclusive legislation of Congress. (Crandall vs. Nevada, 6 Wall., 42; case of freight tax, 14 Wall., 282, 279.) It is a tax because of the transportation, and is, therefore, virtually a tax on transportation, and not in any sense a compensation therefor, or for the franchise enjoyed by the corporation that performs it.

It is often difficult to draw the line between the power of the State and the prohibitions of the constitution. Whilst it is commonly said that the State has absolute control over the corporations of its own creation, and may impose upon them such conditions as it pleases, and like control over its own territory, highways and bridges, and may impose such exactions for their use as it seems fit, on the other hand it is conceded that it cannot regulate or impede inter State commerce, nor discriminate between its own citizens and those of other States prejudicially to the latter. The problem is to reconcile the two propositions, and as the latter arises from the provisions of the constitution of the United States, and is therefore paramount, the question is practically reduced to this: What amounts to a regulation of commerce between the States, or to discrimination against the citizens of other States?

This is often difficult to determine. In view, however, of the very plenary power which a State has always been conceded to have over its own territory, its highways, its franchises and its corporations, we cannot regard the stipulation in question as amounting to either of these unconstitutional acts. It is not within the category of such acts. It may incidentally affect transporation, it is true; so does every burden or tax imposed on corporations or persons engaged in that business. Such burdens, however, are imposed *diverso intuitu*, and in the exercise of an undoubted power. The State is conceded to possess the power to tax its corporations, and yet every tax imposed on a carrier corporation affects more or less the charges it is compelled to make upon its customers. So the State has an undoubted power to exact a bonus for the grant of a franchise, payable in advance or in *futuro*, and yet that bonus will necessarily affect the charge upon the public which the donee of the franchise will be obliged to impose. The stipulated payment in this case, indeed, is nothing more nor less than a bonus, and so long as the rates of transportation are entirely discretionary with the States, such a stipulation is clearly within their reserve powers.

Of course the question will be asked, and pertinently asked, has the public no remedy against exorbitant fares and freights exacted by State lines of transportation? We cannot entirely shut our eyes to the argument *abinconvenientsi*. But it may also be asked, has the public any remedy against exorbitant fares and freights exacted by the steamship lines at sea? Maritime transportation is almost as exclusively monopolized by them as land transportation is by the railroads. In their case the only relief found is in the existence or fear of competition. The same kind of relief should avail in reference to land transportation.

Whether in addition to this Congress, under the power to establish post roads, to regulate commerce with foreign nations and among the several States, and to provide for common defense and general welfare, has authority to establish and facilitate the means of communication between the different parts of the country, and thus to counteract the apprehended impediments referred to is a question which has exercised the profoundest minds of the country. This power was formerly exercised in the construction of the Cumberland road and other similar works. It has been more recently exercised, though mostly on national territory, in the establishment of railroad communication with the Pacific coast. But it is to be hoped that no occasion will ever arise to call for any general exercise of such a power if it exists. It can hardly be supposed that individual States, so far as they have reserve or still possess the power to interfere, will be so regardless of their own interest as to allow an obstructive policy to prevail. If, however, State institutions should become so consolidated and powerful as, under color of irrevocable franchises already granted, to acquire control over the transportation of the country, and should exercise it injuriously to the public interest, every constitutional power of Congress would undoubtedly be invoked for relief. Some of the States are so situated as to put it in their power or that of their transportation lines to interpose formidable obstacles to the free movement of the commerce of the country.

Should any such system of exactions be established in these States as materially to impede the passage of produce, merchandise or travel from one part of the country to another, it is hardly to be supposed that the case is a *casus omissus* in the constitution. Commercially, this is but one country and intercourse between all its parts should be as free as due compensation to the carrier interest will allow. This is demanded by the general welfare, and is dictated by the spirit of the constitution at least. Any local interference with it will demand from the national Legislature the exercise of all the just powers with which it is clothed.

But whether the power to afford relief from onerous exactions for transportation does or does not exist in the general government, we are bound to sustain the constitutional powers and prerogatives of the States as well as those of the United States whenever they are brought before us for adjudication, no matter what may be the consequences. And in the case before us we are of opinion that these powers have not been transcended.

The judgment of the Court of Appeals of Maryland is affirmed.

The following is the dissenting opinion of Mr. Justice Miller:

"I am of opinion that the statute of Maryland requiring the railroad company to pay into the treasury of the State one fifth of the amount received by it from passengers on the branch of the road between Baltimore and Washington, confined, as it is, exclusively to passengers over that branch of the road, was intended to raise a revenue for the State from all persons coming to Washington by rail, and had that effect for twenty five years, and that the statute is therefore void within the principle laid down by this court in Crandall vs Nevada, 8 Wall."

☞ The proposed Mexican Pacific Railway extends from Laredo, on the Rio Grande, in Texas, straight across Mexico to Mazatlan, on the Pacific coast. The route to the coast is 800 miles shorter than that of the Union Pacific. The last survey by the Mexican Government has been made, and the contract for making the entire 600 miles of the road has been signed by Mexican contractors. The road will be completed inside of three years. The Mexican Government has granted a subsidy of $15,000 per mile.

☞ A meeting of the directors of the Waynesburg and Washington (Narrow Gauge) Railroad was held on the 1st inst., when the remaining stock, to complete the $5,000 per mile, was taken, and the enterprise pronounced a fixed fact. The road, the permanent location of which is now being surveyed, will extend from Waynesburg, in Greene county, Pa., to Washington, in Washington county, which will give rail connections with Pittsburgh, Wheeling and other points.

☞ From Los Angeles, April 21, we learn that the contractor for the extension of the Southern Pacific Railroad had almost completed the grading of fifty miles east from Spadra, and would forward his bids to the head office for grading fifty miles further, taking it to Dos Palmos.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "†."

American Railroad Journal.

Saturday, May 15, 1875.

Financial and Commercial Affairs.

Money has been accumulating in the local market, the influx of funds, in quest of lucrative employment, having been in excess of the requirements of responsible borrowers, and rates have been quoted easier, with lenders much more accommodating in their views. Call loans have been quoted at from 2@4 per cent, and the best mercantile credits at from 4@6 per cent per annum. The City banks show a handsome gain of strength in the line of legal tenders and specie. They have had their deposits augmented largely. The loans and discounts have also been liberally increased. The circulation has fallen off slightly. The U. S. Sub Treasury reports increased currency and diminished gold reserves, as the result of the week's business. The City banks last week augmented their reserve of legal tender notes $885,800, their deposit item $6,811,200, and their specie average $588,200. They report an increase of $5,166,900 in the loans and discounts, and a falling off of $291,900 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $43,503,147, against $41,592,213, the preceding week; and a coin hoard of $56,607,503, against $62,307,207, on the previous return. The City bank exchanges in currency during the week, were $513,641,092, or a daily average of $85,606,849. The customs revenue of the port, during the week, was $2,025,000. The City banks reported their average of gold last week at $10,100,000, and their greenback average at $58,017,500. Their deposits stood at $227,873,300. The loan item was $283,420,800. The circulation was $20,488,400.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $11,149,175.

The aggregate of the outstanding U. S. currency, of all denominations, May 1, was $423,614,253. The outstanding amount of legal tender notes is $378,051,760. The National bank circulation is now $349,460,201.

The U. S. Treasury balances on Wednesday were as follows: Currency, $3,500,000; special deposit of legal tenders for redemption of certificates of deposit, $51,090,000; coin, (including $21,500,000 in coin certificates,) $89,250,000.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $8,567,885.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 94¾ millions.

Gold has been more freely dealt in, chiefly on speculative account, and the market has been quoted firmer. The specie export movement has been quite heavy. The customs drain has been moderate for the season. The extremes of the week have been 115⅛@115⅞ closing on Wednesday at 115⅛ as against 115¼ on Wednesday of the preceding week. The specie outflow last week was $3,670,352. The imports of specie at this port since Jan. 1, have been $5,770,146 against $1,559,673 same time last year. The customs demand for Gold last week averaged $337,500 a day. Foreign Exchange has been in moderate demand at about previous figures. Bankers' sixty day bills on London closed on Wednesday at $4 87¼@$4 88; sight bills on London at $4 90¼@$4 91 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of 3,908,621.

A very good demand has been noted for Government Securities, which have been quoted firmer, in price, throughout. In State and Railway bonds, business has been less active, with values, however, quoted generally strong. And in the line of Railway and Miscellaneous share property, business has been less active at variable prices, closing heavily and irregularly, under speculative manipulations.

U. S sixes of 1881 closed on Wednesday of this week at 123¾@124¼; U. S. Five-Twenties of 1862, at 116⅝@117; U. S. Five-Twenties of 1864 at 117¾@118¼; U. S. Five-Twenties of 1865 119⅞@120⅛; U. S. Five-Twenties of 1865 consolidated, 122@122⅛; U. S. Five-Twenties of 1867, 123½@123⅝; U. S. Five-Twenties of 1868, 123¼@123⅜; U. S. Ten-forties at 117⅛@117⅝; U. S. Fives of 1881, (Funding Loan) 116@116¼; Six per cent. currency Sixes from 123¾@124.

General business has been fairly active, in the produce line, but comparatively slow in merchan-

dise, with values quoted irregular. Breadstuffs and Provisions closed more steadily; Cotton weak; Petroleum and Naval Stores, lower; and Wool and Tobacco without important change. Hardware firm. Metals, unsettled, and without much animation in any kind of stock. Ingot Copper advanced to 23¼@23½. Eglinton Pig Iron quoted from yard at $31 50@$32 50; Glengarnock, $34@$35; Coltness, $34@$35; No. 1 American Pig at $26@$28; No. 2 do. at $24@$26; Forge, $22@$24; English Rails at $48@$50, gold; American Rails at works, $48@$52; Old Rails, $27 25@$29. Wrought Scrap, $32@$34. Ocean freights have been moderately active with rates quoted firmer on berth, and lower in the chartering line.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

Bondholders will please send in their coupons and receive bonds for the same. For further particulars in relation to the plan of funding, please communicate with the office of the railway company, No. 84 Broadway.

F. E. TROWBRIDGE, Secretary.

The Maryland Passenger Tax.

We give elsewhere the full text of the recent decision of the U. S. Supreme Court in the case of State of Maryland v. the Baltimore and Ohio Railroad Company. This seems to us to be necessary, as there appears to be a misconception in some quarters as to its real purport. From the *resume* published by us last week, in common with other papers, it has been assumed that the opinion lays down "the full authority of the government over the railroads for all purposes connected with the questions of cheap transportation." On the contrary, the court says that in case of obstruction of commerce by the States, Congress should interpose to the full extent of its constitutional power—but it does not undertake to say what would be an obstruction, or what are the constitutional powers of Congress, although it does express the most earnest hope that no occasion will ever arise for Congress to exercise its powers, whatever they may be. Equally erroneous is the statement that "this opinion settles the principles involved in what are called the granger cases from Wisconsin, now on appeal to the Supreme Court." These cases rest on the validity of a law of the Wisconsin Legislature assuming to regulate rates of transportation on *existing* railroads. In the Baltimore and Ohio case the court decided that the State had a right to exact any condition precedent to granting a charter; but nothing was said in the decision which can be construed to give the power to a State to "regulate" a railroad already in operation.

Fairbanks Scales in Russia.

A correspondent, traveling by the Great Imperial line of Railroad from St. Petersburg to Moscow, writes that he saw the famous Fairbanks Platform Scales at the stations, and no other weighing machines of any manufacture.

As he observes, this is a noticeable tribute to these superior balances; as the policy of Russia has been most stringent for the exclusion of outside manufacturers, with a view to encourage those of home origin, and to that end very heavy imposts are laid upon importations of foreign work.

It seems as though a generation of skilled workmen must be reared, and an infinitely varied experience cultivated, before work can be turned out of such unvarying excellence as to be recognized as the standard of the world.

☞ The Ramapo Wheel and Foundry Company have quite recently received large orders for wheels from foreign countries, and are also very busy supplying large orders for Passenger and Engine wheels to roads in this country, which has necessitated a large increase in their production.

☞ Bids were opened at the American Exchange Bank on the 10th inst. for $1,500,000, balance of the Cincinnati municipal loan. The bids aggregated $4,117,500, at prices ranging from 102 to 103½. The award will average over 103 and interest.

☞ The iron screw steamship belonging to the Pacific Mail Steamship Company and launched from Roach's works, on the Delaware, at Chester, Pa., on the 6th inst., was christened the City of San Francisco.

A New Route to the West.

The Pittsburg Commercial says that a project is well advanced to build a line of railroad from that City to Youngstown, Ohio, at which point the new road will connect with the Cleveland and Mahoning branch of the Atlantic and Great Western Railway, which is leased by the Erie Railway Co., and with the Mahoning branch of the Lake Shore and Michigan Southern Railroad, operated by the New York Central combination. It is also stated that by means of the Atlantic and Great Western Railway the Baltimore and Ohio Railroad will obtain a route from Youngstown to its Chicago junction, making a route to Chicago of about equal length with the Pittsburg, Fort Wayne and Chicago Railway. The Atlantic and Great Western Railway, by the connection thus open to its Cleveland and Mahoning branch, will have a direct route between Cleveland and Pittsburg, which will not vary at any one point much over ten miles from an airline.

☞ At an election for Managers of the Delaware and Hudson Canal Co., held in this city on the 11th inst., the following gentlemen were chosen: Abiel A. Low, Robert Lenox Kennedy, James M. Halstead, Legrand B. Cannon, James R. Taylor, Thomas Dickson, John Jacob Astor, Thomas Cornell, W. J. Hoppin, J. Pierpont Morgan, George Cabot Ward, Robert S. Hone, James Roosevelt. At a meeting of the managers on the 12th inst., Mr. Thomas Dickson was chosen President; Mr. James C. Hart Treasurer, and Mr. George L. Haight Secretary.

☞ The Postmaster General has issued an order carrying into effect, so far as this country is concerned, the treaty for formation of a general postal union, concluded at Berne October 9, last. The rates of postage will be levied on and after the 1st of July next on correspondence to all contracting States, except France, which does not participate in the benefits of the treaty until January 1, 1876.

☞ The earnings of the Central Pacific Railroad for the month of April, 1875, were $1,355,000, against $1,110,603 for the month of April, 1874, and $1,129,469 for the month of April, 1873. For first four months of 1875 the earnings were $4,339,000, against $3,645,649 for the first four months of 1874, and $3,650,530 for the first four months of 1873.

☞ The Mexican Congress has approved of the construction of railways from Vera Cruz to Zamorana, and from Guaymas to a place on the northern frontier of Sonora. A subvention has been granted to the constructors of the Merida and Progresso railroad.

☞ Holders of the Bonds of the West Wisconsin Railway Company will find a notice of interest to them in another column.

☞ Samuel W. Hale has been elected President, Farnum F. Lane Clerk, and Henry Colony Treasurer of the Ashuelot Railroad Company.

☞ Phinehas Adams has been elected President, and Geo. R. Fowler Clerk of the North Weare Railroad Co.

☞ The Lancaster and Quarryville (Pa.) Railroad was formally opened on the 11th inst.

☞ ISSUE OF $4,000,000 SIX PER CENT. GOLD BONDS OF $1,000 EACH, OF THE WESTERN UNION TELEGRAPH COMPANY.

INTEREST PAYABLE 1ST MARCH AND 1ST SEPT.

PRINCIPAL, 1900.

Messrs. MORTON, BLISS & CO, invite subscriptions for the above bonds, and will receive proposals until Tuesday, the 25th day of May, at noon, to purchase any part of the same, reserving a minimum price of 97½ per cent., and accrued interest, below which no offers will be accepted.

Subscriptions to become binding as soon as they reach the amount of $2,000,000; and if they exceed the total of $4,000,000, the $2,000,000 first subscribed shall be allotted *in full* and the balance *pro rata*.

This issue has been authorized for the purpose of providing means to redeem bonds of the company maturing Nov. 1, next, amounting to $4,448,900, and will be included in any mortgage that the company may make in the future, the amount of which shall in no event exceed $6,000,000.

On the redemption of the foregoing $4,448,900, the only bonded debt besides the present issue will be $1,500,000 Seven per cent. Gold Building Bonds, issued in 1872, and £206,000 Sterling Bonds; and the total interest on the company's debt, including this issue, will be $405,000, gold, or, at 115 per cent., gold, $465,750, currency, leaving a margin on last year's net earnings of $2,610,910, in excess of expenses and interest charges.

The company has in operation 72,500 miles of line, with 177,500 miles of wire, and upward of 6,000 stations.

The capital stock is $41,073,410, of which the company has purchased and now has in its treasury $7,287,735, leaving the outstanding share capital $33,785,675.

The earnings of the company for 1874 were $9,530,749, and the profits $3,076,660, being an increase of $248,715 of gross receipts, and of $841,643 of profits over the year 1873.

Besides the Western Union stock, the company owns $1,038,400 of the capital stock of the International Ocean Telegraph Company, which owns and operates land lines in Florida, and submarine cables between Florida, Key West, and Havana, Cuba; also $1,173,500 of the gold and stock Telegraph Company's stock.

The payment for the new bonds when allotted, will be due June 1, and the currency bonds of the company, due Nov. 1 next, will be received at 100½, and interest in payment for the same.

NEW YORK, May 8, 1875.

Hatch & Foote,

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.

EXECUTE ORDERS AT STOCK EXCHANGE.

INTEREST ALLOWED ON DEPOSITS.

☞ The Richmond and Danville (Va.) Railroad Company have paid interest due on their bonds since the 1st of May, and have retired $200,000 of the debt of their road.

The Coal Trade.

The total anthracite production reported for the week ending on the 1st inst., is stated by the Philadelphia *Ledger* at 312,958 tons, and for the year to the same date 3,571,426 tons, against 5,255,740 to the same time last year, showing a decrease of 1,684,314 tons. The bituminous production reported for the week was 53,810 tons and for the year 850,262 tons, against 798 830 tons to corresponding date last year, an increase of 51,452 tons. The total production of both kinds of coal for the week was 366,768 tons, and for the year 4,421,688 tons, against 6,054,670 tons to corresponding time last year, showing a decrease in both kinds of 1,632,982 tons. At Port Richmond for the week ending the 8th instant there were receipts of 1000 tons of coal, shipments of 1600 tons, leaving but 150 tons on hand. The *Ledger* adds:

The situation in the anthracite coal regions remains unchanged. In the Schuylkill and Lehigh regions coal production is nearly at a standstill, while in the Lackawanna region quite a harvest is being gathered by a greatly increased production over that of last year at corresponding time, the short production in the two regions named giving a better market for the trade of the one that keeps vigorously at work. The latest news from the regions in revolt gives no assurance of an early settlement of existing differences. The report of the trade for the week ending on the 1st instant gives further evidence of the consoling fact that there will be no coal famine at this time, and that the combination of coal producers and coal carriers will be able to control the price of coal within reasonable limits. We continue to quote freight charges nominal, to New York at 85 cents, to Providence at $1 75 and to Boston at $2 per ton, though there is very little, if any, freighting, from lack of coal. The quantity of coal sent to market last week from the Schuylkill region was rather under 30,000 tons, against 114,002 in corresponding week last year, and for the year so far the production is 827,713 tons less than to the same time last year, showing what that region has lost, to the profit of the other regions still at work. The Lehigh region is up to this time 1,050,508 tons short of last year's production.

International Postal Route.

The following important order was signed by the Postmaster General on the 8th inst.:

POSTOFFICE DEPARTMENT,
Washington, May 8, 1875.

The treaty concerning the formation of a general postal union concluded at Berne, October 9, 1874, between the United States of America, Germany, Austria, Hungary, Belgium, Denmark, Egypt, Spain, France, Great Britain, Greece, Italy, Luxemburg, Norway, the Netherlands, Portugal, Roumania, Russia, Servia, Sweden, Switzerland and Turkey having been duly ratified by the United States on the 8th day of March, 1875, and the ratifications thereof by the several contracting States having been duly exchanged at Berne, Switzerland, on the 3d day of May, 1875, it is hereby ordered that the uniform union rates of postage to be levied and collected in the United States on correspondence to and from the whole extent of the postal union, embracing the above named countries without distinction, shall be as follows: (A) for prepaid letters, 5 cents per 15 grammes; (B) for unpaid letters, 10 cents per 15 grammes; (C) for postal cards, 2 cents each; (D) for newspapers, if not over four ounces in weight, 2 cents each; (E) for other printed matter, samples of merchandise and all articles other than newspapers enumerated in article four of the treaty, 2 cents per each weight of two ounces or fraction thereof; (F) for the registration fee on all correspondence, 8 cents; (G) no fee will be charged for a return receipt in cases where a receipt from the addressee is requested; (H) no additional tax will be collected in the United States on the correspondence forwarded within the union by sea on routes of more than 300 nautical miles in length; (I) as regards the amounts to be paid for the territory transit according to article X of the treaty, the United States claims for herself whenever the right of transit guaranteed by that article is exercised, (even as regards her transit lines of over 750 kilometres, and excepting only her great overland railway lines between the Atlantic and Pacific oceans, expressly reserved as continuing to form the subject of special arrangements with postoffices interested,) the minimum rate of 2 francs per kilogramme of letters, and 25 centimes per kilogramme of printed matter, &c., and is ready by increasing the transit rates as permitted to 4 francs and 50 centimes, respectively, to meet the wishes of those departments of the union which make the same declaration in regard to the United States transit correspondence; (K) the freedom of transit of correspondence in closed mails reciprocally granted in the existing postal convention between the United States and Switzerland will be maintained; (L) the union rates of postage hereinbefore prescribed will be levied and collected on and after July 1, 1875, on the correspondence to and from all the contracting States except France, and on and after January 1, 1876, on the correspondence to and from France.

MARSHALL JEWELL, Postmaster General.

Commercial and Financial Information.

The Wall Street Financial and Commercial News Bureau of Mr. John J. Kiernan has been removed (from 15 Wall street) to No. 21 Wall street, more ample quarters there, giving better facilities for the business.

Mr. Kiernan supplies to the banking and commercial community information of all current events in commerce, maritime and inland, as well as in politics and war, that can possibly affect markets, as soon as they transpire in any part of the world. Hundreds of telegraphic messages are reported to his numerous customers every day from near and remote parts of this continent as well as from the Old World, so that his subscribers are informed, almost as soon as it happens, of every transaction or indication that may have the minutest influence upon their business. Thus the barriers of exclusiveness are broken down behind which, in former days, a few great houses ruled the world of commerce through their superior information; and any merchant or banker, paying the moderate annual subscription fixed by this agency, can at all times be as well and early informed as the Rothchilds who formerly were famous operators in commerce based on events of which they gained earlier knowledge than their rivals or the general public.

The information furnished by Mr. Kiernan's agency is also an effectual check upon false reports invented to affect the market. For instance, on the 5th inst. certain parties, assuming to be in receipt of cable advices, reported that the Bank of England was losing specie heavily. This statement proved incorrect, from the fact that Kiernan's special London dispatch, timed 4 P. M., (which was later confirmed by the Associated Press dispatch,) stated that the bank was gaining bullion largely, and that the amount gone into the bank on balance that day was £139,000.

☞ The interest of the City of Baltimore in the Pittsburgh and Connellsville Railroad has been purchased by the Baltimore and Ohio Railroad Company for $1,000,000.

Progress of the Southern Pacific Railroad.

Our readers are aware that work is and has for some time been progressing on the extension of the Southern Pacific Railroad, in the far southern countries of California. The details have not, however, been often, if ever, given connectedly. We append particulars in a shape that will, we think, make plain to every one the progress that has recently been made. On the 26th of March the Central and Southern Pacific cars first ran to Caliente Station, which is at the foot of the mountain near Tehachipa Pass, beyond and southeast of Bakersfield, Kern county. The next section of 27 miles, over and through the pass, includes 12 tunnels; the longest one will be 1190 feet in length; the aggregate length of the 12 tunnels will be about 5350 feet. This heavy work is in soft granite rock, and is already well covered with men and machinery; about ten months will be required to complete it ready for the track. Beyond this section the character of the work is comparatively light, and may then be in readiness for the track-layers to go on, without interruption, to Soledad Pass, where the track from Los Angeles, through the San Fernando Pass, will meet and unite with it, making a complete line of railroad from San Francisco to Los Angeles. At the same time the Southern Pacific line, continued from Los Angeles south, by way of San Bernardino, is being rapidly constructed to the San Gornio Pass, to which point (78 miles from Los Angeles,) the cars will be running by the 15th of June next. A contract for grading an additional section of fifty miles (to Dos Palmos), has just been executed, to be completed August 1st, 1875. This will leave but 89 miles to the State line of Arizona, at Fort Yuma, on the Colorado River.

Flint and Pere Marquette Railway Lands.

During the past year the land department of this road sold 8,214 acres, for $89,502, an average of $10 89 per acre. The total sales to January 1, 1875, were 181,296 acres, for $2,100,618 59, an average of a little over $8 per acre. The original grant comprised 511,492 acres, and there are still unsold 262,885 acres, as follows: Saginaw county, 6,665 acres; Midland, 14,935; Isabella, 8,890; Clare, 22,143; Bay, 1,440; Gladwin, 2,464; Mecosta, 18 462; Osceola, 11,273; Newaygo, 37,796; Lake, 67,107; Oceana, 10,380; Mason, 66,335 acres. The bulk of the sales during the past two years, says the Detroit *Free Press*, have been mainly to settlers and for farming purposes. The early sales were mostly to speculators and for the pine that was on them. The decrease of sales is attributable to the hard times. There is good inquiry for land this year, and the indications are that a large quantity will be sold, mostly to actual settlers.

☞ The first floating elevator, owned by the Boston Towboat Company, is now in operation. On her trial she moved 5,000 bushels of grain from the Boston and Albany elevator and placed it on the Cunard steamer Parthia in two hours' time. The operation was witnessed by a large number of grain merchants, who expressed themselves well pleased.

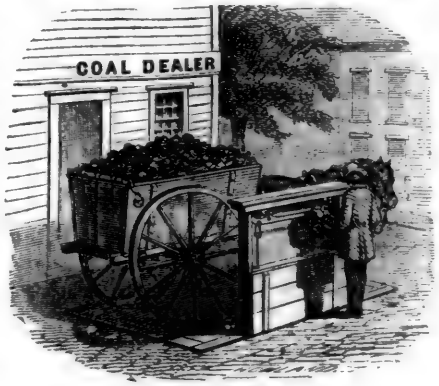
☞ Geo. A. McIlhenny has been elected President, W. J. Cowing Secretary, and B. F. Fuller Treasurer of the Capitol, North O, and South Washington Railroad Co.

Dubuque and Milwaukee Railroad.

A movement is being made to build the Dubuque and Milwaukee Railroad, an undertaking which was abandoned about twenty years ago in consequence of the inability to complete it on account of the panic of 1857. At the time of this failure there was about 40 miles of road graded, extending from Milwaukee to Elkhorn, but since the foreclosure of a mortgage by the contractors there has been nothing done towards its completion. A company has recently been organized who have purchased the bed of the road at a cost of less than 6 per cent. of the entire amount formerly expended on the construction. The new road is to be a narrow gauge, but the line of road will not be agreed upon until it is found what inducements are offered from the different sections.

Joining the Two Oceans.

Commodore Lull and his assistants in the Panama canal survey have met in Washington to make computations and prepare maps, reports, &c., to be submitted to the interoceanic canal commission, of which Commodore Ammen is the head. The commission has already examined the Tehuantepec survey, made by Capt. Schufeldt, the two Nicaragua surveys by Commodores Hatfield and Lull, and the Darien surveys by Commander Self ridge and Lieut. Collins. The Panama survey is the last, and the work of Commander Lull and assistants on the results will take two or three months, when the commission will examine it and then report to the Secretary of War which is the most desirable route.



Steam on the Erie Canal.

Immediately upon the opening of the Erie Canal the Baxter Steam Canal Boat Company will resume operations with twelve boats, each having a carrying capacity of about 225 tons. Contracts have been made for the construction of six additional boats, which are expected to be ready for use in July. When these boats are built it is the purpose of the company to send one from New York city daily. It is believed that fifteen days will be the average time consumed by each boat in making the trip from New York to Buffalo and return, not including the time occupied in loading. Improvements have been made in construction by which space is gained fore and aft, but no attempt has been made to secure greater speed. As the canal is occupied by boats drawn by horses, the steamers must run carefully to avoid collisions.

☞ The City Council of Portland, Me., have voted another $50 000 to the Portland and Ogdensburg Railroad. The whole amount thus far granted by the city is $1,214,181 67, leaving $50,000 more to be paid them as per vote of the city.

☞ The following street Railroad companies were recently incorporated : the Erie Street and North Toledo Railroad company, with a capital stock of $50,000, by William St. John and others; and the Swan Creek Railway company, of Toledo, with a capital stock of $50,000, by Conrad Hubernich and others.

Chicago, Milwaukee and St. Paul Railway.

Hon. Alexander Mitchell, President of the Chicago, Milwaukee and St. Paul Railway Company, and Mr. John E. Williams, President of the Metropolitan National Bank of New York, have addressed a circular to the stock and bond holders of the first-named corporation, of which the following is a copy :

OFFICE OF THE CHICAGO, MILWAUKEE AND ST. PAUL RAILWAY COMPANY.
No. 25 William St., New York, May 1, 1875.

TO THE STOCK AND BOND HOLDERS :—

We invite you to sign and return the enclosed authority to vote for you at the annual meeting of the stockholders of this company, to be held at Milwaukee on the 12th of June next.

We are in favor of accepting the law, of which we inclose a copy, and shall, if empowered, vote on your shares, in accordance with this view, unless otherwise instructed.

Among the contemplated reforms it is intended that the office in New York shall be used exclusively for the business of the company, and be under management that will have no interest in the stock market inconsistent with that of the shareholders.

ALEXANDER MITCHELL.
JOHN E. WILLIAMS.

The undersigned, directors, stock and bond holders of the Chicago, Milwaukee and St. Paul Railway, concur in and approve of the foregoing application of Alexander Mitchell, President of the company, and John E. Williams, President of the Metropolitan National Bank of New York :— W. S. Gurnee, Julius Wadsworth, E. L. Frank and H. Crocker, directors; Ward, Campbell & Co.; William and John O Brien, Whitehouse & Co., Vermilye & Co., Greenleaf, Norris & Co.; Weston & De Billier, Jesse Hoyt, David Dows, Cammann & Co., White, Morris & Co.; Baldwin & Kimball, Robert Bayard, Armour, Plankinton & Co.; Talcott & Sons, Edward Hen, Clark, Dodge & Co.; Hallgarten & Co., James G. Garcer, Wm. Bryce & Co., H. L. Horton & Co. and George Smith, of London, (formerly of Chicago,) banker, by his attorneys, Geddes & Reid.

The following is the law referred to :—

[Chapter 328 Laws of 1875.]

AN ACT in relation to the election of directors of the Chicago, Milwaukee and St. Paul Railway Company.

The people of the State of Wisconsin, represented in Senate and Assembly, do enact as follows :—

SECTION 1. The term of office of each and all of the directors of the Chicago, Milwaukee and St. Paul Railway Company, as such directors, shall expire at twelve o'clock noon of the day on which the annual meeting of the stockholders of said company is required by law to be held in June, A. D. 1875, and on that day the stockholders of said company shall elect a full Board of thirteen directors, who shall serve as directors thereof for one year then next ensuing said election, and annually thereafter there shall be elected by said stockholders a full Board of thirteen directors of said company.

SEC. 2. At the annual meeting of the stockholders for the election of directors of said company, in June next, and before the poll for said election shall be opened, the question of the acceptance of this act shall be submitted to a vote of the stockholders. If at such election a majority of all the stockholders voting upon said question shall vote in favor of the acceptance of this act the same shall be accepted and be in full force and binding upon said company from and after said vote; but if a majority of all the stockholders voting upon said question shall vote against such acceptance then this act shall be of no force or effect; provided, however, if for any cause the election provided for in this section is not held, as herein provided, and the result declared before the polls for the election of directors is opened, then and in that case the first section of this act shall be in full force and effect and binding upon said company, and a full Board of Directors shall be elected as therein provided.

SEC. 3. The secretary of said company shall make a certificate under the seal of the company certifying the result of said vote on the question of the acceptance of this act, and file the same in the office of the Secretary of State of the State of Wisconsin within ten days after said election.

SEC. 4. Section 1 of chapter 335 of the private and local Laws of the year 1869, and all the other acts or parts of acts contradictory or conflicting with the provisions of this act are hereby repealed.

SEC. 5. This act shall take effect and be of full force from and after its passage and publication.

FRED. W. HORN, Speaker of the Assembly.
C. D. PARKER, President of the Senate.
Approved March 5, 1875.
W. R. TAYLOR, Governor.

☞ Coos County, California, is agitating the railroad question. Articles of incorporation were filed lately in the Clerk's office incorporating a company to construct a railroad from Henryville to the Umpqua, by way of Coquille City. Another movement is on foot to build a railroad from Empire City across to the Coquille, to strike the river at or near Pershbaker's store.

Texas and Pacific Railway.

The St. Louis Republican states that the parties engaged in the construction of the Texas and Pacific Railway have now three hundred and twenty five miles in operation. They expect to iron and equip one hundred and fifty miles from Brookton to Texarkana, which is already graded also, to build some ninety miles from Sherman down to Dallas; and arrangements are made for finishing the incompleted portion to Fort Worth by the end of the present year, making a clear stretch of four hundred and fifty miles of the Texas and Pacific road. When that is done, the further construction of the great trans-continental route will probably rest until Congress sees fit to grant the needed subsidy to complete the road to the Pacific ocean, which will give us a connection with the projected railways of the republic of Mexico.

☞ There were filed on the 1st inst., in the office of the Secretary of State of California articles of incorporation of the Woodland, Clear Lake and Humboldt Railroad Company, organized to run a railroad from Elkhorn, Yolo county, to Clear Lake, Lake county, a distance of 100 miles. Capital stock, $750,000, in 75,000 shares. Place of business, Woodland. Directors—J. M. Rhodes, P. G. Everett, J. R. Barrett, William Duncan, J. S. Futt, G. Rodolph, C. H. Davis, J. D. Stephens, R. Bynum, F. S. Freeman and C. 3. Frost.

☞ Geo. W. Coddington has been appointed Superintendent of the Humboldt Division of the Central Pacific Railroad, vice R. S. Mattison, resigned.

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

American Railroad Journal.

New York, Saturday, May 22, 1875.

Erie Railway.

At a meeting of the directors of the Erie Railway Company, held on the 8th ult., Hon. E. D. Morgan and John Taylor Johnston, Esq., were appointed to assist the President in preparing and publishing a communication to the shareholders of the company, giving a general account of its financial condition and policy, with such suggestions as they might deem proper. We have been favored with a copy of the statement prepared under the advice of these gentlemen, from which we make the following abstract:

The total funded debt of the company as of January 1, 1875, is stated at $54,894,100, the annual interest accruing thereon being $4,073,106 56, viz:

January.	$202,891 00	September	$870,099 44
March.	870,099 44	October.	298,795 00
April	298,795 00	November.	87,244 90
May	87,244 94	December.	578,022 90
June	578,022 90		
July.	202,891 00	Total	$4,073,106 56

A full description of the bonds is given on page 651 of this Journal, hence it is unnecessary to repeat it here. Regarding the Second Consolidated Mortgage bonds, the President says:

You will also observe that of the second consolidated mortgage, $14,400,000 of bonds are outstanding, the balance of bonds—$600,000—making up the full amount of issue authorized, £3,000,000 or $15,000,000—still remaining with the company. This issue of bonds was placed with the London Banking Association, limited, of London, for negotiation and sale. When I assumed the Presidency of the company, on the 14th of July, 1874, but £332,900 of these bonds had been reported to the company as having been sold, realizing £259,584. Moneys had been received, from time to time, on account of these bonds; but information at what rate they had been sold, if sold at all, or upon what terms they had been hypothecated, if hypothecated at all, was not in detail communicated to the company. I was led to believe that the bonds remaining in hand would be sufficient to realize to the company an amount necessary to relieve it of all its existing floating debt, and put it in condition to conduct its business on a cash basis; and, in addition to this, provide the amount needed to complete such improvements as were necessary to an economical and efficient working of the road. It was under these representations that I assumed the management of the company.

The amount realized to the company by the sale of these bonds is £508,431 7s. 8d., or $2,542,157 50, less than the aggregate proceeds of sale, after deducting the charges as stated, which last amount remains in the hands of the London Banking Association and James McHenry held by them to meet claims, the legality or justice of which cannot be recognized by this company.

From this statement it will be seen that, of the proceeds of the bonds so sold or disposed of, this company has realized £1,232,029 2s. 9d., or $6,160,145. In addition to this amount, the company received by the hands of its agent, who went to London to endeavor to make a satisfactory settlement of these accounts, and by express, 2,766 shares of the stock of the Cleveland, Columbus, Cincinnati and Indianapolis Railroad Company, and £181,800 of Atlantic and Great Western eight per cent western extension certificates; but the precise amount for which these were returned has not been distinctly settled. Of the aggregate proceeds of the bonds sold, the amount disbursed in London on account of recognized indebtedness of the company, as reported to the Treasurer, was $1,497,283 91. The amount remitted to the Treasurer previous to July 14, 1874, was $2,106,293 26. The amount remitted to the Treasurer since that date as proceeds of said bonds is $2,556,567 88, making in the aggregate $6,160,145, leaving £508,431 7s. 8d., or $2,542,157 50, yet to be accounted for, but involved in the subject matters of controversy between the London Banking Association, Mr. McHenry, and the company.

The following table, compiled from the Treasurer's books, will show the application made of the money so received since the 14th July, 1874:

Receipts, as above		$2,556,567 88
Disbursements on account of indebtedness incurred prior to July 14, 1874:		
For construction	$343,698 53	
Coal lands mortgages	829,904 14	
Atlantic and Great Western Railroad, account rental	329,531 25	
Settlement Duck & Fargo and Union Car Company suits	202,375 44	
Injuries to persons (old claims)	85,025 06	
Suspension Bridge & Erie Junction Railroad stock	23,700 00	
Real estate, Buffalo	24,958 30	
First mortgage bonds paid off	2,000 00	
		$1,841,192 72
Disbursements on account of indebtedness incurred subsequent to July 14, 1874:		
Advances on Cleveland, Columbus, Cincinnati, and Indianap. stock for acc't James McHenry	$681,095 77	
Steel rails	129,378 65	
General fund	46,810 04	
		857,284 46
Aggregate		$2,698,477 18
Deduct cash in treasury July 14, 1874		141,909 35
Balance		$2,556,567 88

With regard to the disbursements, shown in this statement, on account of coal lands, the Atlantic and Great Western lease, steel rail, and Cleveland, Columbus, Cincinnati and Indianapolis stock, it is proper to make an explanation, there having been some criticism with regard to these items, especially concerning the item of coal lands. Long before the election of the present board, the company had become interested in the purchase, directly and indirectly, of a large quantity of coal property in the State of Pennsylvania, upon account of which, previous to the annual meeting in July last, about $1,000,000 had been paid. At the meeting held on that date, the stockholders there represented, by resolutions unanimously adopted, approved such purchases, and committed the incoming board to the execution of all contracts made in connection therewith. The amount involved was at once presented to the incoming board as being serious, and requiring the payment of a much larger amount of money than could be

expected to be realized out of the earnings of the company for such a purpose. By the terms of some of the contracts under which these coal interests were obtained a failure to make any one payment subjected the company to a forfeiture of all payments previously made. It became, therefore, a serious question for consideration and decision. From some quarters objections were suggested to any further payments being made on this account. In this emergency, being guided by the express authority and direction of the shareholders, the officers of the company could see no other course to pursue than to endeavor to secure the amounts paid by continuing the payments as they matured, in accordance with the obligations which had been assumed.

These contracts had been made with the design of promoting the interests of the company by securing to it fuel for its own use at the lowest practicable rates, and by obtaining for it, beyond the influence of other competing interests, the transportation of the coal product to the markets of the country. They were made at a time when it was believed that, out of the securities of the company then being put upon the market, an ample amount could be realized to enable the company, without serious embarrassment to meet the obligations thus incurred, and secure the advantages thus to be realized. If the financial condition of the company had been such as it was then supposed it would be, there would have been no serious impropriety in securing such an interest in these properties as would have accomplished the purpose desired. The lands and coal interest were regarded as valuable; and, if the company was now able to hold and to develop them, they would undoubtedly contribute more or less to the economy of working the road and add to its traffic. But, in view of the actual financial condition of the company, the complications thus created have proved unfortunate and embarrassing. It is believed, however, that in a short time, if the necessities of the company become such as to require it, they may be disposed of at such prices and upon such terms as will to a great extent protect the company in the amount paid out on their account, and under such arrangements as will enable it to secure economical fuel, and a large share of the transportation of the coal to be mined thereform.

The amount paid on account of the Atlantic and Great Western lease was in pursuance of an obligation assumed when it was supposed that that lease would go into effect.

During the period included in this statement, 6,571 tons of steel rail were purchased at a cost of $570,957 94, the greater part of which was used in the place of iron rails then in the track and, to that extent, "maintenance of way" was charged with so much as would equal the cost of iron rail to replace the old rail being taken out, and "construction" with the difference between the cost of iron and steel. With the exception of the amount named in the statement given, payments on this account have been made out of the earnings.

Eleven thousand and odd shares of stock of the Cleveland, Columbus, Cincinnati and Indianapolis Company were being carried in this City on account of James McHenry, who had purchased them, as this company was advised, to aid the Atlantic and Great Western Company to comply with the terms and conditions of its lease and contracts. To protect the stock, and aid him, this company had been induced, from time to time, to advance the amounts needed to prevent its being exposed to public sale. After the advances thus made, the company was advised that, unless the full amount was paid and the stock was relieved, it would be sold. In this contingency, it was thought best to advance the full amount due and take an assignment of the claim, with the stock held as collateral thereto. It was in this way that the $681,095 77 came to be advanced.

A comparative statement of the earnings, operating expenses and net earnings for the nine months ending March 31, 1874 and 1875, is given as follows:

1873-'4.	Earnings.	Expenses.	Net Earnings.
July...	$1,784,893 68	$1,337,907 69	$446,985 99

Totals..	12,453,455 19	9,290,001 00	3,163,454 19

—showing a decrease in earnings of $2,082,113 08, a decrease in expenses of $1,717,108 76, and a decrease in net earnings of $365,004 32.

Early in the month of March this company suffered the loss of its bridge over the Delaware River at Port Jervis, which operated to reduce its earnings and involved an increase of expenses. The bridge was on the main line, and for all purposes of through traffic its loss was an absolute obstruction to the use of the road and to the earnings from such traffic to be derived from the use of about 204 miles of track. The expenses for the month of March, however, include, not only the maintenance of the road and its operation, but so much of the cost of replacing the bridge as was incurred during that month. The statement of earnings and expenses applies, not only to the main line of the road, but to all its branches and leased lines.

In addition to the fixed charges for the interest on the funded debt, the company is liable for rentals and guaranteed interest upon the stocks and bonds of many of its leased lines. A statement of the lines so held shows that, on these accounts, the fixed charges which the company is required to pay to protect itself in the possession of these properties amount, in addition to the interest upon the funded debt, to $986,722 81. These leases and guarantees are in many respects oppressive. The traffic coming from the roads so leased undoubtedly adds to the revenue of the main line; but not to an extent equal to the rentals paid. The lines are generally short, and will always, in proportion to the traffic transported over them, be expensive to operate.

There are other contracts equally oppressive in their provisions and operations. Whatever may have been the considerations which led to their execution, they are unjust to this company. Many of them, in justice to all parties, might be modified. It would require time, however, and perhaps the intervention of the law and the courts, to accomplish the necessary changes. A stable and permanent management, which could patiently take up these various contracts, from time to time, with those in interest, could probably produce results which would be just to them, as well as just to, and protective of, the interests of this company.

A considerable portion of the communication is devoted to explanations in regard to the lease by the Erie Company of the Atlantic and Great Western Railway; and to Mr. Jewett's relations with the company in regard to the amount of salary paid him, etc. In conclusion, Mr. Jewett says:

In many respects the year past has been an unfortunate one. The misfortunes and difficulties which other roads (in better condition, financially and physically, than this to encounter) have suffered, have weighed heavily upon this company. Its revenues have been diminished, but not in a greater ratio than others. Its expenses have been diminished, under the circumstances, perhaps in a greater ratio than others. Its burdens and its obligations are excessive; but its capacity for earning, under ordinary circumstances, is great; and it is suspectible of being developed to an extent but little appreciated except by those who are familiar with its surroundings and with its immediate resources. My faith in the value of the property is not diminished. I have entire confidence in its final outcome, if that succor and aid is extended to it which is ordinarily extended by the proprietors of so large and so valuable an interest. When business is once restored, and the rates of transportation become anything like equal to the service performed, it has the ability to maintain itself, pay the interest on its funded debt, materially improve its physical condition, and finally to become a source of profit to its owners. If it had the means of paying its floating debt, and putting itself upon terms of equality in its daily transactions with its competing lines, the expense of its maintenance and operation could be largely reduced. A fixed and definite line of policy should be observed in the conducting of its affairs. This can only be secured by giving to it a stable and permanent management. You are advised, therefore, to select such a management; one with which you may be content; one in the skill, wisdom and efficiency of which you may have confidence, giving to it the character of permanency, together with that moral, material, and financial aid necessary to its success; give it time to inaugurate its economies; give it the opportunity and means to reform existing and burdensome contracts, and put it in the position for devising, and allow it time to carry out, the plans which may be agreed upon for the improvement and completion of the road. With such a management, so aided and maintained, there is no reason to doubt the ability of the road to finally realize the expectations of those who have invested so largely in it. Without this aid, however, and without such a management, its career will be unstable, its policy fluctuating, its credit impaired, and, in the end, the result will be disastrous to many interests which, otherwise, might be fully protected and preserved.

That you may be represented at the ensuing annual meeting by gentlemen who will strictly carry out whatever views or wishes you may indicate, in the future organization of the company, the Board name to you the Hon. E. D. Morgan and John Taylor Johnston, Esq., as suitable persons to whom you should intrust your proxies.

Redemption of 5-20 Bonds.

The Secretary of the Treasury on the 15th of May, instant, issued a call for the redemption of $5,000,000 of 5-20 bonds of 1862, to be paid on the 15th day of August, at the United States Treasury, at which date interest will cease. All the amount called is in

COUPON BONDS.

$50—No. 18701 to No. 20309, both inclusive.
$100—No. 48101 to No. 51600, both inclusive.
$500—No. 25001 to No. 27500, both inclusive.
$1000—No. 75857 to No. 80650, both inclusive.

There are five calls of loans now out and not yet responded to, as follows:

15th call, for.....	$5,000,000,	expires	June 1
16th "	30 000,000,	"	June 11
17th "	5,000 000,	"	July 20
18th "	5,000 000,	"	Aug. 1
19th "	5,000,000,	"	Aug. 15
Total.....	$50,000,000		

The last two calls are for the syndicate. This makes a call of $10,000,000 of bonds in excess of the last contract with the syndicate, which was only for $25,000,000. They have, however, the

option of taking the entire remainder of the new 5s. That option expires six months from February 1.

United States securities forwarded for redemption should be addressed to the Loan Division of the Secretary's Office.

Scioto Valley Railroad.

At a meeting of the stockholders of this company held in Columbus, Ohio, the following gentlemen were elected directors: Wm. Monypeny, T. Ewing Miller, E. T. Mithoff, Jno. C. English, Samuel Thomas and John G. Mitchell, of Columbus; Edward Smith, of Circleville; Lincoln G. Delano, of Chillicothe, and Hon. M. A. Hutchins, of Portsmouth. At a subsequent meeting of the directors the following officers were chosen: T. Ewing Miller President, F. C. Sessions Treasurer, W. Neil Dennison Secretary, George D. Chapman General Manager, and Joel Huntoon Chief Engineer.

The stockholders adopted resolutions authorizing the Board to enter into contract at once with Mr. Chapman according to his proposition, and assist him in starting the work at once.

Mr. Miller, in accepting the position of President, stated that he had but one object in view, and that was first, last and all the time, the completion of the road; and that he for one was determined to accomplish this if it could be done by hard work on his part. Obstacles would be thrown in the way. Opposition now existed, and would still exist to the completion, but he for one would push forward, no matter what obstacles came in the way, until the work was accomplished.

Lake Shore and Michigan Southern Railway.

The earnings of this road for the years ending December 31, 1873 and 1874, were as follows:

	1873.	1874.
From freight	$14,192,398 77	$11,918,349 78
" passengers	4,569,729 74	4,249,022 37

Total amount accounted for		$7,327,540 13

The number of miles of road operated in 1874 was the same as in 1873—1,175.39 miles—of which 540.37 miles are Main Line, (Buffalo, N. Y., to Chicago, Ill.,) and 635 02 miles are branches and tributary roads. This company owns 1,024.71 miles (although 160.11 miles are embraced in three other organizations,) and leases 150.68 miles.

Of the 540.37 miles of Main Line 230 80 miles are double track, which is equivalent to 770.45 miles single track in the Main Line, of which 514 miles, or exactly two-thirds, are laid with steel rail.

The side tracks have been increased in 1874 by 40 67 miles, and now amount to 429 22 miles.

The total number of miles of track to be maintained amounts to 1,825.4.

CONSTRUCTION.

This account for 1874 amounted to $1,043,723 82, as follows:

New side tracks, 40.67 miles		$359,447 90
Ashtabula Harbor—Docks for coal, &c		76,086 87
Real estate purchased	$154,861 72	
Less real estate sold	30,623 29	
		123,728 43
New buildings—Round houses, &c.		358,996 17
New stone and iron bridges (in place of wood)		125,464 45
Total—1874		$1,043,723 82
" 1873		2,349,959 84
" 1872		5,504,217 99
" 1871		3,343 383 70
" 1870		1,113,560 90
Total—five years		$13,354,846 25

In addition to the money expended for construction in 1874, a nominal loss of $337,636 84 on $500,000 Philadelphia and Erie Railroad stock sold during the year was charged to construction account by a resolution of the Board of Directors, in view of the manner in which the stock was acquired twenty years since by the then Cleveland and Erie Railroad Company.

An enactment of the Legislature of the State of Pennsylvania passed February 18, 1849, required the Cleveland and Erie Railroad Company, or its successors, to hold this stock twenty years, until the maturity of the bonds given in exchange for it.

This half million bonds matured July 1, 1874, and were paid, (except $11,000 not yet presented for payment,) releasing this stock, and it was sold immediately for $162,363 16.

EQUIPMENT.

During the year 1874, the equipment was increased to the extent of thirty-five new locomotives—completing contracts for fifty made early in 1873, under the administration of President Clark. Also, three hundred and forty-six cars of various classes, chiefly line cars, put in to reduce our car service account. This, taken in connection with the recent reduction from one and one-half cents to one cent per mile for freight car service, will reduce materially, in 1875, the large balance against us in 1874, for hire of cars, amounting to $614,315 86, and included in the operating expenses.

The equipment for 1,175.39 miles of road operated, stood, at the close of the year 1874, as follows:

	Dec. 31, 1874.	Dec. 31, 1873.
Locomotives	497	462
Passenger cars—all classes	257	258
Freight cars—all classes	10 185	9,843

The amount expended for additional equipment was—

1874	35 locomotives,	346 cars,	$702,782 09
1873	44 locomotives,	828 cars,	1,196,592 13
1872	72 locomotives,	1,718 cars,	1,953,852 90
1871	47 locomotives,	1,151 cars,	1,301,402 50
1870	25 locomotives,	601 cars,	654,809 45
Total, 5 years.	223 locomotives,	4,644 cars,	$5,808,849 07

Total cash outlay for construction and equipment—five years	$19,163,695 32
Add cost of Northern Central Michigan R. R.—61.14 miles	1,347,494 96
Total	$20,511,190 28
During this period of five years the Bonded debt of the company was increased $15,110,000, yielding	$13,242,806 34
The capital stock of the company was increased $15,000,000, yielding	5,459,684 72
Total $30,110,000, yielding	$18,702,491 06

CAPITAL STOCK.

The capital stock of the company is $50,000,000, to wit:

Guaranteed (10 p. c.).	5,335 Shares.	$533,500
Ordinary	494,665 Shares.	49,466,500
	500,000 Shares.	$50 000,000

Of the guaranteed stock, the claim for dividends between 1857 and 1863 has been settled by compromise on $350,600, leaving $182,900 still unsettled. Dividends of 5 per cent February 1, and 5 per cent August 1, have been regularly paid on this stock since August 1, 1863, the date of the first dividend.

Of the ordinary stock, the company owns 2,514 shares, ($251,400,) which appears among its assets in the balance sheet.

BONDED DEBT.

The bonded debt of the company stood—

At the close of the year 1874	$36,511,000
December 31, 1873	30,195,000
Increase	$6,316,000

in second general mortgage bonds, (described in last Annual report.) These bonds were sold at 90, yielding to the company $5,697,416 68, thus enabling the company to extinguish its large and troublesome floating debt.

With regard to the issue of this new second general mortgage, the following statement was made in the last report:

"It is expected that the issue of $12,000,000 of these bonds will retire the $6,000,000, bonds of 1882, and extinguish the floating debt The balance of the $25,000,000 will be held in reserve for purposes of construction and equipment, and will not be used except in case of the most urgent necessity."

That this policy has been rigidly adhered to is shown by the fact that the floating debt is extinguished, and the issue of bonds stands as follows:

New second general mortgage bonds outstanding	$8,471,000
New second general mortgage bonds set aside to be exchanged for the entire amount of Bonds of 1882 outstanding	3,529,000
	$12,000,000

EARNINGS.

From freight	$11,918 349 78
From passengers	4,249,022 87
From all other sources	978,758 61
Total	$17,146,130 76
Operating expenses and taxes—65.04 per cent	11,152,371 56
Net earnings	$5,993,759 20
Interest, leases and dividend (10 per cent) on guaranteed stock	*3,008,162 76
Balance—equal to six per cent upon the capital stock and $17,576 44 surplus	$2,985,566 44
Paid dividend No. 10, 3¼ per cent, Feb. 1, 1875	1,607,661 25
Balance absorbed in the $1,746,505 91 expended for construction and equipment	$1,377,905 19

* Includes $156,898 65 interest on floating debt which accrued in 1873 but was actually paid early in 1874.

The results for the five years of this company's existence are as follows:

	Gross earnings.	Operating exp. and taxes.	Per cent.	Net earnings.
	$	$		$
1870.	13,509,235 53	8,368,821 08	61.9	5,140,414 45
1871.	14,898,449 38	9,779,806 23	65.6	5,118,643 15
1872.	17,699,935 28	11,839,525 62	66.9	5,860,409 66
1873.	19,414,509 26	13,746,598 54	70.9	5,667,910 72
1874.	17,146,130 76	11,152,371 56	65.0	5,993,759 20

These figures show the gratifying fact, that notwithstanding the large decrease in earnings in 1874, as compared with 1873, amounting to $2,268,378 50—11.6 per cent, the operating expenses have also been reduced $2,594,226 98—18.8 per per cent making an increase in net earnings of $325,848 48.

The net earnings of 1874 are the largest in the history of the company.

The decrease in earnings is all in through freight, as the decrease in passenger earnings—$320,707 37—is more than met by an increase in earnings from all other sources, $326,377 86.

The decrease in freight earnings is as follows:

From reduced average rate per ton per mile.	$1,549,079 59	or 11.0 p. ct.
From reduced average distance moved	724,969 40	or 5.2 p. ct.
Total decrease	$2,274,048 99	or 16.2 p. ct.

The following comparison of rates per ton per mile, received for transportation of freight will show that the past year has been marked by the lowest rates even known in the history of rail roads:

	1874. cts.	1873. cts.	1872. cts.	1871. cts.	1870. cts.
East bound Freight	1.098	1.297	1.272	1.357	1.356
West bound Freight	1.432	1.437	1.638	1.478	1.882
All Freight	1.180	1.335	1.374	1.391	1.504

The decrease of 155-1000 of one per cent per ton per mile in 1874, as compared with 1873, amounted to a loss in net earnings of $1,549,079 59, which is more than three per cent. upon the entire Capital Stock of this Company.

The local business of the road shows a handsome increase over the exceptionally prosperous year of 1873, the tonnage of local freight moved being 15.4 per cent., and the number of local passengers carried 9.4 per cent. greater in 1874 than in the previous year.

The earnings from passengers, as compared with 1873, show the following results:

1874—Moved 3,096,263 passengers an average of 56 miles, at an average of 2.45 cents per mile, earning	$4,249,022 87
1873—Moved 2,845,163 passengers an average of 63 miles, at an average rate of 2.55 cents per mile, earning	$4,569,729 74

While these figures show an increase of 251,100 (8.12 per cent.) passengers moved, and the largest number ever transported, yet the distance traveled was shorter by 7 miles (11.11 per cent.) and the rate per mile less by exactly one mill, resulting in a decrease in earnings of $320,707 37 or 7.01 per cent.

It is a noteworthy fact, that while the number of passengers moved was increased 8.12 per cent, the mileage of passenger trains was diminished 14.63 per cent.

OPERATING EXPENSES.

Operating expenses and taxes, 1873	$13,746,598 54
Operating expenses and taxes, 1874	11,152,371 56
Reduction (18.8 per cent)	$2,594,226 98

Immediately following the panic of 1873, a determined and effective policy of economy was introduced and enforced in every department of the road.

The pay roll for 1874, as compared with 1873, was as follows:

1874—For an average force of	10,747	$6,046,238
1873—For an average force of	12,318	7,567,597
Reduction	1,571	$1,521,359

Of this reduction of pay roll $975,667 was caused by the reduction of force worked, and $545,692 (8.3 per cent.) by reducing the pay of the force retained.

A large reduction has been made in the mileage of trains, although the tonnage of freight moved was only 5.2 per cent. less, and the number of passengers moved was 8.12 per cent. more, in 1874 than 1873.

The mileage was as follows:

Trains.	1874.	1873.	Reduction.
Freight.	6,490,510	8,026,320	1,535,810—19.13 p.c.
Pass'ger.	2,520,574	2,952,823	432,249—14.63 p.c.

The expenses include 7,400 tons—78 miles—steel rails; also 669,092—242.77 miles—cross ties have been renewed. 307 cars of various classes were built or purchased to replace a like number worn out or destroyed.

The road and equipment are in excellent condition, and ready to do a very large business whenever the revival of prosperity comes. There was expended in maintaining the road and equipment in 1874 25.46 per cent. of its earnings; the average for five years is 28.19 per cent.

CONCLUDING REMARKS OF PRESIDENT VANDERBILT.

When I was elected your President, July 1, 1873, I found the financial condition of this company to be as follows: Capital stock, fifty millions dollars all issued; funded debt, $29,730,000; floating debt, $6,277,485, including a dividend due August 1, $2,004,315, and bills and pay rolls for June, $1,478,686.

There was not a dollar in the treasury.

Contracts for construction, equipment, 20,000 tons steel rail, etc., to the amount of $7,894,845, had been made and the work all commenced, with no provision whatever for meeting the large payments.

The panic of 1873 occurred in September, and disclosed the fact that the entire dividend just paid $2,004,315) had been borrowed, on call, of the Union Trust Company. That institution closed and passed into the hands of a receiver, who called this large loan at a time when money could not be borrowed on the best collateral security. After giving the trust company ample security of my own for this debt, thus saving the road from bankruptcy, I undertook to extricate the company from its financial difficulties.

The contract for building the second track from Elkhart to Chicago, one hundred miles, had been let and work commenced. This contract, amounting to $1,500,000, was amicably canceled without loss. Strenuous efforts were made to procure a release from other large contracts, but so much material had been purchased and work done, it was impossible, and they have all been fulfilled. At this time not a single contract involving the payment of money is outstanding.

The money required to meet these obligations amounted to $6,394,845 41, as follows:

Construction, real estate and equipment	$3,754,006 84
20,000 tons steel rail, at $123 per ton, all taken and charged to operating expenses	2,460,000 00
Completion Northern Central Michigan Railroad	65,905 00
Government tax claim paid	114,933 57
Total	$6,394,845 41

The debt of the company has been increased from $36,007,485 to $37,344,225, increase only $1,337,740, of which $649,146 was discount on six and one-half millions bonds issued to fund the floating debt.

The passing of two dividends, Feb. 1 and Aug. 1, 1874, and applying the undivided earnings of 1873 and 1874, $2,413,215 34, to cancel these obligations, has helped materially, in thus quick-

ly putting the company upon a sound financial basis, without a dollar of floating debt, and restoring it to its former high position as a dividend paying road.

As soon as this position was reached, the policy of paying over to the stockholders every dollar of the earnings of their property was commenced, and a dividend at the somewhat exceptional rate of 3½ per cent. was paid February 1, 1875, from the earnings of the last half of 1874.

The charges against net earnings, which take precedence of the dividend, are: interest on funded debt, leases of branch roads, and dividend upon the guaranteed stock; and for the year 1875 will not exceed $2,850,000, or $237,500 per month.

The number of engines on the road December 31, 1874, was 497. Miles run by engines, 12,168,210. Cost of repairs per mile run, 5.80 cents. The cars are classified as follows: first class passenger 136, second class and smoking 11, emigrant 27, railroad postal 14, baggage 56, paymasters' 2, express freight 11, box 5,142, stock 1,279, oil 298, platform 1,790, coal 1,267, caboose 252, derrick 9, and dumper 148.

Tons of through and way east bound freight, 3,715,071; do., west bound, 1,506,196—total freight movement 5,221,267. Tons carried one mile east, 753,633,140; do., west, 245,708,941—total, 999,342,081.

Number of through passengers carried: 1st class, 62,878; 2d class, 7,808; emigrant, 3,616—total, 74,297. Way passengers: 1st class, 2,991,277; 2d class, 20,195; emigrant, 10,494—total, 3,021,966. Total through and way, 3,096,263. Passengers carried westward, 1,574,650; do., eastward, 1,521,613. Miles traveled by through passengers, 40,120,380; do., way passengers, 133,104,192—total mileage of passenger 173,224,572.

The earnings of this road, monthly, for a series of years will be found on page 647 of this week's issue. Also a full description of the company's bonds—amount outstanding, rate of interest, when and where payable, and the date of maturity of the principal—will be found on page 653.

President.—CORNELIUS VANDERBILT.

First Vice President.—WM. H. VANDERBILT.

Second Vice President.—AUGUSTUS SCHELL.

Directors.—Cornelius Vanderbilt, William H. Vanderbilt, Samuel F. Barger, Augustus Schell, Eugene N. Robinson, William Williams, Henry B. Payne, Amasa Stone, Stillman Witt, William L. Scott, Charles M. Reed, Albert Keep.

Treasurer.—EDWIN D. WORCESTER.

Sec'y & Ass't Treasurer.—GEORGE B. ELY.

Auditor.—C. P. LELAND.

Managing Director.—AMASA STONE.

General Superintendent. CHARLES PAINE.

☞ A citizen of San Francisco has invented what he calls a pneumatic thermometer, intending to register on the deck of a vessel carrying a cargo liable to spontaneous combustion, the amount of heat which that cargo generates, thus giving timely warning to the officers of the approaching danger of conflagration of the cargo. After experimenting as to the sensitiveness of the thermometer, the San Francisco Board of Marine Surveyors have formally expressed their approval of the instrument and recommended its general use upon vessels carrying cargoes liable to spontaneous combustion.

☞ American tanned leather has gained a foothold in nearly every country in Europe, and the demand, which has grown to large proportions, bids fair, according to recent accounts, to keep on increasing. New processes have enabled manufacturers in this country to turn out the leather so rapidly and so cheaply that the old and slow methods of other countries are too expensive to compete successfully with modern methods.

☞ The directors of the Stockton and Ione Railroad Company, elected on the 20th ult., are: E. S. Holden, George Gray, H. E. Hall, E. R. Stockwell, J. K. Doak, A. Clark, J. H. O'Brien, R. K. Reid and Fred Arnold.

☞ The proprietors of the Litchfield County (Conn.) iron beds have reduced the royalty from $5 50 to $4 a ton, and the result will be that the iron manufacturers will resume work, and the furnaces which have been idle for months past will soon be in full blast again. All kinds of business along the Connecticut Western Railroad will be affected favorably by this movement, and hundreds of people who have been idle since the suspension of work at the mines and furnaces will soon have steady employment and sure pay.

☞ The Trustees of the Cincinnati Southern Railroad have awarded to Mason, Harman & Shanahan, of Staunton, Va., a contract for the construction of the roadway of twelve sections of that road. The sections contracted for are located in Kentucky, and include some of the heaviest work on the line. The contractors at present have a contract for building a considerable portion of the Valley Railroad, and are known to be energetic men.

☞ The Wilmington (Del.) Commercial says that the Philadelphia, Wilmington and Baltimore Railroad Company, satisfied that the State will urge no further claims against it for taxes assessed in 1868 70, has announced its readiness to refund a portion of the freight tariffs on peaches of those years. Settlement will now be made at any time, when the claim is properly authenticated. The amount to be refunded is over $21,000.

☞ The contract for the construction of that part of the Southwest Pennsylvania Railroad between the Youghiogheny river and the steel works, in Connellsville, has been let; also the bridge over the Youghiogheny and the bridge over Mount's creek. It is intended to have the cars running regularly from Greensburg through to Mount Braddock by the 1st of August.

☞ The imports of merchandise at the Port of Baltimore in March 1875, amounted to $4,113,528; exports of domestic products, &c., $2,569,283; exports of foreign merchandise $13,546. The total gold and silver exports of the United States for same month were $4,160,016; imports $3,754,584.

☞ The managers of the Maine Central Railroad Company have decided to put $23,200 into new depots, water stations, &c., and $48,200 in bridges, including an iron bridge at West Falmouth and Lewiston.

☞ F. W. Rheinlander has been elected President, and Samuel S. Sands Secretary, of the Milwaukee, Lake Shore and Western Railroad Co.

☞ The earnings of the Seaboard and Roanoke Railroad for the year ending March 31, 1875, were $563,425 81, and expenses $406,865 48, leaving a net revenue of $157,060 33.

☞ We learn from Albany, that the Governor has signed the bill which authorizes savings banks to invest in securities on which the faith of the government is pledged.

☞ Holders of the Bonds of the Burlington, Cedar Rapids and Minnesota Railroad Company will find a notice of interest to them in another column.

American Railroad Journal

Saturday, May 22, 1875.

Financial and Commercial Affairs.

Financial advices from England have been generally favorable to the easy working of the Money market. Monday and Tuesday were observed in Great Britain as holidays, which tended to check business negotiations on this side of the Atlantic, depending on the market reports from London and Liverpool. Locally the financial position has been one of remarkable ease, for the season of the year. The last City Bank statement was a favorable one, showing a further large accumulation of deposits, with an increase also in the legal tender and specie averages. The loans were likewise expanded; while the circulation was diminished. The U. S. Sub Treasury made a moderate addition to its currency reserve, while reducing its coin balance considerably. The demand for Money has been comparatively moderate, from all responsible sources, speculative and mercantile. Call loans have been quoted at from 2@4 per cent, and the best mercantile credits at from 4@6 per cent per annum, with a very free offering of aid on these terms to the leading borrowers; much beyond the requirements of business. Further considerable investments of cash balances have been made in Government Securities, and the more substantial interest and dividend paying State and Railway obligations. The City banks last week augmented their reserve of legal tender notes $1,338,800, their deposit item $4,048,000, and their specie average $264,500. They report an increase of $1,796,100 in the loans and discounts, and a falling off of $124,600 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $44,357,378, against $43,503,147 the preceding week; and a coin board of $55,232,408, against $56,607,503, on the previous return. The City bank exchanges in currency during the week, were $447,921,394, or a daily average of $74,653,566. The customs revenue of the port, during the week, was $1,878,000. The City banks reported their average of gold last week at $10,864,500, and their greenback average at $59,356,300. Their deposits stood at $231,921,800. The loan item was $285,261,900. The circulation was $20,863,800.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $11,740,475.

The aggregate of the outstanding U. S. currency, of all denominations, May 1, was $423,614,258. The outstanding amount of legal tender notes is $378,051,760. The National bank circulation is now $350,459,189.

The U. S. Treasury balances on Wednesday were as follows: Currency, $4,900,550; special deposit of legal tenders for redemption of certificates of deposit, $53,180,000; coin, (including $21,050,700 in coin certificates,) $92,882,087.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $4,550,362.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 97½ millions.

The Gold movement has been more animated, mainly speculative, and the price has been again advanced, closing with an upward tendency. The operations for a further rise show decided confidence, anticipating an augmented outflow of specie to Europe, during the Summer months. The customs demand has been moderate. The week's exports of specie have been comparatively liberal. The extremes of the week have been 115⅝@116⅜, closing on Wednesday at 116¼ as against 115⅛ on Wednesday of the preceding week. The specie outflow last week was $2,223,115. The imports of specie at this port since Jan. 1, have been $6,022,045 against $1,559,678 same time last year. The customs demand for Gold last week averaged $313,000 a day. Foreign Exchange has been quoted easier in price, on a restricted inquiry. Bankers' sixty day bills on London closed on Wednesday at $4 86@$4 86⅛; sight bills on London at $4 89@$4 89⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,106,351.

Government Securities have been in fairly active request and have been quoted firm on restricted offerings of most issues. In State and Railway bonds, business has been moderate and values quoted somewhat irregular. And in the

line of Railway and Miscellaneous share property, the movements have been extensive, but at variable and generally depressed prices, closing about steady.

U. S sixes of 1881 closed on Wednesday of this week at 124@124¼; U. S. Five-Twenties of 1862, at 116¾@117; U. S. Five-Twenties of 1864 at 118@118¼; U. S. Five-Twenties of 1865 120@120¼; U. S. Five-Twenties of 1865 consolidated, 122@122⅛; U. S. Five Twenties of 1867, 123⅜@123⅞; U. S. Five-Twenties of 1868, 123⅜@123⅝; U. S. Ten-forties at 117¾@117⅞; U. S. Fives of 1881,(Funding Loan) 116⅛@116⅜; Six per cent. currency Sixes from 124@124¼.

General business has been comparatively tame. Breadstuffs have attracted less attention. Flour, and Corn closed in favor of buyers; Wheat, Oats, and Rye, more firmly. Cotton has been quoted easier in price, and less freely dealt in. Provisions, Naval Stores, Petroleum, Wool, and Tobacco have been quiet and irregular. Groceries, dull. Hardware, Boots and Shoes, Hides, and Leather, less sought after. The Metal trade has been devoid of animation. Ingot Copper quoted firm at 23¼@23½. Iron has been irregular, with sales reported of 300 tons Scotch Pig, and 1200 tons American on p. t. Eglinton Pig Iron quoted at $30@$32; Glengarnock, $34@$35; Coltness, $34@$35; No. 1 American Pig at $26@$28; No. 2 do. at $24@$26; Forge, $22@$24; English Rails at $48@$50, gold; American Rails at works, $48@$52; Old Rails, $27 @$29. Wrought Scrap, $32@$34. Ocean freights have been fairly active and at the close somewhat firmer.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The officers of the Peekskill Iron Company, recently elected, are: T. F. Wright President, F. F. Fowler Vice President, Hugh W. Adams Treasurer.

Testing Iron and Steel.

The board recently appointed by the President, under a clause in the sundry civil appropriation bill, to determine by actual tests the strength and value of all kinds of iron, steel and other metals which may be submitted to it, or by it procured, and to prepare tables which will exhibit the strength and value of said materials for constructive purposes, consists of Lieutenant Colonels T. T. S. Laidley and Q. A. Gilmore, of the army; Commander L. A. Beardslee and Chief Engineer David Smith, of the navy, and Civil Engineers W. Sooy Smith, A. L. Holly, and R. H. Thurston. This board has been organized by a sub-division into fifteen standing committees to each of which a portion of the duty is assigned to make tests, to plan and conduct investigations, and examine and report thereon, when the regular work of the board is delayed by preparations necessary to carry out its instructions. The board will be prepared to enter upon a more general investigation, testing such specimens as may be forwarded to the president of the board, or such as it may be determined to purchase in open market, immediately upon the completion of the apparatus ordered, at which time circulars will be published giving detailed instructions relative to the preparation of specimens for test, and stating minutely the information which will be demanded previous to their acceptance.

Virginia Midland Railroad.

Major Randolph, chief engineer of the Virginia Midland railroad, left here this morning to make a reconnoisance of the route from Rapidan or Orange to Charlottesville, and was accompanied by an agent of the Philadelphia and Reading railroad, the object of the reconnoisance being to ascertain the route, cost and so forth of the continuation of the link in the main line of the road between the points named, with a view especially of accommodating the mineral wealth recently developed along the road, and in which the Reading Company is so largely interested. The Reading Company have made extensive purchases of land on which there is fine iron ore, and to facilitate the transportation of which to this city for manufacture and shipment is a most desirable object.—*Alexandria Gaz, May* 17.

☞ The Committee on Securities of the New York Stock Exchange have directed that the first mortgage seven per cent. gold bonds of the Milwaukee and St. Paul Railway Company, placed on the list on Aug. 25, 1872, which are sterling gold coin bonds of £100 each, and which are convertible into American gold coin bonds in denominations of $1,000 each, shall be called separately from those which have been converted, and shall be known as follows: Milwaukee and St. Paul seven per cent. sterling gold bonds, and Milwaukee and St. Paul seven per cent. gold dollar bonds.

☞ The newly elected officers of the Kent county (Maryland) Railroad Company, are: President, John L. Stam; vice president, William Painter; secretary, John S. Bingham; treasurer, Richard Hynson; general managing director, Frederick Gerker.

☞ Active preparations are making to complete the Tuscarawas Valley railway to New Philadelphia. The road is owned by the New York Central and Lake Shore and Michigan Southern Railroad Company.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Union Pacific Railroad.

The gross earnings of this road for the month of March, 1875, were $918,963 05, the operating expenses $327,089 61, and the net earnings $591,873 44. For the month of March, 1874, the gross earnings were $687,026 15, the operating expenses $417,080 50, and the net earnings $269,945 65—showing an increase in gross earnings of $231,936 90, a decrease in operating expenses of $89,990 89, and an increase in net earnings of $321,927 79. The percentage of operating expenses in March, 1875, was 35.60; in March, 1874 it was 60.71—a decrease of 25.11 per cent. The increase of gross earnings in March, 1875, over March 1874, was 33.08 per cent, and the increase of net earnings, 47.15 per cent.

Illinois Central Railroad.

During the month of April, 1875, 2,081.63 acres of Land were sold for $15,237 28. The Cash collected on Land Contracts, was $25,157 67. The Traffic on the Main Line in Illinois, was $449,637 51 against $469,787 86 in April 1874. The Traffic on the Iowa Lines, (leased at 35 per cent of gross receipts) was $137,078 10 against $117,224 00 in April 1874.

☞ The earnings of the Baltimore and Ohio Railroad and Branches for the month of April, 1875 were $1,412,527 25, against $1,377,953 65 for the month of April, 1874, an increase of $34,573 60.

☞ We give elsewhere the order of the Postmaster General reducing the postage to and from all countries with which postal conventions have not been concluded from ten cents to five cents for each half ounce or fraction thereof.

☞ A contract has been completed between the Atlantic and Pacific Telegraph Co., and the Pennsylvania Railroad Co., by which the latter agree to allow the former to erect new wires along their whole line of road and its connections.

☞ The Steinway branch of the Astoria and Ravenswood Railroad will be completed in a few days. Upon the completion of the branch the opening of the road will be celebrated by a grand banquet, to conclude with a ball in the evening.

☞ ISSUE OF $4,000,000 SIX PER CENT. GOLD BONDS OF $1,000 EACH, OF THE WESTERN UNION TELEGRAPH COMPANY.

INTEREST PAYABLE 1ST MARCH AND 1ST SEPT. PRINCIPAL, 1900.

Messrs. MORTON, BLISS & CO., invite subscriptions for the above bonds, and will receive proposals until Tuesday, the 25th day of May, at noon, to purchase any part of the same, reserving a minimum price of 97½ per cent., and accrued interest, below which no offers will be accepted.

Subscriptions to become binding as soon as they reach the amount of $2,000,000; and if they exceed the total of $4,000,000, the $2,000,000 first subscribed shall be allotted *in full* and the balance *pro rata*.

This issue has been authorized for the purpose of providing means to redeem bonds of the company maturing Nov. 1, next, amounting to $4,448,900, and will be included in any mortgage that the company may make in the future, the amount of which shall in no event exceed $6 000 000.

On the redemption of the foregoing $4,448,900, the only bonded debt besides the present issue will be $1,500,000 Seven per cent. Gold Building Bonds, issued in 1872, and £206,000 Sterling Bonds; and the total interest on the company's debt, including this issue, will be $405,000, gold, or, at 115 per cent., gold, $465,750, currency, leaving a margin on last year's net earnings of $2,610,910, in excess of expenses and interest charges.

The company has in operation 72,500 miles of line, with 177,500 miles of wire, and upward of 6,000 stations.

The capital stock is $41,078,410, of which the company has purchased and now has in its treasury $7,287,735, leaving the outstanding share capital $33,785,675.

The earnings of the company for 1874 were $9 580,749, and the profits $3.076,660, being an increase of $248,715 of gross receipts, and of $841,648 of profits over the year 1873.

Besides the Western Union stock, the company owns $1,088,400 of the capital stock of the International Ocean Telegraph Company, which owns and operates land lines in Florida, and submarine cables between Florida, Key West, and Havana, Cuba; also $1,173,500 of the gold and stock Telegraph Company's stock.

The payment for the new bonds when allotted, will be due June 1, and the currency bonds of the company, due Nov. 1 next, will be received at 100½, and interest in payment for the same.

NEW YORK May 8, 1875.

The Coal Trade.

The total anthracite production reported for the week ending on the 8th inst., is stated by the Philadelphia *Ledger* at 298,337 tons, and for the year to the same date 3,930,033 tons, against 5,691,612 to the same time last year, showing a decrease of 1,761,579 tons. The bituminous production reported for the week was 63,907 tons and for the year 922,913 tons, against 881,897 tons to corresponding date last year, an increase of 41,016 tons. The total production of both kinds of coal for the week was 362,244 tons, and for the year 4,852,946 tons, against 6,573,509 tons to corresponding time last year, showing a decrease in both kinds of 1,720,563 tons. At Port Richmond for the week ending the 15th instant there were receipts of 2800 tons of coal, shipments of 2500 tons, leaving but 900 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 108,958 tons, and for the year 1,050,015 tons, of which 872,605 was coal and 187,410 coke. This embraces all the coal carried both east and west.

Danville, Hazleton and Wilkesbarre R. R.

This road is advertised for sale on the 15th of June, on liens anterior to the first mortgage on the property. Efforts are making to raise the amount of these liens and thus save the property from sale. This road is leased to the Pennsylvania Railroad Company, but the liens under which it is advertised to be sold underlie both the mortgage and lease, and a sale would cut both off, thus rendering future interest very uncertain. The Philadelphia *Ledger* says:

A meeting of first mortgage bondholders was held in this city on Saturday week to consider the situation, and settled on the recommendation that the first mortgage bondholders shall advance in money equal to about 7 per cent of their bonds, in order to remove the prior liens on which a sale of the road is now pending. All anxiety of the future payment of interest on the bonds it is asserted will be dissipated by the removal of those liens. There are judgments against the company on prior liens to the amount of $61,484, not including the claim for State taxes, which amounts to about $9000. About $13,000 of said judgments have been bought in, and are held by a trustee for the benefit of those who contributed the money, leaving at this time $57,484 to be provided for, besides $46,055 claimed to be due to the Pennsylvania Railroad Company, which the Danville Company say they are able to take care of, provided the bondholders can keep the road from being sold out. The alternative to the first mortgage holders is not very pleasant, but seems to admit of but one conclusion, advance the money.

Dt. of Columbia 3-65 Bonds.

The new bonds of the District of Columbia, bearing 3.65 per cent interest, issued by authority of Congress, are finding their way to the large cities, and are to some extent dealt in as investment securities. These bonds are commended as standing next in credit to Government loans, first, for the reason that Congress has exempted them from all taxation, the same as United States bonds; second, that the interest will be paid by the Government on the coupon bonds at the Sub-Treasuries, the same as on all other United States bonds, and on the registered stock by checks from the United States Treasurer, the same as in payment of interest on the new United States five per cents; third, that the District of Columbia is governed by act of Congress, the same as the navy yards, light-houses and other properties of the Government, there being no other government in the District, than that created by acts of Congress; and, fourth, that, in the opinion of the Attorney General of the United States, the United States assumes the payment of both principal and interest of those 3.65 bonds. Thus, partaking of so many of the characteristics of Government bonds, they may with much show of reason be classed next in credit to them. The question has been raised whether in case of default in the payment of the taxes levied on the District, the United States Government is obliged to provide for the interest on these bonds when due, or for the principal in the event of a failure of the District to provide the sinking fund to redeem them at maturity. This question we do not attempt to decide. The only discredit on these bonds, if it be discredit, is that their amount is not definitely settled. It is asserted that the amount will not be less than $12,000,000, and that it may be $15,000,000.

Wilmington and Reading Railroad.

An arrangement has been made to consolidate the Wilmington and Reading Railroad, which was lately in danger of coming to sale, with the Baltimore, Philadelphia and New York Railroad Company. The matter is to be submitted to the stockholders of the former company on the 31st day of May, in a meeting at Coatesville, Chester county, Pa. It appears that the Baltimore, Philadelphia and New York Railroad Company exists under a Pennsylvania charter, which is of a "roving" character, not unlike that granted to the Milford and Bay Shore railroad by the Delaware Legislature. It was originally the Juniata and State Line railroad, but having consolidated with the Maryland and Pennsylvania railroad, it partially graded a route from Baltimore, via Belair, Md., and Oxford, Pa., to Philadelphia. After the consolidation the company took its present title. It now operates but very little road, and is endeavoring to secure the construction of a through line between Baltimore and New York. The Wilmington and Reading will not materially assist in securing this end, but it will prove a valuable feeder to the new road when it is constructed, bringing down coal and thus giving a new anthracite supply to Baltimore. This is the company that has done some grading in Baltimore county, near Towsontown, in the past year or two. It is thought that as foreign capitalists are generally favorable to good coal carrying roads, the bonds of the new consolidation could be negotiated in London.

Western Union Telegraph Bonds.

Subscriptions are invited by Messrs. Morton, Bliss & Co., until May 25th, for $4,000,000 Six per cent gold bonds of the Western Union Telegraph Company. The bonds are $1,000 each, interest payable March 1 and September 1, and the principal in 1900. This issue has been authorized for the purpose of redeeming $4,448,900 bonds of the company maturing November 1 next, and will be included in any mortgage that the company may hereafter make, the amount of which shall in no event exceed $6,000,000. Subscriptions will become binding as soon as they reach the amount of $2,000,000, and the payment for the new bonds, when allotted, will be due June 1. The currency bonds of the company due November 1, 1875, will be received at 100½ and interest in payment for the same. The minimum price at which these bonds are offered is 97½ and accrued interest, below which no offers will be accepted. Further particulars will be found in the company's circular in another column.

☞ The sale of the Oil Creek and Allegheny River Railway, which was to have taken place in Philadelphia on the 15th inst., has been postponed by order of the Supreme Court to the 12th of June next. The reason for this postponement is that the Pennsylvania Transportation Company, who have a claim against the road of $158,000, assert that if the sale is forced it will deprive them of any protection and virtually wipe out their rights. The court will hear argument on the 26th inst. by David W. Sellers on behalf of the petitioners, and Samuel Thomson on behalf of Messrs. Fargo and Moorhead, the trustees of the bonds on which the road has defaulted.

☞ In the United States Circuit Court at Des Moines, Iowa, on the 13th inst., Judge Dillon decided the long pending case between Council Bluffs, Iowa, and Omaha, Nebraska, as to the terminus of the Union Pacific railroad, Omaha representing the company's interest. He holds that the legal and stipulated point of the railroad is on the Iowa shore of the Missouri river. As to the bridge he holds that the owners have an undoubted right to charge reasonable tolls. The question of right of appeal will be argued before the Supreme Court of the United States in October next.

☞ The validity of the Iowa Railroad Tariff Act, of March 28, 1878, and its application to the Burlington railroad, now operated by the Chicago, Burlington and Quincy Company, has been affirmed by Judge Dillon in the United States District Court at Des Moines, and an appeal allowed to the Supreme Court of the United States. He held that the State never granted to the company in its charter the exclusive right to fix its own tolls, and if it had, the right was surrendered by the company to the State, when it accepted the land grant in July, 1856.

☞ The Postmaster General has issued an order modifying the postal regulations by striking out that part providing that no subscription to newspapers for less than three months shall be considered a regular subscription within the meaning of the law. The effect of this order is to allow newspaper offices to send papers to subscribers at regular rates—two cents per pound—whether for one week or three months. Heretofore subscribers for less than three months have had to pay transient rates.

☞ E. C. Knight, of Philadelphia, has been elected President and James H. Stevenson Secretary and Treasurer of the Delaware and Bound Brook Railroad Company. Francis H. Saylor was continued Chief Engineer.

☞ The earnings of the Union Pacific Railroad for the first fourteen days of May, 1875, were $539,527 33; for the first fourteen days of May, 1874, $371,267 02; increase in 1875, $168,260 31.

☞ The net earnings of the Denver and Rio Grande Railway for the month of March last were $10,566, against $10,429 in corresponding month in 1874, an increase of $136.

☞ It is stated that the railroad from Jersey City to Long Branch will be completed by the middle of June.

Savannah and Charleston Railroad.

The Savannah and Charleston Railroad is to be sold, by order of court, for $1,500,000. In regard to it, the Charleston Courier says:

"Of this amount $1,100,000 will be applied to the payment of the six per cent mortgage guaranteed bonds issue of 1856, and the seven per cent. first mortgage bonds issued since the war (amounting together to about $1,000,000) and to the payment of coupons, &c. The remaining $400,000 will be applied to the payment of the funded interest bonds (State guarantee), and the eight per cent. bonds and other claims. The State, under the decree, will be responsible for any amount of guaranteed bonds not provided for out of the proceeds of the sale."

☞ On application of Jay Cooke and Charlemagne Tower, holders of the first mortgage bonds of the Northern Pacific Railroad, Judge Blatchford has issued a decree ordering the sale at public auction of all the property of the Northern Pacific Railroad, including lands and land grants. The land and land grants are to be sold in the several States and Territories in which they are located. The other property is to be sold on the first Monday in August, in front of the Custom House here.

☞ At the annual meeting of the stockholders of the New York and Harlem Railroad Company, the following officers were elected: Cornelius Vanderbilt, William H. Vanderbilt, William C. Wetmore, Augustus Schell, Abraham B. Baylis, James H. Banker, John B. Dutcher, Joseph Hacker, Cornelius Vanderbilt, Jr., Robert J. Nevin, Cornelius M. Meserole, Chauncey M. Depew, and William H. Leonard.

☞ The Salinas (Cal.) *Index* says that nine miles of the Santa Cruz and Watsonville Railroad are completed, and it is thought that within a week excursion, if not passenger, trains will be running as far as Aptos. Work is being pushed rapidly ahead on the Watsonville end and as the heavy grading is now about done, the work hereafter will be comparatively easy.

☞ The time for inaugurating work on the unfinished division of the Eureka and Palisade (Nevada) Railroad has been deferred for some cause or another, but for how long a period is not known. There seems to be no doubt, however, of the completion of the enterprise the present season.

☞ The grading of the Vaca (Cal.) Railroad to Wintersville is completed, and arrangements are made by the Stevenson Brothers to have the road in running order by the 4th of July.

☞ The value of imports at Boston the first four months of 1875 was $17,528,000—an increase of $979,000 over 1874.

☞ The latest St. Petersburg advices speak of a project by which Central Asia would be connected with the Russian (European) system by means of the simultaneous construction of three lines; one via Tiflis and Fabris, another along the Caspian sea, and the third through Frai, Orenburg, and Taschkend. Besides connecting the Indian and European systems of railway, they would open up the at present isolated markets of Taschkend, Samarkand, Bokkara, Kokand, and Kaschgar.

☞ The Emperor Alexander II. has authorized preparatory surveys for the establishment of a line from Mosheiki, a station on the Libau line, towards the Prussian frontier in the direction of Memel.

Interest paid by United States, $26,264,102 34; interest repaid by transportation of mails, &c., $5,945,643 54: balance of interest paid by United States, $20,318,458 80.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, April 30, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

Reduction in Postal Rates.

We gave last week the order of the Postmaster General concerning the postal rates between the United States and certain countries in accordance with the provisions of the General Postal Union Treaty concluded at Berne October 9, 1874. Another order has since been issued by the Postmaster General reducing postage to and from foreign countries with which postal conventions have not been concluded. The text of this order is as follows:

POSTOFFICE DEPARTMENT,
WASHINGTON, D. C., May 13, 1875.

Whereas section 165 of "An act to revise, consolidate and amend the statutes relating to the Post Office Department," approved June 8, 1872 provides "that the rate of United States postage on mail matter sent to, or received from foreign countries, with which different rates have not been established by postal convention or other arrangement, when forwarded by vessels regularly employed in transporting the mail, shall be ten cents for each half ounce or fraction thereof on letters, unless reduced by order of the Postmaster General;" and whereas under the General Postal Union treaty, concluded at Berne, October 9, 1874, the uniform prepaid rate of letter postage to be levied and collected in the United States on correspondence for the entire extent of the postal union embracing the whole of Europe, Egypt and Turkey in Asia, has been established at five cents per fifteen grammes or fraction thereof; and

Whereas it is considered desirable as far as practicable to make the rate of letter postage uniform between the United States and all foreign countries,

It is hereby ordered in accordance with the authority conferred by section 165 of the above cited act of June 8, 1872, that the rate of United States postage on letters sent to or received from foreign countries, with which different rates have not been established by postal convention or other arrangements, when forwarded by vessels regularly employed in transporting the mail, be reduced from ten to five cents for each half ounce or fraction thereof, to take effect July 1, 1875.

MARSHALL JEWELL, Postmaster General.

☞ The Flushing, North Side and Central Railroad of Long Island has reduced the fare from Hunter's Point to Flushing and return to fifteen cents. The company formerly charged forty cents for the round trip.

☞ The Tuscarawas Valley railway is to be extended to the Ohio river at Bridgeport, Belmont county.

Newspaper Postage.

The Postmaster General has issued the following o r:

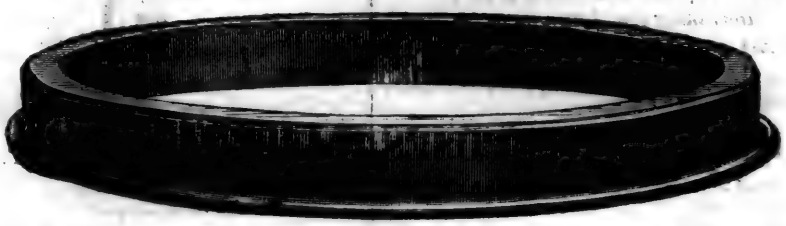
POSTOFFICE DEPARTMENT,
WASHINGTON, May 16, 1875.

Ordered that section 103 of the regulations of the Postoffice Department be amended by striking out the words "and the subscription must be for not less than three months," in the seventh and eighth lines, and the section so amended shall be as follows:

"Section 103. A regular subscriber is a person who has actually paid or undertaken to pay a subscription price for a newspaper, magazine or other periodical, or for whom such payment has been made or undertaken to be made by some other person; but, in the latter case, such payment must have been made or undertaken with the previous consent, or at the previous request of the person to whom such newspaper, magazine or periodical is sent. A person to whom any such publication is sent, without his consent or request, is not a 'regular subscriber' within the meaning of the law, and double transient rates of postage must be charged and collected on such publications before delivery."

MARSHALL JEWELL,
Postmaster General.

Postmasters will observe that by this amendment of the 103d section of the regulations, persons who are subscribers to a newspaper or periodical, as defined in the regulation, are to be regarded as "regular subscribers" within the intendment of the postal laws, without regard to the length of time of their subscription.



☞ The short line railroad from Hanover to York, Pa., will be opened, it is said, for travel by the first of July. Trains will be run from Frederick City direct to Columbia, Pa. The total cost of grading, tracklaying, &c. was $276,000 or $15,000 per mile.

THE
James Cement Co.,
(Successors to J. B. JAMES,)
Manufacture a superior quality of *Rosendale Cement*, put up in good barrels made by themselves, and well papered. Address
I. B. JAMES, Pres't,

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.)
MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic (Diamond A) Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."
M. Brigham, J. H. Butts, Ag't,
KINGSTON, N. Y. 95 LIBERTY ST., N. Y.

HOFFMAN
ROSENDALE CEMENT,
Being the STANDARD CEMENT used at the
BROOKLYN NAVY YARD.
MADE AND SOLD BY
THE LAWRENCE CEMENT CO.
M. W. WOODWARD, Sec'y,
No. 67 William St., N. Y.

DELAFIELD & BAXTER
CEMENT COMPANY.
MANUFACTURERS OF HIGH FALLS
ROSENDALE CEMENT.
WE are prepared to enter into arrangements for supplying our CEMENT for public works, or other purposes. We **warrant it equal in every respect** to any manufactured in this country. It attains a great degree of hardness, sets immediately under water, and is a **superior article** for masonry coming in contact with water, or requiring great strength.
For sale in tight barrels, well papered, on application at our office, **115 Broadway, New York.**

American Railroad Journal.

New York, Saturday, May 29, 1875.

Atchison, Topeka and Santa Fe Railroad.

The report of the directors of this company, prepared for submission to the stockholders at their annual meeting in Topeka, Kansas, on the 26th inst., states that the gross earnings for the year 1874, were $1,250,805 69, the operating expenses (44.6 per cent) were $557,641 84, and the net earnings $693,163 85; and then adds:

The year has been a prosperous one, as may be seen by a comparison with the returns of the previous year. in 1873, our gross earnings were $1,222,766 31, and our expenses 64.2 per cent., or $786,405 30. In 1874, our increase in net earnings was $256,802 84, or 58.7 per cent; and our expenses were reduced 19.6 per cent. The fact of such an increase in a year of general depression, we regard very important, as an index of what may be expected from the road when the country returns to its usual prosperity, and business in every department of trade revives.

The road is in good condition. The prospects for the future are promising. We believe that the traffic on our line will rapidly increase for the following reasons:

1. The road traverses the most fertile section of one of the most enterprising and rapidly growing States in the Union.

2. We are, and must be for a long time, without a rival or competitor which can materially interfere with our local business. All the commercial necessities of the people along our line must be supplied by rail. There are no canals or navigable rivers to divert or divide the traffic. Our road is the only direct medium of interchange of freights between the East and Southwestern Kansas, and most favorably located for the traffic of Southern Colorado and New Mexico. Two roads only cross the State of Kansas, whose area is equal to that of eleven States as large as Massachusetts, and these roads are nearly a hundred miles apart.

3. The large quantity of land already sold by the company, a great portion of which will be tilled immediately, on account of the liberal premium offered for improvements, will, doubtless, materially increase the carrying trade of the road. As the area of cultivated land increases, the traffic of the road must increase.

4. The population is rapidly increasing along the road. Indeed, the ratio of increase is greater there than in any other part of the State. According to the tables of the last report of the State Board of Agriculture, Kansas had, in 1870, a population of 364,234, and in 1874, it had 530,367.

The increase in four years was 166,113, or about forty-six per cent. But the same tables show, that, in thirteen of the eighteen counties through which our road runs, the increase was 41,221 (from 64,440 to 105,661), or more than sixty-four per cent.

5. Production will, as it has done, increase in the same ratio as that of population. Kansas holds a high rank as a producer, indeed the first rank. And as any one who will learn the growth of the towns and of the country adjacent to a railroad will know about in what ratio the earnings of that road are increasing, we here present the figures which show the increase of the cultivated area along our line. They are taken from the last Report of the State Board of Agriculture, and show the growth of a single year.

In the State at large in 1873, there were 3,031,957 acres under cultivation. In 1874 there were 3,669,769 acres; an increase of 638,812 acres, or twenty-one per cent. But in ten of the counties on our road the cultivated area, which in 1873 was 561,785 acres, had increased to 711,248 acres; an increase of 149,463 acres, or about thirty per cent. In the other counties, which are mostly new, the ratio is larger; but it is not reckoned here.

6. The completion of a road from our western terminus to the city of Pueblo in Colorado will add greatly to the income of our road. The subscription list to the Pueblo and Arkansas Valley Railroad is now so nearly full that the road will, without doubt, be built during the coming summer. The importance of having a thriving business city as our western terminus cannot be overestimated. Pueblo is a hundred and forty miles west of Granada, to which point (a distance of eleven miles from the Kansas State line) a road has already been built. The value of this connection to our road will be immense, and its results immediate. At Pueblo we shall connect with the Denver and Rio Grande narrow gauge railroad, running northward to Denver, westward to Canon City, and southward ultimately, to Santa Fe and the City of Mexico.

An important item incident to this connection with Pueblo is the tourist traffic. Colorado is fast becoming the popular health and pleasure resort of the country. Already it is visited by more than six thousand tourists annually. It is not too much to expect that we shall have a fair share of their patronage on their journey to and from this "Switzerland of America."

The Colorado coal at Canon City and Trinidad is superior to any in Kansas; and we can expect a large business in bringing it eastward. The pine timber of Colorado will naturally come over our road in competition with that which Michigan is now supplying to Kansas. There will also be a large eastward freightage of wool, cattle and hides.

Further: As the main body of residents in Colorado will ever be engaged in mining and manufacturing, rather than in agricultural pursuits, they, as well as the hosts of tourists (many of whom remain several months), will make a good market for a vast quantity of the produce of the settlers on our lands. The requirements of the mines, reduction works and dependent towns will create a large business westward in the transportation of machinery, chemicals, dry goods, clothing, furniture, groceries, etc.

Our road to Pueblo will form the shortest route to the famous San Juan mining regions. The travel to and business with this region is

rapidly increasing, as proofs accumulate of its great wealth in the precious metals; and we anticipate a large increase of business from that source. The business with New Mexico will also be greatly increased by this connection.

Thus the prospect for the future appears promising; and we believe that the bond and stockholders have good reasons for confidence in the steady and permanent increase in value of the Company's property.

The reports of the Treasurer, the Superintendent and the Land Department follow. From the latter we learn that the total acreage patented, awarded to the company, or applied for, was 2,934,584.04 acres. The total number of acres sold to December 31, 1874, was 451,097.58, at an average price of $5 17 per acre. Twenty-six States, besides several foreign countries, are represented by the purchasers.

The Coal Trade.

The total anthracite production reported for the week ending the 15th instant is stated by the Philadelphia *Ledger* at 318,931 tons, and for the year to the same date 4,248,525 tons, against 6,116,744 to the same time last year, showing a decrease of 1,868,216 tons. The bituminous production reported for the week was 65,898 tons and for the year 992,811 tons, against 954,816 tons to corresponding date last year, an increase of 37,995 tons. The total production of both kinds of coal for the week was 384,729 tons, and for the year 5,241,339 tons, against 7,071,560 tons to corresponding time last year, showing a decrease in both kinds of 1,830,221 tons. At Port Richmond for the week ending the 22d instant there were receipts of 7000 tons of coal, shipments of 3700 tons, leaving but 4000 tons on hand. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 169,806 tons, and for the year 1,119,821 tons, of which 831,876 was coal and 197,445 coke. This embraces all the coal carried both east and west. The *Ledger* adds:

The outlook for an early resumption of work in the striking coal regions is considered more favorable, but when and on what terms the resumption will take place is not definitely stated. It is, however, more and more apparent that there will be no such scarcity of coal as to admit of exorbitant and oppressive prices of fuel. In the first place, the demand is light by reason of the depression of all trade, and especially in that of iron and steam marine, both large consumers of coal when the trade and business of the country are active. There is now no complaint that we hear of, in this city or elsewhere, of a scarcity of coal, nor is there any material advance in prices, but both demand and price are sufficiently marked to stimulate the regions at work to put into the market all the coal possible. In addition to this the carrying companies connected with the regions not working extend their sympathy to those that are, and favor the largest supply possible, in order to prevent famine prices and complaint from want of coal. The production weekly increases on that of the preceding week, though still in the aggregate largely short of what it was this time last year.

☞ Work on the Atlantic and Lake Erie railway is being pushed vigorously forward in Fairfield county. A force of one hundred and fifty men are hard at it near Bremen, and the grade will be finished through the county by the last of June.

Cleveland, Columbus, Cincinnati and Indianapolis Railway.

The earnings and expenses of this road for the years ending December 31, 1873 and 1874, were as follows:

Earnings:	1873.	1874.
From passengers	$831,272 23	$786,249 76
" freight	3,735.894 81	3,148,197 40

Surplus December 31, 1874.....		275,508 73
Total, as above.....		$1,959,841 23

The earnings of 1874 are $638,842 51 less than those of the preceding year, or 13.07 per cent. The operating expenses have been 74.9 per cent. The president in his report says:

The loss in revenue is largely due to the decrease of coal traffic, from causes beyond immediate remedy, and from the depreciation of local passenger receipts, in consequence of legislation which it was deemed advisable not to oppose, and to these causes must be added the excessively low rates which have steadily obtained upon all through traffic; the average rate received during 1874, upon through freight being but 0.984 cents per ton per mile, and the eastward bound through freight having fallen to 0.921 cents per ton per mile. The average rate of all freight for 1874, is 1.192 cents per ton per mile, as against 1.362 cents in 1873.

Upon the rates of 1873, the receipts of 1874 would have been increased $525,000.

With, therefore, the re establishment of business and the return and maintenance of reasonably remunerative rates, the prosperity of the company is assured.

BONDED DEBT.

During the year there has been sold the remaining so called First Mortgage Sinking Fund Bonds, in amount three hundred thousand dollars, and also one million dollars of First Consolidated Mortgage Bonds, from the proceeds of which there has been paid and canceled thirty two thousand dollars of Bonds outstanding on January 1st, 1874.

To provide means for increasing the facilities of the railway, and to meet the indebtedness referred to in the last annual report on account of construction expenditures and advance outlays under contract, the Board decided upon the creation of a General Sinking Fund Mortgage to the amount of seven millions five hundred thousand dollars, secured by a cumulative sinking fund of one per cent per annum, with interest at seven per cent currency, or six per cent gold, payable semi-annually.

Of this security, called a First Consolidated Mortgage Bond of the company, one million dollars have been sold to Messrs. Drexel, Morgan & Co., yielding the company ninety per cent net, and accrued interest.

This Consolidated Mortgage covers all the prior mortgages of this company, as follows:

First Mortgage Sinking Fund Bonds of this company, due 1899.....	$3,000,000
First Mortgage Bonds Bellefontaine and Indiana Railroad Company, due 1875 to 1899....	448,000
First Mortgage Bonds Cleveland, Columbus and Cincinnati Railroad, ($25,000 payable each year,) 1875 to 1884	248,000
Total....	$3,696,000

The payment of this amount of three millions six hundred and ninety six thousand dollars was provided for in the consolidated Trust Deed, by requiring the Trustees in advance of any other delivery of bonds by them, to deposit with the United States Trust Company of New York City, in trust, three thousand six hundred and ninety six of the consolidated Mortgage Bonds, which can only be used in payment of the bonds of the prior mortgages, and for no other purpose whatsoever.

This duty has been performed by the trustees and the mortgage indebtedness of the company cannot, therefore, exceed seven and one-half million dollars.

EXPENDITURES.

No material progress has been made in the undertaking of sinking the tracks within certain limits in the city of Cleveland, and the company are yet negotiating in this matter.

Expenditures at all points have been avoided as far as possible, but not to the detriment of the railway, whose condition and capacity has been in every respect fully and perfectly maintained as the basis of true economy.

The number of locomotives in service at the close of the year was 132; of these 123 were coal burners, and 9 wood burners. Seven were changed from wood to coal burners during the year.

The mileage for the year was: passenger service, 799,085 miles; freight service, 3,274,554 miles; construction, fuel and repairs, 139,349 miles—total, 4,212,988 miles, a decrease of 137,580 miles.

The passenger and freight equipment in service at the close of the year was as follows: 39 passenger, 8 sleeping, 3 parlor, 1 directors' and 1 paymaster's coaches, and 16 baggage and express, 1 mail, 3 U. S. postal, 1925 box, 239 stock, 527 flat, 577 coal, 58 caboose, 5 derrick wrecking, and 2 relief wrecking cars.

The equipment for the Cincinnati and Springfield line was as follows: 16 locomotives, 15 passenger coaches, 6 baggage, 2 U. S. postal, 100 freight, 100 stock, 100 coal cars, and 8 freight train cabooses.

The total number of passengers carried was 668,541; of whom 602,646 were way, and 65,895 through. Number of passengers carried one mile, 28,951,002. Average rate per passenger per mile, 2.716 cents, against 3.009 cents in 1873.

The total number of tons of freight carried was 1,581,952; of which 907,522 tons were through,

and 624,430 way. Of the through freight, 726,517 tons were carried eastward and 181,005 westward. Of the way freight, 404,303 tons were carried eastward, and 220,127 westward. Total eastward bound, 1,130,820; do. westward do. 401,132. Number of tons carried one mile, 264,168,951. Average rate per ton per mile, 1.192 cents, against 1.362 cents in 1873.

The renewals of track for the year embrace the following: 4,141.26 gross tons Bessemer steel rail, 2,092.56 gross tons re-rolled iron rail, 224,527 lbs. railroad spike, 257,392 iron joint splices, 145,310 lbs. track bolts and nuts, 12,150 repaired rails, and 25,112 cubic yards ballast. 66⅛ miles of track were laid during the year—43⅞ miles with Bessemer steel, and 22¼ miles with re-rolled iron rails. About 20 miles of track were well ballasted, and 167,926 crossties renewed. The condition of the track has been well maintained, and will compare favorably with any previous time in its history.

ABSTRACT OF LEDGER BALANCES Dec. 31st 1874.

ASSETS.

Construction account		$17,389,586 74
Materials on hand:		
For repairs of track	$148,825 00

Canton Company.

A meeting of the directors of the Canton Company was held yesterday evening in this city, at which A. B. Baylis and L. A. Von Hoffmann, of New York, and the Baltimore directors were present, with Charles J. Baker, president, in the chair. The principal business which the meeting was called to transact was to outline the policy of the company for the ensuing year, and arrange for the report which will be made at the next annual meeting, to be held on the 3d of June proximo. Incidental to these objects was the discussion of pending negotiations with the Northern Central Railroad Company for the lease of more ground at Canton, to be used in connection with the proposed terminal improvements there. The railroad company had in advance designated the additional ground desired, and the directors discussed the terms upon which a lease of it would be consummated. The board spent the larger part of yesterday at Canton, viewing their property and arranging details connected with the operations of the company.

The directors at their meeting also had under consideration correspondence with H. O. Houghton, agent of the Inman line of English steamships running between New York and Liverpool in which the feasibility of establishing a line of steamships, in connection with Canton, between Baltimore and Liverpool is reviewed.

Mr. Houghton states it as his belief that the Inman line will establish regular steam communication between Canton wharves and Liverpool if the Canton Company will assume some responsibility as an introduction to the enterprise. He proposes to inaugurate the line with vessels suitable to do the work creditably and economically, and if the enterprise be successful to build steamships specially adapted to the trade. President Scott, of the Pennsylvania Company, has been visited by Mr. Houghton, and it is stated expressed himself as favorable to the project. The main point of Mr. Houghton's proposition seems to be that the steamship line will be undertaken in the event that his company be assisted in the risk undertaken. It is understood that two round voyages between Baltimore and Liverpool are proposed, the first to be undertaken in the next thirty days, and the other shortly after.

The sum of $25,000 is to be guaranteed by those interested, of which the Inman Company takes one-half and the Pennsylvania Railroad and Canton Company the balance, as insurance against loss from the undertaking. The Pennsylvania railroad, it was stated, has expressed willingness to act in the matter, and the Canton Company last evening agreed to assume its share. The Inman Company are owners of twelve or fourteen large steamships. Should the Pennsylvania Railroad Company decline to share in the enterprise, the Canton directors state they will bring the project before their stockholders on the 3d proximo.

The board had under consideration applications for leases of their property, amounting in the aggregate to between $700,000 and $800,000, at six per cent. The applications were from business parties in and outside of Baltimore. Improvements, costing $50,000, were determined upon by the board for the ensuing year, including new wharves, etc.—*Balt. Sun, May* 22.

California Pacific Railroad.

The Vallejo Chronicle of May 13th published a report, emanating from railroad sources, that a compromise had been effected between the German bondholders and the Central Pacific Railroad Company, in the California Pacific Railroad suit on a basis satisfactory to the former; and in its issue of the 14th verifies this statement as follows:

We are now able to state that the report is correct, to the extent of the agreement of a majority of the parties interested. The terms of settlement are as follows: The railroad company are to pay fifty per cent of the principal of the extension or second mortgage bonds when they fall due; but are to pay full interest (seven per cent) on the whole amount. The whole amount is $3,500,000, so that the company will make by this part of the transaction the present worth of $1,750,000 at seven per cent, due fourteen years hence, the bonds being payable July 1, 1889.

The first income bonds, of which the issue is $1,000,000 at ten per cent, and the second income, or double track bonds, of which the issue is $1,600,000, at six per cent, are to be paid in full, but the interest cut down to three and a half per cent. These two last mentioned issues are supposed to be mostly owned by the company's directors or their friends. If this agreement is ratified, of which there is little doubt, a majority, as we before remarked, favoring it, the California Pacific will come under the complete ownership of the Central Pacific people. A leading director of the company says that within one hundred days after the ratification of the compromise, the iron horse will be snorting over the extension of the road from Woodland to Colusa. The enlargement of the terminal facilities at South Vallejo, by the laying of additional side track, etc., is being done with a view to the construction of this extension. With the new line will be added another artery to the railroad system centering in Vallejo, thus more firmly establishing her prospects of being the depot of Northern California.

☞ Onslow Stearns of Boston, John E. Lyon of Boston, James W. Johnson of Enfield, Frederic Smyth of Manchester, Jos. P. Pittman of Laconia John A. Burnham of Boston, and Samuel N. Bell, of Manchester, have been unanimously elected directors of the Concord Railroad Company.

Grand Trunk Railway of Canada.

REPORT OF THE DIRECTORS FOR THE HALF-YEAR ENDING DEC. 31, 1874.

The gross receipts upon the whole undertaking, including the Buffalo and Champlain lines, have been		£1,127,031
Which are reduced by the discount on American currency		19,785
To		£1,107,246
Deduct—		
Working expenses, including renewals (being at the rate of 80.42 per cent, against 83.26 for the corresponding half of last year)		890,459
Leaving a sum of		£216,787

From this, however, has to be deducted the postal and military revenue due for the half-year to the postal bondholders, £16,668, which leaves £200,119, applicable for the following payments, viz:

Interest, &c., paid on lands, &c		£17,572
Atlantic and St. Lawrence lease (in full)	£52,536	
Lewiston and Auburn Railway rent	1,541	
Detroit line lease (in full)	11,250	
Montreal and Champlain bond interest	12,081	
Buffalo and Lake Huron rent	33,000	
		110,408
1st equipment bond interest		15,000
2d " " "		15,000
5 per cent perpetual debenture stock		3,750
Making the balance carried to dividend account		38,390
		£200,120

The balance carried to dividend account for the first half of the year 1874 amounted to £43,244, out of which the directors paid, on the 1st September last, a dividend on the first preference stock for the half year ended 30th June, at the rate of £2 10s. per cent per annum, absorbing £40,227, and leaving a balance of £3,017. This last sum, added to £38,390, carried to dividend account as shown above, makes £41,407, out of which the directors paid on 1st March last a dividend on the first preference stock for the half year ending 31st December last, at the rate of £2 10s. per annum, absorbing £40,227, and leaving a balance of £1,180.

Comparing this half year with the corresponding period of 1873, the gross receipts show an increase of £70,643, or 6.81 per cent. There was an increase in the passenger receipts of £17,561, or 4 65 per cent, and in the freight receipts of £40,360, or 5.91 per cent. The total number of passengers carried was 1,157,293 against 1,073,204; and the quantity of freight was 1,011,472 against 836,012 tons. The average receipt per passenger was 6s. 2d. against 6s. 4d., and per ton of freight 14s. 3d. against 16s. 8d. The increase in the freight department of 175,960 tons carried and £40,360 received shows an average of 4s. 7d. per ton against the general average of 14s. 3d. per ton. * * *

The expenses for the half year amounted, including renewals as charged in the ordinary revenue accounts to £890,459, or 80.42 per cent of the gross receipts; as against £863,106, or 83.26 per cent, for the corresponding six months of 1873, showing a decrease in the percentage of working expenses of 2.84. There was a total increase of expenditure for the half year of £27,353, or at the rate of 3.17 per cent, against the above increase of £70,643, or 6.81 per cent in the receipts. The principal increases in the expenses were as follows: In the locomotive department—for fuel, wages, and renewals—£25,000; in the traffic department, £5,300; in the rent of rolling stock—for the cars of other companies running over the line—£7,800; and in tolls, &c.—including £10,000 payable to the International Bridge Company for the half year—£10,400; making a total of £48,500. Placing against this sum the reduction in the charges for maintenance and renewal of the permanent way of £21,500, the total increase in working expenses for the half year, in round figures, was £27,000.

The increase of gross revenue for the year 1874 over 1873, after deduction of the discount on American currency, was £181,000, and the increase of net revenue was £94,000, or nearly 52 per cent of the increase of gross revenue. But the working expenses for the year 1874 include the interest paid on the International Bridge bonds and shares, which was not included in the working expenses for 1873, and which, if added to the above, increases the amount applied last year in the payment of interest and dividends on the securities of the company to £110,000, or 60 per cent of the increase of gross revenue.

As the loss on the conversion of American currency is practically a deduction from the gross receipts, it has been decided, beginning with this half year, to enter it in that manner in the accounts, which will necessarily somewhat alter the comparisons with past years. Including the interest paid on the bridge capital, the net revenue has thus increased from £340,000 in the year 1873 to £450,000 in 1874, or at the rate of 32 per cent. It is intended in future, for the sake of uniformity, to assimilate the form of the accounts, as far as practicable, to that which is required in the case of the English railway companies.

Altogether 272½ miles of permanent way were laid with steel rails in 1874, showing an increase of 42 miles, as compared with the year 1873, when 261 miles were relaid, of which 230½ miles were laid with steel rails. The total length of steel rails laid up to 31st December, 1874, was 804½ miles. The number of sleepers laid during the year was 576,230 against 594,416 in 1873. The ballasting of a further length of 227 miles was proceeded with. The charges for maintenance and renewals in the past half year were £364,867, and in the previous half year £203,208, making a total for 1874 of £567,575; of which £87,329 was carried in the June half year, and £146,867 in the past half year to capital account; leaving £388,379 against the gross revenue for 1874, or £44,390 less than in 1873. There was a decrease in the cost of maintenance of the permanent way for the half year, principally in labor, of £8,498. The report of the engineer as to the wear of the steel rails is very satisfactory and it is intended during 1875—the condition of the iron rails making it necessary—to complete the renewal of the main line in Canada and the Detroit district, and to renew portions of the other districts with steel rails. There remains £113,000 to be charged against capital during that year in respect of steel rails.

The total train miles run were 4,159,072 in 1874 against 3,719,737 in 1873, showing an increase of 439,335 miles. The cost per train mile in the locomotive department was 34.44 cents against 35.22 cents. The increase of expenses in this department was £25,106, or 9.33 per cent on the expenses for the corresponding half of 1873. This increase was principally for fuel, £23,000; wages, £2,900; and renewals, £4,10C; whilst there were some slight decreases in other items. The additional expenditure for fuel and wages was principally due to the greater amount of work performed during the half year, the mileage of cars having increased 26.25 per cent against an increase in the charge for fuel of 14.59, and of wages of 4.69 per cent. This comparative reduction was the result of the improved condition and capacity of the locomotives, and of a reduction in the "yard service" mileage, brought about by the uniformity of gauge during part of the half year, and if the remuneration for the work had been done on the same scale as in 1873, a considerable reduction in the percentage of working expenses of the locomotive department would have been shown. It is satisfactory to be able to report a reduction in the cost price of coal bought for 1875-6, equivalent on the purchases made to between £25,000 and £30,000.

The number of miles run by cars during the half year was 66,090,872 against 52,818,973 for 1873, showing an increase of 13,741,899 miles. The cost per car mile was reduced from 0.756 cent to 0.618 cent and per train mile from 10.64 cents to 9.74 cents. The increase of expenses in the car department was £1,909, or 2.35 per cent, against an increase of 6.81 per cent in the receipts, and was entirely due to an increase in the renewal charges.

The traffic expenses for the half year amounted to £229,760, against £224,338 for 1873, showing an increase of £5,422. The percentage of these expenses to gross revenue was 20.75 against 21.64. The increase in this department has been entirely in the items of salaries and wages consequent upon the additional labor required for the very large extra quantity of traffic moved during the half year, which amounted altogether to £13,000; whilst there was a reduction of nearly £8,000 in the cost of lights, lamps and signals, oil, tallow and waste, small stores, compensation, office expenses, and expenses of ferries and ferry boats, &c. The items of general charges and miscellaneous expenses were slightly increased, but they were lower in proportion to the gross revenue than in the corresponding half year of 1873.

The item rent of rolling stock was increased by £5,773. The charge under this head is simply the balance between the amount paid by this company for the use of other companies' cars and that received from other companies for the use of its own cars. Since the conversion of the gauge throughout large numbers of the cars of other companies have passed over the Grand Trunk system, and, as was mentioned in the report for December, 1873, those numbers are likely to be still further increased. The rate of payment for car mileage has, however, been reduced already from 1½ cents to 1 cent per mile, in many cases; and the charge against net revenue for "interest on hired cars" has been extinguished by the purchase during the half year of the Canada Railway Equipment, and Canada Rolling Stock companies' cars.

The balance of the stores account for the half year is £502,918 as compared with £536,105, showing a decrease of £33,187. On the completion of the change of gauge in September last, there was a considerable addition to the stock of old materials, but it is expected that before the close of 1875 nearly the whole of the old materials will have been disposed of, and that the balance of stores on hand will then be reduced to its normal condition.

The receipts in American currency during the half year amounted to $3,590,000, against $2,923,000, of which $1,189,800, was converted into gold; against $1,234,733 entailing a loss of £19,285, against a loss of £24,598 for the corresponding period of 1873. Gold fluctuated during the half year from 112½ on Dec. 31 which was the highest quotation, to 109½, which was the quotation on November 6, the average having been 111.

The total expenditure on capital account during the half year was £794,071. The principal items were £168,500, being the balance of the cost of completing the change of gauge, including the purchase of 52 new, and the conversion from broad to narrow gauge of 15 locomotives; £130,659 for new works, including £42,328 for the purchase of the Union station at Toronto; £234,169 for the purchase of 1,547 hired cars, including the Canada Railway Equipment, and Canada Rolling Stock companies' cars; £10,468 on account of the new ferry boat at Sarnia, and £146,867, the amount charged to capital on account of steel rails during the half year. The items of £42,328 for the Union Station at Toronto and £234,169 for the purchase of cars, making altogether £276,497, are included in the rents and charges scheduled in the "Debenture Stock Act, 1874," to be extinguished by the issue of the security authorized by that Act. The details of the capital expenditure during the half year are fully given in the accounts. The balance of capital expended on December 31 was £58,955, but the expenditure was considerably in excess of the available assets, owing to the large quantity of old rails, engines, and other materials not then disposed of. The final call on the new ordinary stock, also, was not

receivable until January 1, 1875, and it was therefore necessary to obtain loans, as shown in the net revenue account from the company's bankers, to the extent of £328 082, repayable by the issue of debenture stock. During the half year £300,000 of deoenture stock was issued, and the proceeds applied to the capital expenditure of the half year.

The whole of the line east of Montreal, including 542 miles of main line and 60 miles of sidings, were changed from the 5 feet 6 inches to the 4 feet 8½ inches gauge on 25th and 26th September last. Very little interruption to business was occasioned, and the cost of the work per mile was less than on the two former occasions. The total expenditure cannot be precisely stated until the value of the old materials has been realised, but it will be considerably within the estimate. The whole of the Grand Trunk system is now on an uniform gauge of 4 feet 8½ inches.

The great depression in business in the United States which followed the monetary panic in September, 1873, continued during the whole of the year 1874, and acted prejudicially upon all railway enterprises, both in the United States and in Canada, by exciting excessive competition for that important branch of the business of the country—the transportation of the products of the interior to the seaboard—upon the remuneration for which the Grand Trunk is mainly dependent. In the year 1874 there was also an exceptionally favorable harvest in Europe, causing a great reduction in the value of the cereal productions of the United States and of Canada, and further lowering the remuneration for transportation. Comparing the year 1874 with 1873, there has been a general reduction in the rates for freight equivalent to at least from 15 to 20 per cent. The depression in business and the consequent breaking down of rates, both through and local, has been accompanied since the 1st of January last, by a general railway warfare throughout the whole field of competition in the Dominion of Canada.

About the middle of Nov. last the President met Mr. Childers, the President of the Great Western of Canada, and Mr. Broughton at Montreal, and it was arranged that a conference of the officers should take place in Western Canada in order to bring about closer relations between the two companies. Subsequently to this interview Mr. C. J. Brydges was appointed Special Commissioner of the Great Western of Canada, and early in December Mr. Hickson and Mr. Seargeant, in accordance with the arrangement of the two Presidents, met Mr. Childers and Mr. Brydges at Hamilton. Messrs. Hickson and Seargeant reported to the London Board that the negotiations promised a satisfactory issue. The two companies were at the time working under an agreed tariff of rates and fares which was equal in all respects, a tariff settled in the preceding month of October. Towards the end of December these equal rates and fares were violated, and a severe and damaging fight between the two companies ensued and lasted until the end of March. In response to a resolution of the London Board in favor of "equal rates, fares, and favors," the two executives in Canada have agreed upon a truce, and settled a general tariff of rates, in some important respects, however, less remunerative than even the tariff in force before the 1st January last. In the presence of the Canada Southern, competing with both of us in a district where the carrying capacity of the Grand Trunk and Great Western alone is far in excess of the wantt and the business of the district, any agreement of this limited character is precarious, and liable at any moment again to be violated, unless promptly supplemented by a more close and permanent union of interests.

Early on the morning of the 9th of March last, a fire broke out in the general offices of the company at Montreal, and those offices and two car shops, one under and the other adjoining them, were entirely destroyed. In the offices of the general manager, the traffic manager, the engineer and passenger and freight agents, the auditor, and others, the loss of documents, statistics, and plans was of a serious character; but the most important of them, kept in a large safe, have been preserved. Many of the documents can be replaced by duplicates kept by the London office, or by returns from stations, &c., but the replacement of the plans will require considerable expense in resurveys, &c., and much statistical information has been destroyed which it will be impossible to replace. The buildings were of wood, insufficient in accommodation, and necessarily very liable to such an accident. It had been intended eventually to erect new general offices in connection with a new station at Montreal, which it was hoped the company might be able to build with the assistance of the municipal authorities of that city. The buildings, machinery, furniture, books, stationery, and 15 cars destroyed in the car shops, were insured, and the company will no doubt receive from the insurance companies the full amount of the insurance. The receipt of the accounts for the half year has been somewhat delayed by the destruction of statistics collected for use in connection with them, but copies of the principal statements which have been taken by the general manager to his own house for revision, were in that manner preserved. A large building in Montreal—the Jacques Cartier Hotel—has been taken on lease, and is now occupied as the general offices of the company. The directors who retire by rotation, Mr. Richard Potter, Mr. Swift, Mr. Ferrier, and Mr. Graham Menzies, offer themselves for re election.

RICHARD POTTER, President.

Grand Trunk Railway Offices, 21, Old Broad street, London, E. C., 19th April, 1875.

Railroad Law.

COMMON CARRIERS.—LOSS OF GOODS BY FIRE.—CONSTRUCTION OF FIRE.—EXEMPTION CLAUSE.

The facts in the late case of The Manhattan Oil Company *vs.* The Camden and Amboy R. R. Co., (54 N. Y., 197,) are set forth in the following opinion by Judge Gray:

The oil destroyed by fire, the value of which is the subject of the present controversy, was received by the Union Transportation and Insurance Company, at Cincinnati, to be transported by that company to New York at a stated price for the entire route, and upon certain conditions, one of which was, that the company should not be liable for damages or loss by fire, or other casualty which should occur to the oil while in depots or other places of transhipment. Under this contract that company would doubtless have been liable had the oil been damaged or destroyed while on the defendant's road or boat, by any of the perils hazarded by common carriers not excepted in the contract for its transportation; and it is equally clear that if the action had been brought against that company to recover the value of the oil, it would have been shielded by the exception in the bill of lading, (Maghee *vs.* The Camden and Amboy R. R. Co., 45 N. Y., 514, 519.) This proposition I do not understand to be questioned; not because the Union Company, who became responsible for the safe delivery of the oil in New York provided against its liability for damage to, or the loss of, the property by fire in the places specified, did not as it did in some other respects, make provisions for the exemption of connecting lines. The plaintiff insists that the defendant, who was the last carrier on the route to New York, to which the Union Company had agreed to transport it, is not entitled to the benefit of the condition referred to, upon which the Union Company agreed to carry it to that city. The contract made by the Union Company was for a service to be performed, not only for a compensation to which it would not have been entitled until the property had been transported to, and ready for delivery in New York, but by it that the company would have incurred a liability for damage to, or a loss of it, had not the loss occurred in a depot or place of transhipment. The contract having been made by that company for the transportation of the oil from Cincinnati to New York was, including the condition referred to, commensurate with the undertaking to transport it over the whole and every part of the route. Had it been a contract which did not carry the liability of the first carrier beyond the distance traversed by its cars, the condition could not avail the defendant; but as it is, the defendant, instead of being the party who contracted with the plaintiff, was aiding the first carrier in performing its contract, and for a compensation to be equally apportioned and paid by that carrier, to whom the defendant was but a subordinate, and shielded by the condition made by that company against a liability for loss by fire. (Maghee *vs.* The Camden and Amboy R. R. Co., 45 N. Y., 514, 521.) A point was made upon the argument that the bill of lading was not made simultaneously with the shipping of the oil, but two days subsequent, and hence, that it does not afford an inference that its terms were assented to. This fact does not appear among the facts found, but otherwise, and although the evidence was to that effect, no exception appears to have been taken to the finding.

Whether or not the inference should be without some evidence to the contrary that the agreement as made was merged in the one subsequently written and received by the purchasing and shipping agent, without dissent, is not now necessary to be considered.

☞ The fact was mentioned during the last session of the Virginia Legislature that a bill had passed that body "to consolidate, re-establish, and regulate the sinking fund of the State of Virginia" and become a law. It is stated that by reason of this the sinking fund of the State will now amount to about $4,000,000. The arrearages of 4 per cent interest on the sinking fund established by act of March, 1871, are to be paid in preference to any other interest due, and will amount to about $154,000. The commissioners will have this year about $300 000 to invest in State bonds, and thereafter about $160,000 per annum to be devoted to the same purpose.

☞ The Sacramento Record has been shown a compass, constructed of brass, to be used in drawing an oval. It has the shape of a cross, with a groove in the centre of the cross pieces, and provided with an arm working on two pivots, attached to slides which work in the grooves. The compass can be made to draw an oval of any size or shape, and in the most perfect manner, by moving a screw operating on the same principle as that of a common compass.

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

RAILROAD SHARE LIST, including Mileage, Rolling Stock, Debts, Income, Dividends, &c., &c.

An asterisk (*) occurring in the column headed "Rolling Stock" signifies that the cost thereof is included, in that headed "Railroad." A *dash* (—) across the column signifies "nil," and running *dots* (.....) signify "not ascertained." Land Grant Railroads are printed in "*Italics*." State-aid Railroads are distinguished by a "¶."

American Railroad Journal.

Saturday, May 29, 1875.

Financial and Commercial Affairs.

Money has been in unusually liberal supply in the open market, and rates for accommodation to responsible borrowers have been ruling exceptionally low; in a temporary form, to the leading Street firms, almost nominal. Lenders have been quite eager to place balances securely, and with little reference to price. Call loans have been quoted at from 1@3 per cent, and the best mercantile credits at from 3½@5 per cent per annum. The City banks have further augmented their net reserves nearly two millions, and are now much stronger in their currency and specie averages than they have been for some time past. The U. S. Sub Treasury made an addition of over two millions to its currency balance, while reporting a loss of 1¼ millions of specie, as the result of the week's operations. The demand for financial aid has been less urgent from speculative sources, and the depression in values at the Stock Exchange has tended to lessen the requirements for use in carrying Stocks, from day to day. From mercantile sources, rather more inquiry has been noted for Money, in good part to be employed in forwarding produce to the seaboard, and to some extent also to maintain and advance the interests of speculators in Grain, Provisions, and Cotton. The City banks last week augmented their reserve of legal tender notes $1,665,700, their deposit item $208,400, and their specie average $270,100. They report a contraction of $1,616,100 in the loans and discounts, and a falling off of $200,700 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $46,447,264 against $44,857,878, the preceding week; and a coin board of $53,716,516, against $55,232,408, on the previous return. The City bank exchanges in currency during the week, were $514,257,278, or a daily average of $85,709,546. The customs revenue of the port, during the week, was $1,824,000. The City banks reported their average of gold last week at $10,684,600, and their greenback average at $61,022,000. Their deposits stood at $232,129,700. The loan item was $283,600,800. The circulation was $20,-163,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $13,624,-175.

The aggregate of the outstanding U. S. currency, of all denominations, May 1, was $423,614,-253. The outstanding amount of legal tender notes is $378,051,760. The National bank circulation is now $350,012,329.

The U. S. Treasury balances on Tuesday were as follows: Currency, $4,966,866; special deposit of legal tenders for redemption of certificates of deposit, $56,125,000; coin, (including $20,268,300 in coin certificates,) $91,581,075.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $5,844,895.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 99¾ millions.

Gold has been variable as to price, with a fairly active speculative movement noted. The customs drain has been moderate. The demand, in the export line, however, has been much lighter. The extremes of the week have been 115⅞@116¾, closing on Wednesday at 116 as against 116¼ on Wednesday of the preceding week. The specie outflow last week was $1,019,583. The imports of specie at this port since Jan. 1, have been $6,246,912 against $1,559,673 same time last year. The customs demand for Gold last week averaged $304,000 a day. Foreign Exchange has been in more demand and quoted firmer. Bankers' sixty day bills on London closed on Wednesday at $4 86¼@$4 87⅛; sight bills on London at $4 89⅛@$4 90⅛ to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $6,050,816.

Government Securities have been offered with reserve, and have been quoted higher on a good investment demand. In State and Railway bonds, business has been fair, with values quoted steadier. And in the line of Railway and Miscellaneous share property, more activity has been reported, but at generally much lower, and irregular prices, under speculative manipulations, most notable in the instance of Erie shares.

U. S sixes of 1881 closed on Wednesday of this week at 124¼@124½; U. S. Five-Twenties of

1862, at 117@117¼; U. S. Five-Twenties of 1864 at 118@118¼; U. S. Five-Twenties of 1865 120¾@120⅞; U. S. Five-Twenties of 1865 consolidated, 122⅝@122⅞; U. S. Five-Twenties of 1867, 124⅛@124¼; U. S. Five-Twenties of 1868, 123¾@124; U. S. Ten-forties at 118@118¼; U. S. Fives of 1881,(Funding Loan) 116⅝@116¾; Six per cent. currency Sixes from 124¾@125.

General business has shown more animation, the resumption of traffic on the canals adding to the supplies of produce and stimulating operations in the local market. Grain has been more freely dealt in, but at much lower prices, influenced by the increased offerings of stock. The greater part of the fresh arrivals of Corn has been out of condition for sailing vessel purposes, and the steam lines for Liverpool have had an increased call for accommodation from this source, which has enabled them to advance rates considerably. Flour, Cotton, and Provisions have been moderately active but at reduced figures. Naval Stores, Petroleum, Fish, Fruit, Hemp, Seed, and Groceries have been comparatively quiet. Tobacco, Wool, and Coal have met with more ready sale. Hardware has been inactive at late quotations. The Dry Goods trade has been much tamer at generally weak prices, for other than the most seasonable fabrics. The Metal trade has been dull in most lines, and values have been further depressed, with no prospect apparent at the moment of an early improvement. Ingot Copper quoted firm at 23@23¼. Iron has been irregular, with sales reported of 300 tons Scotch Pig, and 1200 tons American on p. t. Eglinton Pig Iron quoted at $30@$31; Glengarnock, $32; Coltness, $33@$34; No. 1 American Pig at $26@$28; No. 2 do. at $24@$26; Forge, $20@$24; English Rails at $48@$50, gold; American Rails at works, $48@$52; Old Rails, $26@$28. Wrought Scrap, $32@$34. Ocean freights have been more active and rates have been generally quoted higher.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

☞ The Iron and Steel Institute of Great Britain has elected Mr. Peter Cooper of New York as an honorary member.

Passengers must be Provided with Seats.

A case has just been decided at Auburn, N. Y., in which William B. Torpe, of that city, was plaintiff, and the New York Central and Hudson River Railroad Company the defendant. The plaintiff set forth that he was unable to find a seat in any of the ordinary cars of the train while coming from Syracuse to Auburn, and took a seat in the Wagner drawing-room car. The conductor demanded extra fare from him, which he refused. The porter thereupon ejected him from the car, tearing his clothing and inflicting slight scratches, on account of which he sued the company for $10,000 damages. The jury allowed plaintiff $1,000. According to this decision railroad companies are under obligations to furnish seats for all passengers, and if they are not to be obtained in the ordinary cars the drawing-room car may be occupied without extra charge.

☞ Jeremiah Prescott, Esq., for some thirty years connected with the Eastern Railroad, sixteen years of which as Superintendent, has been nominated by His Excellency Gov. Gaston and unanimously confirmed by the Council to the position of Manager of the Hoosac Tunnel and Troy and Greenfield Railroad, in accordance with the act recently passed by the Legislature. Mr. Prescott brings great experience and ability to his new position, his knowledge of railroad matters and acquaintance with business men eminently fitting him for the duties of this important trust.

☞ The directors of the Missouri, Kansas and Texas Railroad Company, elected at Parsons, Kansas, on the 19th inst., are: Robert E. Carr, Adolphus Meier, and Thos. J. Bartholemew, of St. Louis; Ben. P. McDonald, C. H. Pratt, and H. C. Cross, of Kansas; E. Corning, Thomas J. Agnew, William H. Guion, Elisha Riggs, George Bliss, N. L. McCready, and H C. Dickinson, of New York. The Board is entirely new, and the election is the result of a settlement between the first mortgage bondholders, creditors and stockholders.

☞ At a meeting of the stockholders of the Denver and Pacific Railroad, held at Denver on the 10th inst., the following directors were elected: R. E. Carr, D. A. Moffit, J. D. Perry, C. S. Greeley, W. B. Loomis, Jr., Jay Gould, Sidney Dillon, G. M. Dodge and Oliver Ames.

☞ The Huron and Fostoria, Ohio, Railroad company, with a capital stock of $150,000, has been incorporated. The route is from Prout's station, on the Lake Erie division of the Baltimore and Ohio railroad, to Fostoria.

☞ The earnings of the Union Pacific Railroad for 21 days of May, 1875, were $820,686 05, against $558,875 21 for the corresponding period of 1874—an increase of $261,810 84, or 46.8 per cent.

☞ The directors of the Pacific Mail Steamship Co., elected on the 26th inst., are: Sidney Dillon, Jay Gould, Charles J. Osborn, Rufus Hatch, George S. Schott, James D. Smith, George J. Forrest, Oliver Ames, John Riley.

☞ The contract for the construction of the Scioto Valley Railroad has been closed with Mr. George D. Chapman. Work will be commenced as soon as the subscriptions amount to $500,000.

☞ The earnings of the Indianapolis, Cincinnati and Lafayette Railroad for February, 1875, were $111,855 38, the expenses $78,789 15, and the net earnings $32,616 23—a loss, compared with February, 1874, of $20,231 86. For the month of March, 1875, the earnings were $136,349 92, the expenses $88,784 92, and the net earnings $47,565 90—a gain, compared with March, 1874, of $6,984 97. The aggregate earnings for the two months were $247,705 80, the aggregate expenses $167,523 17, and the aggregate net earnings $80,182 13 a decrease compared with the corresponding period of 1874, of $13,246 89.

☞ At the annual meeting of the Manchester and Keene Railroad Company, held in Keene, N. H., on the 19th inst., a board of directors was elected with Henry Colony as President. Several gentlemen were present for the purpose of making contracts for building the road from Keene to Greenfield. The contracts question was referred to a committee of the directors, who are authorized to contract for the whole or a part of the line. The prospect for the enterprise is now more flattering than ever before, and the people in the vicinity are determined to make the road a success.

☞ The Directors of the Central Vermont Railroad Company, who claim to have received a majority of the legal votes cast at the recent stockholders' meeting at St. Albans, met on the 22d inst., and organized their board as follows: John B. Page, Portland, President; Bradly Barlow, St Albans, First Vice President; James W. Hickok, Burlington, Second Vice President; A. G. Safford, St. Albans, Clerk; Albert Sowles, St. Albans, Treasurer; B. Barlow, President of Finance Committee; Romeo H. Hoyt, President of Committee on Accounts.

☞ The New Jersey Southern Railroad Company is making considerable improvement at Bayside, the southern terminus of the road in Cumberland county. A dock is being constructed for the accommodation of vessels that may bring peaches and other freight across the Delaware Bay from Maryland and Delaware, to the road, for shipment to New York the coming summer. The Co. is making an effort to direct this freight into their channel.

☞ At the recent annual meeting of the Steam Transit Company, of Brooklyn, the following officers were re-elected: President, S. B. Chittenden; Vice President, William H. Taylor; Secretary, W. R. Sheldon; Treasurer, Henry W. Sage. Members of Executive Committee—S. B. Chittenden, Alfred S. Barnes, Robert Turner, Henry W. Sage, Nathan D. Morgan.

☞ The directors of the United New Jersey Railroad and Canal Company, elected on the 25th inst., are: John J. Astor, William G. Cook, A. L. Dennis, Benjamin Fish, Hamilton Fish, Cambridge Livingston, Nehemiah Perry, Isaac W. Scudder, George G. Stevens, Robert A. Stockton, Ashbel Welsh, and Samuel Welsh.

☞ The annual meeting of the stockholders of the Columbus, Chicago and Indiana Central Railway Company will be held at Columbus, O., on the 2d of June, for the election of fifteen directors to serve for the ensuing year.

☞ General A. Anderson, formerly Vice President of the Toledo, Wabash and Western Railway, has been appointed Receiver of the Chicago, Danville and Vincennes Railroad, in the place of Messrs. Hammond and Brown, the Receivers appointed by the Circuit Court of Wells County, in the foreclosure case of Osgood against that road.

☞ At a meeting of the stockholders of the Central Vermont Railroad Company at St. Albans on the 19th inst., the following Directors were chosen: B. P. Cheney, J. Edwards, M. Rice, J. Q. Hoyt, J. R. Langdon, J. H. Kimball, J. R. Page, J. G. Smith, W. C. Smith, Joseph Clark, Francis Coxe, Lawrence Barnes, Jacob Estey.

☞ All the bids for the 25 year 6 per cent gold bonds of the Western Union Telegraph Company, opened at the banking house of Morton, Bliss & Co., on the 25th inst., were rejected, the amounts bid not having reached the sum of $2,000,000, below which they were not be binding.

☞ Ground was broken on the 24th inst., at Burlington, Vt., for the Burlington and Lamoille Valley Railroad. This road, which is to be pushed to speedy completion, will give Burlington a connection with the Portland and Ogdensburg Railroad and a new connection by rail with tide water.

☞ The coupons of the first mortgage bonds of the Wilmington, Columbia and Augusta Railroad Company, maturing June 1, 1875, will be paid on and after that date at the office of the Safe Deposit Company, Baltimore.

☞ The gross receipts of the Western Maryland Railroad for the month of April were $23,327 60, the working expenses $12,615 17, and the net result $10,712 43.

☞ It is stated that the Massillon and Coshocton railroad is an assured fact and that within three months thirty miles will be put under contract.

☞ East Troy, Wisconsin, has voted by a majority of 26 to issue $30,000 in bonds to the Milwaukee and Dubuque Railroad.

☞ The Youngstown, New Castle and Pittsburgh Railroad Company, with a capital stock of $100,000, has been incorporated.

☞ Hugh J. Jewett, Esq., has been appointed Receiver of the Erie Railway Company.

Erie Railway.

EXTRACT FROM THE STATEMENT OF PRES'T JEWETT.

On the 6th of May, 1874, a lease was executed by the Atlantic and Great Western Railway Company to this Company, of its railway, with its branches and leased lines. The execution of this lease was authorized by the Board of Directors of this company; and at the annual meeting in July, 1874, the action of the board, in this regard, was ratified and confirmed by the shareholders.

Upon my election to the presidency of the company, I regarded it my duty, in obedience to the action of the directors and shareholders, to assume the control of the road thus leased, and for that purpose, within a reasonable time, requested the president of that road to take charge thereof, and to represent this company in the management of its affairs. I had then no reason to doubt the willingness or ability of that company to perform all the conditions of the lease, and the contracts which accompanied it, and which, by its terms, were made a part and parcel thereof. There was nothing said in the lease about any security to be given by this company for its faithful observance of the terms, and performance of the conditions thereof. The president of the Atlantic and Great Western Company acknowledged the receipt of my communication, expressing his willingness to comply with my request until other arrangements were made; but stating that there was so much to be said and done in the fulfillment of the lease, he would postpone further action until an interview was had. An interview subsequently took place between us, at which I was presented with the resolutions of the Board of Directors of his company, requiring, before possession of their road could be given, the giving, by this company, of that which was regarded by them as a sufficient security that it would comply with the terms and conditions of the lease; specifying such security to be one million dollars of its second consolidated mortgage bonds, to be deposited with, and held by, the Farmers' Loan and Trust Company, in New York.

Upon a reference to the resolutions of the Board of Directors of this company, it was found that the security to be given was not designated, but that the president was authorized to make arrangements with a Trust Company for the deposit of a sufficient amount of the securities of this company, not exceeding one million of dollars.

The action of the Atlantic and Great Western board took from the president of this company all discretion in the premises. It left with the president of that company no option. It determined the amount of the security and its character. Even if this company had been disposed to accede to that demand, it was not within its power to deposit the securities specified, because the amount was not then within its control, nor was it able to command or obtain them from the then depositaries thereof. This attempt to assume control was thus, fortunately, obstructed and prevented.

The fact that no other alternative was offered (all discretion being withdrawn and the demand being explicitly made for the security named and none other), led to a careful examination of the lease, its provisions and conditions, to ascertain to what extent the resolutions of the two boards required the president of this company to proceed without again recommitting the whole subject to the board of directors. The preamble to the lease recited that the Atlantic and Great Western Company "has already purchased, and intends hereafter to purchase and control a large portion of the capital stock of the Cleveland, Columbus, Cincinnati and Indianapolis Railway, a line with which it connects at Cleveland, and also at Galion, and also connects with the Pittsburgh, Fort Wayne and Chicago Railway at Mansfield, so that the party of the first part [the Atlantic and Great Western Company] by its own lines and its connections, has a continuous line for its business and traffic from Salamanca, aforesaid, to Cleveland, Cincinnati, and Saint Louis, and so that thereby it extends to the City of Chicago, in the State of Illinois." And recited further that "the party of the second part [the Erie Company] is desirous of securing to itself a means of connection for its general traffic and business to all the points aforesaid, so that, by its connection with the railways above mentioned, and others now in existence, it will be enabled to form a continuous line of communication between New York and Chicago for the purpose of securing better facilities for the traffic of its said company;" thus making the purchase of the capital stock of the Cleveland, Columbus, Cincinnati and Indianapolis Railway, and securing the connections mentioned, the main consideration for the lease of the road by this company.

An examination of the contracts accompanying the lease, developed the fact that the same advantages were made the distinct consideration upon which the lease was based; with the covenant, on the part of the Atlantic and Great Western Company, that, on or before the first day of January, in the year 1875, it would purchase, or procure to be purchased, in addition to the stock then owned, an amount equal to at least one half of the whole capital stock of the Cleveland, Columbus, Cincinnati and Indianapolis Company; and providing that the same should be purchased at the lowest market value, not exceeding par, the said one half amounting at that time to the sum of $7,500,000; that simultaneously with such purchase the Atlantic Company would execute and deliver to this company full and complete powers of attorney and proxies, securing to this company the absolute control of the Cleveland, Columbus, Cincinnati and Indianapolis Road during the continuance of the lease.

There are other provisions in this contract, having reference to the mode and manner by which the stock was to be purchased, which involved the guaranty by this company of the payment of the interest upon the extension bonds of the Atlantic and Great Western Company, during the continuance of the contract; but it is further provided that the dividends upon the Cleveland, Columbus, Cincinnati and Indianapolis stock, so purchased, were to be first applied to the payment of such interest, the liability of this company being confined to the deficiency, if a deficiency remained to be provided for after the application of such dividends.

The Atlantic and Great Western Company had until the first of January, 1875, within which to make such purchases of stock; but it was then self evident that that company was wholly unable to comply with these provisions of the lease and contract; that it had, in fact, ceased any effort in that direction; that to assume the duties and obligations of the lease was for this company to assume them with a full knowledge that the leading consideration, upon which it was based, would fail; that the control of the Cleveland, Columbus, Cincinnati and Indianapolis road, through the intervention of the Atlantic Company, was manifestly impossible. At the very time it was being urged upon this company, to recognize the lease with its burthens and its obligations, the parties holding the Cleveland, Columbus, Cincinnati and Indianapolis stock, which had previously been largely, and for another purpose, purchased, were claiming of this company payment for the stock, not at its par value, nor at its market value, but claiming that this company, should make them whole for the losses which they had made; the interest upon their investment, with bonuses and commissions which had been paid on its account.

To have accepted the lease under these circumstances would have been an act of injustice to this company, in the commission of which I could not have felt in any sense justifiable. It is in this claim that the amount shown by the table "B," as being withheld by the London Banking Association and Mr. McHenry, is largely involved.

Upon making further inquiries, however, it was found that the statements upon which the lease was based, so far as I was advised of any information having been communicated to this company, show that, for the year terminating on the 30th of September, 1873, the earnings of the Atlantic and Great Western Company were $5,315,489 13; that the expenses of operating and maintaining the road were $3,479 522 03; leaving an apparent net earning of $1,835,957 10.

By the terms of the lease this company, for the first year, was to pay as a rental, 28 per cent. of the gross earnings of the Atlantic and Great Western Company; the second year, 29 per cent; for the remainder of the term, 30 per cent; and upon this showing of the earnings and expenses for the year 1873, the apparent net earnings of that company would seem to be equal to the rental to be paid by this company. But upon a careful examination of the statement, and from knowledge of the condition of the road and its equipment, I was led to doubt its accuracy, and to believe that if this company assumed the control of that road and recognized the obligations of the lease, the proportion of the gross earnings to be paid to that company would be a substantial loss to this, and result, finally, to the detriment of both.

For the purpose of determining the correctness of this conclusion, a thorough investigation was instituted.

In the statement of earnings and expenses, referred to, no charge for car service was made, nor was any made in the report of that company to the Auditor of the State of Pennsylvania for that year. Not doubting that such an expense had been incurred, and ought to have been accounted for as a part of the operating expenses of the company for the year, and knowing that the Rolling Stock Company was furnishing engines and cars, an examination was had into the state of the account between these two companies, as set forth in the report of the Rolling Stock Company to its stockholders, by which report it appeared that the amount due to that company from the Atlantic and Great Western Company, for the use of its stock for the fiscal year ending September 30th, 1873, was about $600,000.

This was subsequently verified by the statement of the Auditor of the Atlantic and Great Western Company to the president of that company, November 24, 1874, in which statement he fixed the amount at $586,164 30.

The taxes chargeable against the property of a railroad company, form a part of its current and operating expenses, and should have appeared in the statement referred to, to have given a correct account of the expenses for that year. Upon examination, however, it was found to be omitted, and, upon inquiry, the amount was found to be $91,529 29.

These two items combined aggregate, $677,693 59, both of which were undoubtedly chargeable to operating expenses. If the Atlantic and Great Western Company had owned the equipment, its maintenance, with the interest upon the investment, would be a charge against the company. If, instead of owning, they elected to hire or rent, the character of the charge was not changed. This equipment was necessary to the operation of the road, and to its earnings. These two items, therefore, combined would have reduced the apparent net earnings (as given in the statement to which reference has been made) to $1,158,263 51—an amount much less than 28 per cent. of the gross earnings.

The expense charged in the statement for maintenance of way, was regarded as being exceedingly low, and it was believed that a large amount which should have been charged to that account was disposed of in some other way, either by charging to construction, or by being carried to some other account. This belief has been justified by the printed statement of the proper officer of that company, Mr. Warnock, the Auditor, made November 24, 1874, to the president of his company, wherein he states that the operating expenses for 1873, there be added the total cost of material used the year ending 30th September, 1874, included the cost of all the track material used in that year; but he states further that "if to the operating expenses of the year ending 30th September, in the track in that year, but which was charged to construction," amounting to $671,802 22, it would make the total operating expenses for that

year $4,828,527 84, instead of $3,479 522 03, leaving a net earning of $486,961 29, instead of $1,885,957 10, as claimed.

This company was not in a condition to encounter burthens of this character. To assume them was to insure its own serious embarrassment, and, with that, the serious embarrassment of the Atlantic and Great Western Company.

Whilst these investigations were being pursued, the Attorney General of the State, by a complaint filed in a court of competent jurisdiction, called in question the power of this company to make such a lease.

During the pendency of these proceedings, it would have been unwise, if no other objections had existed, to attempt to carry it into effect. Having arrived at this conclusion, I felt it my duty to submit the whole question again to the Board of Directors, who, upon proper consideration, directed that no further steps, for the time being, should be taken towards putting the lease into operation.

This company having been charged in London, by parties heretofore closely connected with it, and now closely connected with the Atlantic and Great Western Company, with "dishonoring its signature and seal," it is due to you, as well as to the company, that you should thus be advised of of the facts, and the considerations by which the Board of Directors were controlled in the action taken in the premises.

Keep off the Platform.

A trial was held in Fall River, Mass., on the 21st inst., before Hon. Josiah C. Blaisdell, of an action for assault and battery, Walter S. Bosworth of Warren against Louis H. Barrus, conductor on the Fall River, Warren and Providence Railroad, for ejecting him from the cars for persisting in riding upon the platform. The judge ruled that as there was no more force used in ejecting the man than was necessary to accomplish the end, there was no assault and battery; furthermore, that a railroad corporation had just as much right to say a passenger should not ride upon the platform as they had to say he should not ride upon the engine. The whole case was therefore dismissed, with judgment for the road. This is the first case tried of this question, and settles the point that railroad corporations have the right to make and enforce such wholesome rules as they deem the safety of their passengers demand.

☞ Work is progressing in Fairfield County, Ohio, on the Atlantic and Lake Erie railroad. The Construction company expects to complete the grade from Bremen to Bush's by the 1st of July. Bush's is the point of intersection for the proposed Mineral Valley line, and is only twenty three miles from Columbus.

☞ About 25 loaded cars are taken through the Hoosac Tunnel daily, but no passengers. The excavation for the arching has been begun in the west section, and about 800 feet of arching has been built in the east section.

Vermont Narrow Gauge Railroad.

Its friends are persistently pushing the Vermont Narrow Gauge Railroad, the project having taken on a new phase lately. An important meeting was held at Bellows Falls last week, when it was voted to drop the charter already secured and to organize the through line under the general railroad law of Vermont. The name of the "Green Mountain Narrow Gauge Railroad" was adopted and the company organized with John Sprague of Conway, President; D. C. Hackett of Ludlow, Secretary; C. W. Sprague of Weston, Treasurer. Meetings will be held on the line, beginning at Wilmington, Vt., June 15, to raise money for building the road, and the success of these will determine what can be done the present season toward starting the work. Committees were chosen in every town along the line to assist in procuring funds under the old charters and some money subscribed, which will be turned over to the new organization.—*Springfield Republican.*

Atlantic and Pacific Railroad.

This road is 328 miles in length, extending from Franklin, Mo., to Vinita, Indian Territory, with a branch of four miles, from Beaver, Mo., to Hermatite, Mo., making the total length of line owned 332 miles.

The following, comprising the Pacific Railroad of Missouri and its leased lines, were leased in July, 1872, to the Atlantic and Pacific Railroad Company for 999 years:

	miles.
Pacific of Missouri—St. Louis to Kansas City	283.5
Pacific of Missouri—Carondelet to Kirkwood	15.5
Osage Valley and S. Kansas—Tipton to Boonville	26.0
Lexington and St. Louis—Sedalia to Lexington	55.2
St. Louis, Lawrence and Denver—Pleasant Hill to Lawrence	61.0
Missouri River—Kansas City to Leavenworth	25.2
Leavenworth, Atchison and Northwestern—Leavenworth to Atchison	22.2
Total leased	487.6

—making the total length of line operated 819.6 miles.

Capital stock—common	$8,360,000
" preferred	11,400,000
Total stock	$19,760,000

LIABILITIES.

First mortgage (Southern Pacific), 6 per cent. gold	$7,188,500
First mortgage land (A. and P.), 6 per cent. gold	2,829,000
Second mortgage (A. and P) 6 per cent. gold	2,015,000
First mortgage (A. and P. Central Div.), 6 per cent. gold	1,190,000
First mortgage land grant (A. and P., Central Div.,) 6 per cent. gold	794,000
Equipment bonds, 10 per cent	753,000
Interest scrip, 6 per cent. gold	513,946
Land debentures, 10 per cent	500,000
Income bonds (funded), 6 per cent gold	529,600
Floating debt, about	1,500,000
Total debt ($53,650 per mile)	$17,813,000
Total stock and debt ($112,569 per mile)	$37,573,000

The foregoing list of bonds is not entirely accurate, as the company is engaged in funding the coupons for 1874 and 1875 on all its bonds except the first mortgage bonds of the Southern Pacific and the Atlantic and Pacific Central Division, having defaulted on the same in January, 1874. The following are the annual charges assumed by the lease of the Pacific Railroad of Missouri and its lines (487.6 miles:

	Principal.	Annual. int. or div.
Pacific of Missouri—Capital stock guaranteed, 5 per cent. to July, 1875, 6 per cent. to July, 1877, and thereafter 7 per cent., payable quarterly	$7,000,000	$350,000
Pacific of Missouri—First mortgage, 6 per cent., gold	7,000,000	462,000
Pacific of Missouri—Second mortgage, 7 per cent	2,804,000	196,280
Pacific of Missouri—Real estate mortgage, 8 per cent	800,000	64,000
Pacific of Missouri—First mort. (Carondelet branch), 6 per cent., gold	500,000	33,000
Pacific of Missouri—Income bonds, 7 per cent	1,500,000	105,009
Pacific of Missouri—Debt to St. Louis county, 7 per cent	700,000	49,000
Lexington and St. Louis—First mortgage, 6 per cent. gold	900,000	59,400
Ohio Valley and Southern Kansas—Rental 33 per cent. earnings (estimated).	.....	45,000
St. Louis Lawrence and Denver—Rental (conditional).	.....	75,000
Missouri River—Rental (after 1879, $70,000)	.....	60,000
Leavenworth, Atchison and Northwestern—Rental	.....	42,500
Total annual charge for rental of 487.6 miles, $3,165 per mile		$1,541,180

The Atlantic and Pacific Company, by direct grant and by consolidation with the Southern Pacific in 1870, became possessed of about 1,800,000 acres of land. At Vinita the Atlantic and Pacific connects with the Missouri, Kansas and Texas Railroad, and at Kansas City the Pacific of Missouri connects with the Kansas Pacific, which reaches, via Denver Pacific, the Union Pacific at Cheyenne, Wyoming Territory. The following, although not official, is given as the operations of the road for 1874:

Gross earnings	$5,624,377
Operating expenses	2,900,875
Net earnings ($3,325 per mile)	$2,723,502

The common stock of Atlantic and Pacific Company is not admitted to the dealings of the New York Stock Exchange and has no market value, while the preferred stock, which is regularly called there, has of late been ruling at about $15 for par value of $100. The guarantee stock, Pacific of Missouri, has lately ruled at $50 for the par value of $100.

Chicago, Milwaukee and St. Paul Railway.

At the last session of the legislature a law was passed providing that the terms of all the directors of the Chicago, Milwaukee and St. Paul Railway Company shall expire on the day of the next annual meeting, and on that day and yearly thereafter, there shall be elected a full board of directors; provided that this act shall be accepted by a vote of the majority of the stockholders, which vote shall be taken on the day of the annual meeting in June prior to the election for directors.

Alexander Mitchell, President of the Company, and prominent officials and stockholders have united in a request to the stockholders to adopt this law, the end in view being the ousting of Russell Sage from the office of Vice-President of the company, and reforming the management of the New York office, putting it in the hands of some one who will not engage in stock gambling but who will devote his time and authority solely to the interests of the company. So far as the war against Sage and his party is confined to this purpose, it will have the hearty sympathy of the people of this state, and particularly of this city; for it is the general impression here that the New York party have not only frequently pursued a policy detrimental to the company, but to the interests of this city and those portions of the state which the lines penetrate, or it was desired that they should penetrate. It was charged, and we believe with good reason, that the rejection of the St. Croix land grant, two years ago, was due to the influence of the Sage party. Other measures of the company, equally unpopular and antagonistic to its real interests and those of this city, are traceable to the New York party, or at least were charged to it, and that party should not expect sympathy from this region in the conflict.

If the struggle results in making the management more distinctively Western, that is dictated with a view to the accommodation and development of the country through which the lines pass, it will prove very satisfactory throughout the state, and do much toward abating the hostile feeling that has grown up in many quarters toward railroad companies.—*Milwaukee Wisconsin.*

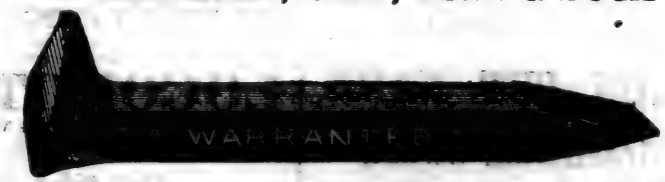
Shenandoah Valley Railroad.

The meeting of stockholders of this company held in Winchester, Va., on the 14th inst., resulted in a satisfactory adjustment of its recent complications. On motion of Col. Baylor, of Jefferson, the directors heretofore elected were displaced and the following gentlemen elected: Wm. McLellan, of Chambersburg, Pa., president; Logan Osburn, Charles Aglionby, A. B. Boteler and W. H. Travers, of Jefferson; W. D. Smith and U. L. Boyce, of Clarke; Wm. Milnes, Jr., and Mann Spitler, of Page; Henry B. Hamsberger, of Rockingham; M. B. Buck, of Warner, and John Kelly, of Pennsylvania. The Winchester Times, from which the above was obtained, says: "This arrangement was the subject of general congratulation among the stockholders present, and confidence is expressed in the ability of the company to negotiate its first mortgage bonds, which will supply the funds necessary to resume work upon the road."

☞ It is mentioned as an evidence of the improvement in the iron trade and in railroad building that the Pennsylvania Steel Company are at work on an order for five thousand tons of steel rails for the Southern Pacific Railroad Company of California. The Bethlehem Works are filling a similar order for the same road.

☞ The contract for constructing the New Point bridge, over the Monongahela river, at Pittsburg, has been awarded to the American Bridge Company, of Chicago.

☞ The Southern Pacific Railroad Company are preparing to lay over one hundred miles of track east of Spadra this summer.



THE
James Cement Co.,
(Successors to J. B. JAMES,)
Manufacture a superior quality of *Rosendale Cement*, put up in good barrels made by themselves, and well papered. Address

HUDSON RIVER
CEMENT WORKS,
Manufactory at Kingston, N. Y.
(LATELY IN JERSEY CITY, N. J.,)
MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic [Diamond A] Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

The Union Pacific Railroad Suits.

DECISION OF THE COURT OF CLAIMS IN FAVOR OF THE COMPANY—THE CROSS-ACTION OF THE GOVERNMENT DISMISSED.

In the Court of Claims at Washington on the 31st of May, 1875, Judge NOTT delivered the opinion in the case of the Union Pacific Railroad Company vs. the United States. He said:

This case came before the Court in two distinct forms: first, in that of an action brought by the Union Pacific Railroad Company to recover one half of certain freight earnings withheld from it by the government; second, in that of a cross-action brought by the United States to recover the back interest which they have paid to third persons upon their bonds, heretofore loaned to the company, to aid it in the construction of its road. The company admits that the government had the right to withhold one half of such moneys as the road may earn by the transportation of the mails and military and other supplies. The United States insists that they might withhold all of these earnings and apply them in payment of their advances already made, or may maintain their action for the interest on the instant it is paid to the holders of the bonds.

Briefly stated the statutory history of the case is this:—The act of 1862 provided that all the freight earnings of the road for government transportation should be applied to the payment of the principal and interest of the bonds. The act of 1864 substituted a half for the whole, and assured the company of the payment of the remaining half. The act of 1871 "directed the Secretary of the Treasury, who had recently refused to pay the half, to go on paying it as before." The act of 1873 changed this policy, and "directed the Secretary to assert the right of set-off in the government and to withhold all of the freight money until the point should be settled by the courts." Both of the last cited acts left the former undisturbed, and did not assume to change it or interfere with the legal rights of the parties. The statute, the Court says, makes no distinction between principal and interest, nor indicates in any way that the debt for the one shall mature at a different time than the debt for the other. Furthermore, a previous section of the statute declares that for "the amount of said bonds together with all other interest thereon which shall have been paid by the United States they shall constitute a mortgage upon the road." In the present predicament of the transaction the government is largely in advance for interest and there at first appears to be no consideration received which should bind it to suffer a serious, if not disastrous loss.

But if we reverse the condition of affairs it will be seen that a similar loss would fall upon the company and a corresponding gain ensue to the government. That is to say, if the government had required a larger amount of transportation and the net earnings had greatly exceeded the reality so that the two more than equalled the interest, then the company would be paying off the principal of its ultimate indebtedness to the government long before the government would be paying its debts to the bondholders, and as the company had mortgaged its road "to secure the payment of the amount of said bonds, together with all the interest thereon which shall have been paid by the United States," a corresponding loss of interest upon interest would likewise fall upon it.

Now, when the statute has provided two sources for the payment not only of the interest, but of a great deal more—that is to say of a portion of the principal—before it becomes due, what reason can there be for the judiciary to interpolate by mere construction a third source into the statute? Assuredly none. If the statute had stopped with interest, and had proved that the remainder, if any, of the transportation moneys and five per cent should be paid to the company, there would be good reason for saying that a reciprocal obligation was implied and that the company should be held liable to make the interest account whole. But in the plight in which Congress has placed the reciprocal and intermingling rights and the interests of the parties we see no reason why the government should call the varying balance of its advances a liquidated present debt subject to immediate collection. But beyond the confines of a disputed construction remains one uncontroverted provision in the statute, which seems decisive of the legislative intent. The only party to whom an option was reserved by the act is the government, and that system is the important right of making the company's services as little or as great as it pleases. If it requires these services the company cannot withhold them. If it refuses all employment the company cannot exact it.

As the compact originally stood the government could keep down the interest without the expenditure of any ready money, by simply furnishing to the company the employment, and it might push this advantage to an unlimited extent, even to carrying the earnings of the road to the liquidation of the debt before it had matured. The subsequent statute, which substituted a half for the whole of the earnings did not affect the legal import of the government's reserved discretion nor change the legal relations of the parties, nor vary the construction applicable to the original statute. It was an alternative in degree and not in kind and still left the company in this matter of service entirely subject to the orders of the government. In the contemplation of the law the wrong and injury of which the government complains are entirely of its own choosing.

Courts of law cannot be invoked to aid persons where they themselves possess the means of redress. If an ordinary party were to come into another court with such a complaint he would be told "either you have willfully withheld this employment from the other contractor or you have been unable to furnish it to him." If the former supposition is the fact then the fault is your own, and you cannot ascribe wrong to one whom you confess has always been willing to repay you in the manner which your agreement prescribes. If the latter

is the fact then, because the sources of payment which you provided disappointed you and because the payment in kind which you elected to take gives you more of the transportation service than you really require, you are trying to shift your loss to other shoulders than your own. Your misfortune is really this, that you made an improvident bargain.

The judgment of the court is that the claimant recover of the defendants the sum of $512,632 50, and that the counter claim of the defendants be dismissed.

NOTE.—This counter claim of the government is that the defendants are not indebted to the claimant under the provisions of the act of July 1, 1862, the act of July 12, 1864, or any other act of Congress or otherwise; and further, that the claimant is indebted to the defendants in the sum of $12,000,000 for the payment of interest on bonds.

South Mountain Railroad.

The Philadelphia Ledger, in reply to a letter of a correspondent asking for information as to the location, length, etc., of the South Mountain Railroad, replies that it is "an unfinished work intended to connect Harrisburg and Hamburg, a distance of 55 miles. The capital stock is three quarters of a million, of which $575,800 has been subscribed and $386,439 paid in, according to its statement of January 1, 1874, at which time its floating debt was $103,210, making a total of stock and debt of $489,650. The cost of construction to that time was reported as $100 less than the debt and stock. The intention was to complete the road in eighteen months from January, 1874. No mortgage bonds or funded debt is noticed in the report before us, nor is there any mention of lease to the Pennsylvania Railroad Company."

North Pennsylvania Railroad.

The earnings of this road for the years ending October 31, 1873 and 1874, were as follows:

	1873.	1874.
From passengers	$493,146 30	$505,916 89
" coal.....	351,998 03	329,525 38
" pig iron.....	44,509 52	33,881 66

Maintenance of cars...	80,749 76	88,641 45
Conducting transp.....	282 802 36	279,154 57
General expenses.....	38,754 59	31,201 05
	$931,573 90	$829,725 63
Net earnings,.....	$545,966 18	$594,737 55
Interest, ground rent and taxes.....	350,321 54	361,527 95
Balance carried to profit and loss.....	$195,644 64	$233,209 60

Compared with the previous year the gross earnings of 1874 show a decrease of $53,076 90, or 3.59 per cent, with a decrease in expenses of $101,848 27, or 10.93 per cent, making an increase in the net earnings of $48,771 37, or 8.93 per cent. The balance carried to profit and loss shows an increase of $37,564 96. The proportion of expenses to earnings was 58.25 per cent, a reduction of 4.8 per cent. The total amount to credit of profit and loss October 31, 1874, was $514,371 65, against $464,194 93 on the 31st of October, 1873, an increase of $52,176 72.

The capital stock at the close of the year amounted to $3,699,450, against $3,596,500 at the close of the preceding year, an increase of $102,950.

A dividend of five per cent on the capital stock of the company was declared in January, payable on the 1st of February, 1874.

The North East Pennsylvania Railroad was worked by this company throughout the year from Abington to Hatborough and Bonair, a distance of 7.8 miles. The receipts from operations of this road during the year were $18,149 62, the expenses $14,150 19, and the net earnings $3,999 43. The interest and taxes were $12,585 71, a deficit for the year of $8,586 28. Since the 9th of November last the road has been in operation to Hartsville Station, on the Bristol road, 9.8 miles from Abington, and its business has grown in a gratifying manner.

The Stony Creek Railroad, 10.3 miles long, extending from Lansdale to Norristown, was opened for business on the 1st of January, 1874. It has been supplied with rolling stock, and operated by the North Pennsylvania Railroad Company, in connection with its main line and with the Doylestown Branch. The receipts in the ten months ending October 31, 1874, were $16,632 35, the expenses $14,721 64, and the net earnings $1,910 71. The interest and taxes for the year were $21,140 48, leaving a deficit of $19,229 77.

The company are now constructing a Branch Road (known as the Delaware River Branch), from the main line at Jenkintown, through Huntingdon Valley to the State Line in the middle of the Delaware River, half a mile south of Yardleyville in Bucks County, where it will connect with the Delaware and Bound Brook Railroad, which is being constructed from that point to near Bound Brook, New Jersey, where it will connect with the Central Railroad of New Jersey, and form a through line between the cities of Philadelphia and New York. It will also connect with the Easton and Amboy Railroad near the same point.

The Delaware River Branch will be 20.5 miles long. From Berks Street Station to Jenkintown is 8.1 miles, making the distance from Berks Street Station to the State Line 28.6 miles. The Delaware and Bound Brook Railroad will be 27 miles long. The Central Railroad of New Jersey, from the point of intersection to the city of New York is 32.4 miles, making the entire distance between the two cities 88 miles.

The whole line will be graded and the masonry constructed for a first class double track road, with a maximum grade of 37 feet to the mile, and will be laid with steel rails, 66 lbs. per yard. The rails have been contracted for with the Bethlehem Iron Company, to be delivered as required.

The whole of the grading and masonry on the Delaware River Branch was awarded to the well known contractors, Messrs. McGranns & Fitzpatrick, of Lancaster, Pa., who are pushing the work with their accustomed energy, and will have the whole graded ready for the rails, early in the coming summer, and it is confidently expected to have the whole line completed and opened for use before the close of the present year.

The available assets of the company, it is believed, will furnish sufficient means to complete the entire work, without incurring a floating debt.

The convertible privilege contained in the six per cent mortgage bonds of the company, expired on the 31st of December, 1874. The total amount converted into capital stock was $243,000, which, with the bonds previously canceled on account o the sinking fund, reduced the amount from $2,500,000, originally issued, to $1,930,500—outstanding on that date.

The Balance Sheet of the Treasurer shows that the company is clear of floating debt, with a balance of cash and cash assets on hand at that date, of near a million of dollars.

The great reduction in the cost of steel rails, has afforded a favorable opportunity of substituting steel in the place of iron, in the renewal of the tracks on the main line; one thousand tons have been contracted for for that purpose, and a part of them have been delivered.

The expenditures for the construction account within the year, have been as follows, which does not include those upon the Delaware River Branch, the accounts of which are separately kept:

Passenger and freight stations....	$18,815 39
Second track and sidings (10,578 feet)	17,014 84
Water stations.....	7,062 99
Third track on American street (1,474 feet).....	4,349 35
Engine, machine, and car shops and houses.....	2,166 35
Street improvements, paving and culverts.....	1,665 11
City track, telegraph, &c.....	292 17
	$51,866 20

The purchases of equipment made in the fiscal year include 7 new locomotives, of the Baldwin Locomotive Works; 6 first class passenger cars, 2 smoking and baggage cars, 3 baggage and express cars, 20 long platform cars, 20 lime cars, and 21 dump cars. The amount added to the equipment account is $126,416 26.

The company have 49 locomotives, 48 passenger, 2 smoking and baggage, 24 baggage, mail and express, 500 freight, 448 coal and 21 dump cars. Number of miles run: passenger, 456,440; freight and coal trains, 280,335; total, 736,775, including 17,130 miles run on the North East Pennsylvania Railroad, and 16,662 miles on the Stony Creek Railroad. Number of passengers carried, 1,052,859, equal to 349,781 through passengers. Number of passengers carried one mile, 18,888,210. Number of tons of freight carried one mile, 82,761,375. Tons of coal, 398,333.

Erie Railway.

APPOINTMENT OF A RECEIVER.

The argument of the motion to appoint Hugh J. Jewett Receiver of the Erie Railway was heard on the 26th ult., by Judge Donohue, in Supreme Court, Chambers. The application was made by Wilbur M. Brown, the deputy of the Attorney General, who submitted an affidavit setting forth the inability of the company to pay the June interest on its funded debt, and asking for the appointment of a Receiver as the better method of protecting the rights of the stockholders and the people of the State. Messrs. Shipman, Barlow, Laroque and MacFarland, appeared for the Erie Company, and the Trustees of the various mortgages were also made defendants, but offered no opposition to the motion. The order was granted by Judge Donohue, and went into operation at once. It makes no changes in the management of the company's affairs beyond constituting the present President the sole executive authority, subject to the orders of the court. Immediately on the granting of the order, Mr. Jewett filed the required bonds in $500,000, Messrs. S. L. M. Barlow, Homer Ramsdell, and Edwin D. Morgan becoming his sureties. The following are the papers in the case:

PETITION FOR THE RECEIVERSHIP.

SUPREME COURT, CITY AND COUNTY OF NEW YORK.—The People of the State of New York, plaintiff, against the Erie Railway Company, Hugh J. Jewett, Thomas A. Scott, John Taylor Johnston, Marshall O. Roberts, Frederick Schuchardt, W. Butler Duncan, Edwin D. Morgan, Herman Baltzer, Samuel L. M. Barlow, L. H. Meyer, Henry G. Stebbins, R. Suydam Grant, Lucius Robinson, John A. C. Gray, Courtlandt Parker, and Homer Ramsdell, Directors of the Erie Railway Company, defendants; William T. Hooker, Joseph Walker, Uriah J. Smith, James Brown, J. C. B. Davis, Dudley S. Gregory, Farmers' Loan and Trust Company, John Earl Williams, Jay Gould, C. T. Hunter, William Butler Duncan, Horatio N. Otis, William C. Rushmore, Cornelius Walsh, John Toney, Zenas H. Russell, Coe F. Young, Dorman B. Eaton, Augustus Frank, Lawrence C. Woodruff, John A. C. Gray, and Legrand Lockwood, defendants under various mortgages described and embraced in this action.

AFFIDAVIT OF WILBUR M. BROWN.

City and County of New York, ss.—Wilbur M. Brown, being duly sworn, deposes and says that he is of counsel for the plaintiff in the above entitled cause, and at present charged with the duty of representing the Attorney General therein. That since the commencement of this action facts have transpired and have come to the knowledge of the Attorney General which have made it necessary to the end of obtaining the relief sought for in and by this action for and on behalf of the people of this State, and to the end that a proper judgment and decree may be entered herein, that the summons in this action should be amended by making new defendants therein, and that an amended and supplemental complaint should be filed. The names of such new defendants and the reason why they should respectively be made defendants, as well as the facts and circumstances aforesaid, are fully and at large set forth in the proposed amended summons, and a proposed amended and supplemental complaint submitted herewith. It has also, by reason of such facts and circumstances, become necessary to the protection of the rights and interests in the premises of the plaintiffs, the people of this State, that a Receiver should forthwith be appointed, as in the said amended and supplemental complaint is prayed for, and that the injunctions therein prayed for should forthwith be granted. And on behalf of the plaintiff this deponent prays that such order, accordingly, may forthwith be granted by this court. In this behalf deponent further says that he has carefully inquired into the truth of the allegations contained in the said proposed amended and supplemental complaint; that in the prosecutions of such inquiries the proper officers of the said company have offered this deponent, at his request, free and full access to the records, books, and accounts of the company, and have fully and freely imparted to deponent such information as he required, and answered all interrogatories proposed by deponent supporting such answers, when proper, and needful, by books and documentary evidence, and deponent has carefully read and considered the recent report of the president of the Erie Railway Company appended to the said amended and supplemental complaint, and marked Exhibit "A." From these different sources deponent has obtained full information touching the premises, and he is, therefore, able to depose and say, and does depose and say, the allegations of fact contained in the said proposed amended and supplemental complaint are in substance all and singular true, and that any errors of fact will, if any shall hereafter appear, be found to relate merely to immaterial errors in matters of detail and of accounts, but in no wise effecting the substantial accuracy of the allegations or touching the merits of this action. Deponent is further able to state, and does state, that the president and directors of the Erie Railway Company do not deny the substantial accuracy of the said allegations. Deponent further says that, after due information and seasonable inquiry in the premises, and having regard solely to the best interests of the people of this State, and of the creditors of the said corporation, the Attorney General is satisfied that the best interests of both and of all parties will be served, protected, and promoted by the appointment of Hon. Hugh J. Jewett, now the president of the said company, receiver thereof, as prayed for with full power to do all things that may lawfully and properly be done in the premises.

That the high personal character of Mr. Jewett, his long and extended experience in the management of railroads, his intimate knowledge of the situation and affairs of the company, and the general confidence reposed in him by the employes of the road and by the public, render such appointment eminently fit and proper.

W. M. BROWN.

Subscribed and sworn to before me May 25, 1875.

MAURICE SPILLANE,
Notary Public New York County.

THE ORDER.

At a Special Term of the Supreme Court of the State of New York, held at the Court house in the City of New York, on the 25th day of May, A. D., 1875.

Present, Hon. Charles Donohue, Justice,

The People of the State of New York, plaintiff, against the Erie Railway Company, Hugh J. Jewett, Thomas A. Scott, John Taylor Johnston, Marshall O. Roberts, Frederic Schuchardt, William Butler Duncan, Edwin D. Morgan, Hiram Baltzer, Samuel L. M. Barlow, H. W. Meyer, Henry G. Stebbins, R. Suydam Grant, Lucius Robinson, John A. C. Gray, Courtlandt Parker, and Homer Ramsdell, Directors of the Erie Railway Company; J. C. B. Davis, W. S. Gregory, Farmers' Loan and Trust Company, John Earle, William S. Gould, C. T. Hunter, William Butler Duncan, Horatio N. Otis, Cornelius Walsh, John Toney, Zenas N. Russell, Cornelius F. Young, Dorman B. Eaton, Augustus Frank, Lawrence C. Woodruff, John A. C. Gray, and Legrand Lockwood, defendants, as trustees under various mortgages described and embraced in this action. A motion on behalf of the plaintiff in the cause having been made for leave to amend the summons herein and make new parties defendant, and for leave to file an amended and supplemental complaint, and also for the appointment of a Receiver of the property and franchises of the Erie Railway Company, according to the statute in such case made and provided, as is alleged, and also for an injunction as by the motion papers herein will fully and at large appear, and the said motion now coming on to be heard, and Wilbur M. Brown, Esq., of counsel for the people in this behalf, duly delegated by the Attorney General, appearing and moving for and on behalf of the people, the defendant, the Erie Railway Company as well as of the other defendants who have been served and have approved in this action by Shipman, Barlow, Laroque and MacFarland, their attorneys in this action, expressly waived any and all objections, for want of notice, and having admitted due and legal notice and service of the motion papers herein.

Now, therefore, on the proposed amended papers and the proposed amended and supplemental complaint herein duly verified, and on the affidavits of said Wilbur M. Brown, Esq., and on motion of the said Wilbur M. Brown, of counsel for the plaintiff, and after hearing William F. MacFarland, Esq., on behalf of the said Erie Railway Company and the said other defendants, and due deliberation having been had, it is ordered:

1. That the summons in this action be and the same is hereby amended as prayed for.

2. That leave be and leave is hereby granted to file the proposed amended and supplemental complaint in this action as prayed for; and the said summons being so amended and the said amended and supplemental complaint having been duly filed, it is further ordered that Hugh J. Jewett, now the president of the Erie Railway Company, be, and he is hereby appointed Receiver of all and singular the property and franchises of the said defendant, the Erie Railway Company, mentioned and described in the complaint in this action, and all and singular appurtenances in anywise thereto appertaining, and of all records, books, papers, and all accounts of the said company in anywise appertaining to the business thereof and necessary to enable him to properly and efficiently perform the duties imposed upon him by this order; that he give a bond for the faithful performance of his duties as Receiver in the premises in the sum of $500,000, with sureties to be approved as to form and sufficiency by one of the Justices of this court, and that on the filing of such bond he enter forthwith upon the performance of his duties as such Receiver. And it is further ordered just as soon as may be, after he shall have entered upon the performance of his duties, the said Receiver shall make and file with the Clerk of this Court a true, full, and complete inventory of all and singular the property of the said company, real, personal, and mixed, of all which he is appointed Receiver.

3. The said Receiver shall continue the operation of the said road in the ordinary and usual course as the same is now operated in the common carriage of freight and passengers, having due regard to the public interests and the accommodation of the public, and keeping the premises

and property, both real and personal, in good condition and repair, to the end that the said road may be efficiently operated with safety and convenience to the public. To the same end he shall from time to time employ and discharge all needful laborers, servants, and agents, and shall purchase and pay for all such needful material and supplies as may seem to him to be necessary and proper in the exercise of a sound discretion with leave to apply to the court from time to time as he may be advised for direction in the premises, and he shall settle and adjust according to usage and the usual course of business, all outstanding traffic balances with other railroads and like balances as may from time to time arise. And he shall have power to make all usual, necessary, and proper arrangements for the interchange of business in the way of traffic, and he shall have power generally to do and perform all things usual and proper, according to the rules and usages of good railroad management, to increase the business of the said road, and promote the convenience of the public. He shall have power to prosecute and defend without the further order of this court all existing actions by or against said company, and to pay and defray the usual ordinary expenses incident thereto. He shall have power to commence and prosecute any actions which, in the usual course of business, he may deem it proper and necessary to commence hereafter, either in the name of the said company or his own name as such Receiver, as he may be advised. He shall have full power to defend all suits that may hereafter be brought against the said company, or against himself as such Receiver, by the permission of this court, and to defray the necessary and proper expense of such proper prosecution and defense. He shall do whatever may be needful to maintain and preserve the corporate organization and franchises of the said company to the final judgment in this action, and to defray the necessary and proper expenses incident thereto, and in all and singular the premises he shall be subject to such orders and directions as this court may from time to time make, and he is authorized to apply from time to time for such orders and directions as he may be advised.

4. As soon as may reasonably be done after he shall have entered upon the performance of his duty, the said Receiver shall pay and discharge all debts due from the said company to laborers, servants, agents, and employes of all kinds and sources rendered in and about the operation of the railroads, of the said company and in and about the conduct and management of its lawful business. Such business shall not embrace debts due for more than four months prior to the entry of this order, without the further order of this court in the premises.

5. He shall in like manner ascertain the amount due by said company and unpaid for current materials, and supplies purchased for the use and operation of the railroads of the said company within four months prior to the entry of this order, and he shall pay the amount found to be justly due, but he shall not have power to pay any such debts of longer standing without the further order of this court.

6. He shall have power to redeem any and all securities of the company now pledged as security on loans of money, and if needful shall have power to borrow money; and he shall also have power to borrow money, if needful in his judgment, in order to comply with the directions contained in the third and fourth paragraphs of this order, and so far as may be needful to pay for current necessities and supplies, but for no other purpose without the order of this court.

7. The said Receiver shall keep a true, full, and particular account of all his acts and doings as such of all the property, rents, revenues, and income that shall come to his hands, and of all his payments and disbursements in the performance of the duties imposed by this order, and he shall once in every three months, and oftener if required, render to this court and file with the clerk thereof a full, true, and particular account of all his receipts and disbursements in the premises. He shall keep all balances of moneys in his hands on deposit in some bank of approved credit subject to his order, and he shall not pay out, but safely keep, subject to the further order of this court, all such moneys, except in so far as payments and disbursements are authorized by the terms of this order. The premises considered, it is further ordered that the said defendant, the Erie Railway Company, be, and the said company is hereby commanded and strictly enjoined not to pay or cause or permit to be paid any interest upon any of the mortgage bonds of the said company until the further order of this court in the premises; and the said company, and each and all the officers and agents thereof, are also strictly commanded and enjoined to deliver up and surrender to the said Receiver, when he shall have become qualified, according to the terms of this order, to enter upon his duties as Receiver, all and singular the premises whereof he is hereby appointed Receiver. And it is further ordered that each of the defendants trustees respectively of the mortgages referred to in the complaint in this action be and they hereby are severally and respectively restrained and enjoined from commencing or prosecuting, or causing or permitting to be commenced or prosecuted, any action against the said company, or in any wise affecting the property thereof, and from any wise interfering with the said company or the property thereof as such trustees without the further order of this court.

CHARLES DONOHUE.

THE AMENDED SUMMONS FOR RELIEF.

The following are the main points of the complaint of Attorney General Pratt:

After setting forth the history of the New York and Erie Railroad Company, its organization in 1832, and its bankruptcy in 1859 and the passing of its affairs to the Erie Railway Company, it continues:

II. The defendant, the Erie Railway Company, was created, organized, and exists under and by virtue of an act of the Legislature of this State, passed April 4, 1860, and various subsequent acts in addition thereto. It was created for the purpose of taking title to the property and franchises of the said New York and Erie Railroad Company, which, in pursuance of an amicable arrangement made to that end under authority of law, were purchased by certain trustees for, and duly conveyed to, the said Erie Railway Company, in the said year 1861.

The said Erie Railway Company thereupon became possessed of and succeeded to all the rights, privileges, and franchises, together with the railroad, its appurtenances, branches, and leased lines theretofore owned and possessed by the said New York and Erie Railroad Company. The said Erie Railway Company also took title to the said property subject to certain outstanding mortgages upon the property aforesaid, and to certain pecuniary liabilities of the New York and Erie Railroad Company. The said Erie Railway Company derives the powers, rights, and franchises, which it now possesses and exercises under and by virtue of the law hereinbefore specially referred to, certain other acts of the Legislature of this State passed from time to time since the organization of the said company, and the general laws of this State, governing railroad and other corporations; also certain special and general laws of the respective States of New Jersey and Pennsylvania, in both of which States the said corporation possesses franchises and privileges, owns and operates railroads, and in both of which it is subject to various duties, liabilities, and regulations, to all of which laws the plaintiff begs leave to refer from time to time, as occasion may require.

IV. The defendant, the Erie Railway Company, was created with a capital stock of 114,375 shares of common stock of $100 each and 85,357 shares of preferred stock of $100 each. The common stock of the said company has been increased from time to time, and now amounts to 780,000 shares. The amount of preferred stock remains as above stated, with the exception of $1,210, which amount was added by a special act of the Legislature of New York, March 14, 1866.

The funded debt of the said company, and which is secured by various mortgages of the property and franchises of the company, is of the amount and nature stated and described in President Jewett's last report. The interest, payable annually, on the said debt amounts to $4,073,106 56. Table B of the said report contains a statement of the disposition made of bonds to the amount of $15,000,000, issued under the so called second consolidated mortgage of the said company. By the said table it appears that, whereas the said company is in form obligated to pay the said bonds, principal and interest, at par, the said company has only realized therefrom at the rate of about forty cents in the dollar. The plaintiff charges that the said mortgage and the said bonds were issued without authority of law, and that they are void. That the manner of dealing with said bonds on the part of the said McHenry, the said London Banking Association, and others, was and is fraudulent and unlawful, and that each and all of the claims of the said McHenry and others were and are fraudulent and unlawful. That the said bonds, nor any part thereof, are held by bona fide holders for value, and that if the said company is liable for any amount in respect of the said bonds it is only liable for the amount of money actually received therefor and no more.

As to the said so called first consolidated bonds, whereof there are outstanding $12,076,000, and as to the said so-called convertible gold bonds, the plaintiff has no knowledge and no information sufficient to form a belief as to the validity thereof. The plaintiff is informed, however, and believes, that all the other bonds specified in the said table, to the amount therein specified, constitute legal and valid obligations on the said company, according to the tenor thereof.

V. By table E annexed to Mr. Jewett's report it appears that the amount of rental payable annually by the said company in respect of its leased lines is $986,722 31, and the plaintiff is informed and believes that the said several leases are liable to forfeiture in case of non-payment of rent as the same matures.

VI. The plaintiff is informed and believes that the unsecured debts of the said company, now outstanding, due and unpaid, and shortly to become due, amount to $2,648,531 55. Of this sum $1,086,891 87 is due for wages. Of the said unsecured debt, the sum of $635,809 84 is due for supplies. The sums above mentioned, and due for services rendered and supplies furnished to the said company constitute in equity a preferential charge on the property and revenues of the said company, and, as the plaintiff is advised, should be so regarded and dealt with by the court.

VII. In addition to the existing liabilities of the said company before mentioned, there are very many actions pending against the said company, in this State and in other States, involving large claims of various kinds, and amounting in all to many hundred thousand dollars. There are also outstanding against the said company, as the plaintiff is informed and believes, judgments unpaid and unsatisfied, but to what amount the plaintiff is not at present advised.

VIII. The directors of the said company in the year 1873, believing it to be for the interest of the company so to do, purchased or caused to be purchased for and on account of the said company, a large amount of stock in companies owning so-called coal lands in the State of Pennsylvania, paying therefor in the whole about the sum of $2,594,191 65, of which amount $1,931,810 08 was applied to the purchase of said stock, and the balance $662,381 57, was advanced to meet expenses incurred by said companies in the management and development of the same. The stock so purchased is not at present a source of revenue. Moreover, the plaintiff alleges that such purchase and payment were *ultra vires*—in violation of the charter of the said company—and that such purchase constitutes a just ground for the forfeiture thereof.

IX. In the month of May, 1874, the Directors of

the said company, in order to perfect and control a through line of railroad from the City of New York to the City of Chicago, in the State of Illinois, entered into an agreement with the Atlantic and Great Western Railroad Company. The plaintiff alleges and charges that the said agreement was and is *ultra vires*, and void. Nevertheless the plaintiff is informed and believes the Atlantic and Great Western Company claims and insists upon the validity of the said lease, that the same did go into effect and operation, and that a large sum of money is due from the Erie Railway Company in respect thereof. The plaintiff is advised that this pretended lease should be adjudged to be void.

X. The said Erie Railway Company heretofore, to wit, on or about the 22d day of November, 1869, wrongfully and illegally declared a so-called scrip dividend of seven per cent on the said preferred stock of the said company, and issued therefor certain so-called scrip, bearing interest and payable at a certain time therein named. The plaintiff is informed and believes that no dividend within the true intent and meaning of the law had been earned on the said preferred stock, and that the said scrip so issued was and is illegal and void.

XI. The Directors of the said company heretofore, to wit, on or about the 11th day of February, 1873, did declare and authorize to be paid a dividend of three and one half per cent on the said preferred stock of the said company, amounting to $298,791 85, and a dividend of one and three-quarters per cent on the par value of the common stock of the said company, amounting to $1,365,000. The plaintiff is informed and believes that these dividends were not earned, and were not properly declared, and he is advised that there should be an accounting in the premises.

XII. The plaintiff further charges and alleges that the current net income of the said company, from the earnings of its said railroad and property for many years last past, has not at any time been equal to the payment and satisfaction of the current obligations of the said company as they matured; that these obligations have from time to time been met and discharged by a resort to the expedient to temporary loans, and that, in consequence of this mode of dealing with the indebtedness of the company, its indebtedness has not in fact been discharged and diminished to any extent, but on the contrary has been continued at an enormous expense, and has constantly and rapidly increased in the aggregate.

XIII. The plaintiff further alleges that notwithstanding the efforts of the President and Directors of the said company to maintain the credit and promote the prosperity of the said company, as hereinbefore admitted by the plaintiff, the said company has, in fact, been insolvent for more than one year last passed, and has, in fact, not paid its current indebtedness, but has merely changed the form and character thereof, as hereinbefore stated, and that the said company now is entirely insolvent. The net earnings of the said company, since the annual election, in July, 1874, to the present time, has been only about the sum of $3,163,454 19.

During the same time the current obligations of the company, for interest and rental, have amounted to about $4,784,911. In addition to such obligations the floating debt of said company, unsecured, and maturing from time to time, was, at the date of the last annual election, in July, 1874, about $5,000,000. In the meantime the floating debt of the company has been somewhat reduced, but not from and by the application of earnings, but from and by the application of the proceeds of bonds sold at the rate and sacrifice hereinbefore stated, by reason whereof the debt of said company, though changed in the form, has not been diminished, but, on the contrary, has been increased in amount.

The amount now due to the servants, employes, and agents of the company, represented by the pay-rolls of the company, is about the sum of $1,086,891 87, which amount includes wages and salaries due from March of the present year to the present time. There is now due from the said company to sundry persons, for materials and supplies, about the sum of $1,500,000. There is also owing from the said company to sundry persons, in respect to bills payable, so-called, or unsecured floating debt, about the sum $890,189 91, which said bills payable are becoming due, from time to time, at short intervals. The only available assets for the satisfaction of the said indebtedness, or any part thereof, consists of stocks and bonds to the nominal amount of about $100,000, but of uncertain market value.

In addition to the indebtedness before in this paragraph specified, the said company is indebted in respect of call and time loans, so-called, to the amount of about $1,405,000, and has on deposit with the several creditors of the company in respect of such indebtedness, securities of various kinds, mainly in bonds and stocks of real value, considerably in excess of the said indebtedness, but which securities if sold according to the tenor of the pledge for default in payment of the loan, would realize much less than the true value thereof, and it is essential to the interests of the said company and to the public, that the said securities should not be forfeited.

On the 1st of June next ensuing, according to the tenor of the so-called second consolidated mortgage bonds, there will become due and payable a semi-annual installment of interest, amounting to $553,190 40, being at the rate of seven per cent per annum on the dollar on $14,400,000 of the said bonds actually issued. Including this interest and excluding the obligations of the said company before specified and presently due and payable, as near as can at present be estimated, the obligations of the said company will mature and become payable between the date hereof and the 1st day of October of the present year, to the amount of over $8,000,000, and the estimated receipts of the said company, from earnings and all other sources, according to an estimate most favorable to the said company, does not exceed the sum of $4,581,271 94. And, consequently, the receipts of the said company, between the periods aforesaid, will be nearly $4,000,000 less than the liabilities of the company maturing in the meantime.

The plaintiff alleges and the fact is so, that there are employed in and about the operation of the said road more than 12,000 persons, in various capacities; and by reason of the failure of the said company to pay the wages of the said persons, they have threatened to leave the service of the company, thus not only preventing the said company from performing its duties to the public, but exposing its property to additional danger from lawless violence at the hands of a large body of exasperated men.

The said company is on the eve of being obliged to stop payment even in form, and of being obliged to make default in the payment of interest on its said mortgage bonds. Immediately thereafter, as the plaintiff is informed, and has reason to believe, a multiplicity of actions of different kinds, and in respect of all and singular the premises, will be at once commenced against the said company, involving applications for injunctions, Receivers, &c., &c., all of which, in the present embarrassed state and condition of the company, would, for reasons sufficiently hereinbefore set forth, cause irreparable loss and damage to the people of this State and to the said company and its just creditors.

The plaintiff further says that the premises considered, the said corporation, the Erie Railway Company is within the true intent and meaning of the statute liable to be dissolved, and should be dissolved and wound up; and the plaintiff prays judgment accordingly, and that in the meantime, a Receiver may be appointed to take hold, and possess, under the immediate authority and direction of this court, all and singular, the franchises, property, railroad, and appurtenances of the said company, including, so far as need be, the books, papers, and records of the said company, with full power and authority to run and operate the said road, and preserve and protect the said franchises and property, and preserve the corporate organization and existence of the said company, so far as may be able so to do, till the final judgment and decree in this action.

That an injunction may issue, restraining the defendants respectively from commencing or prosecuting any other suits or actions against the said company, and from interfering in any other manner with the company or the property and franchises thereof, and that the said defendant, the Erie Railway Company, may be restrained and enjoined by the like order of this court from the payment of any interest on any of the mortgage bonds of the said company hereinbefore referred to, until the further order of this court in the premises. That an account may be had and taken of and concerning all and singular the matters and things in respect whereof an account has been hereinbefore prayed for, to the end that what appertains to equity may be done. That all and singular the assets and liabilities of the said corporation may be marshaled, the amount of the just debts and obligations may be ascertained and determined, and also the respective order and priority thereof in point of lien, and the amount and extent of such lien, and that the property of the said company of all kinds, including the franchises thereof liable to sale, may be sold at such time, under such circumstances, and in such manner as will best preserve and promote public interest, and the interest of the creditors of the said company, and the proceeds distributed in such manner as may be just and equitable, and that then and thereupon the said corporation may be dissolved and wound up by the final judgment and decree of this court. That, in the mean time, Hugh J. Jewett, who is now President of the said company, may be appointed such Receiver as aforesaid, with the power and authority aforesaid.

(Signed.) D. PRATT,
Attorney General of the State of New York.

Atlantic and Great Western Railway.

We understand that the scheme of rearrangement of the affairs of the Atlantic and Great Western Railroad has been under discussion in London, Paris, and New York for some weeks, and is now about completed. It will have, we are informed, such powerful support as to make its success certain, securing to the proprietors of the railway the regular distribution of the revenues and the protection of all classes of the securities in due priority. We learn that most, if not all, the large holders have been consulted in order to arrive at an equitable scheme; the principle of which is complete independence from any special alliance, and an immediate alteration of the gauge to the standard gauge of the country. The line of the Atlantic and Great Western is now crossed at different points by twenty five narrow gauge roads, the traffic from which is practically lost on account of the expense of transfer. It is understood that most friendly relations have been established with the New York Central Railroad, which at present connects with the Atlantic and Great Western system at Jamestown, forty miles from Salamanca, the junction with the Erie Railway, and that negotiations are progressing with other important narrow gauge lines for the exchange of traffic. We further learn that it is intended that the administration of the property shall in the future be controlled from London.—*Herapath, May* 15.

☞ At the annual meeting of the Northern Railroad Company at Concord, N. H., on the 27th ult., the old Board of Directors was unanimously re-elected as follows: Onslow Stearns, John A. Burnham, George W. Nesmith, Uriel Crocker, Josiah Minot, Charles F. Choate, Edward Lawrence. The meeting voted to guarantee the payment of the first mortgage bonds of the Concord and Claremont Railroad, now held as collateral, when proper authority so to do should be obtained from the Legislature.

☞ Lewis Rice has been elected President and F. L. Chapman Clerk and Treasurer of the Troy and Greenfield Railroad Company.

American Railroad Journal

Saturday, June 5, 1875.

Financial and Commercial Affairs.

Money has been offering very freely all through the week and has been quoted unusually easy to all responsible borrowers, whose wants, outside of the Stock and Gold lines (from which latter sources more especially the former, a fairly active demand has been noted) have been comparatively moderate. Call loans have been quoted at from 1½@4 per cent, and the best mercantile credits at from 3½@5 per cent per annum. The City banks have again added handsomely to their reserves of specie and legal tender notes; and also report augmented deposits, with a reduction in their averages of loans, and circulation. The U. S. Sub Treasury gained over a million in the currency line, while losing about 1¾ millions of specie, during the week. The receipts of the office from all sources in May were $65,796,787, including $8,679,313 from customs; payments on all accounts, $69,664,314, including $4,195,667 of coin interest. The City banks last week augmented their reserve of legal tender notes $2,349,900, their deposit item $761,200, and their specie average $848,000. They report a contraction of $2,204,800 in the loans and discounts, and a falling off of $242,000 in their circulation. The U. S. Sub Treasury in this city closed the week with a currency balance of $47,453,602 against $46,447,264, the preceding week; and a coin hoard of $52,088,967, against $53,716,516, on the previous return. The City bank exchanges in currency during the week, were $480,141,559, or a daily average of $80,023,593. The customs revenue of the port, during the week, was $1,787,000. The City banks reported their average of gold last week at $11,482,600, and their greenback average at $63,371,900. Their deposits stood at $232,890,000. The loan item was $281,396,500. The circulation was $19,-921,100.

The City Bank net reserve of specie and legal tender notes now shows an excess, over the legal requirement of reserve to liabilities, of $16,631,-775.

The aggregate of the outstanding U. S. currency, of all denominations, June 1, was $421,257,-541. The outstanding amount of legal tender notes is $378,051,760. The National bank circulation is now $350,012,829.

The U. S. Treasury balances on Tuesday were as follows: Currency, $4,358,107; special deposit of legal tenders for redemption of certificates of deposit, $55,345,000; coin, (including $20 268,300 in coin certificates,) $84,251,602.

The import entries of Foreign Merchandise at New York, including dry goods, amount for the past week to $9,357,343.

The income of the Government, from internal revenues, thus far, in the fiscal year, commencing with July 1, 1874, has been 102 millions.

The Public Debt Statement, just issued, shows a further liquidation of $1,189,456 in May, and $12 968,265 since June 30, 1874.

The Secretary of the Treasury has instructed the Assistant Treasurer of the United States at New York to sell $500,000 in gold on each Thursday during the month of June. The total amount to be sold is two million dollars.

Gold has been in fairly active demand, mainly on speculative account, at stronger rates, closing buoyantly. The extremes of the week have been 116@116½, closing on Wednesday at 116⅜@116½ as against 116 on Wednesday of the preceding week. The specie outflow last week was $1,598.112. The imports of specie at this port since Jan. 1, have been $6 299,661 against $1,-559,678 same time last year. The customs demand for Gold last week averaged $297,888 a day. Foreign Exchange has been in fair demand with Bankers' sixty day bills on London quoted on Wednesday at $4 86½@$4 87; sight bills on London at $4 89½@$4 90 to the £ sterling. The week's exports of Domestic Produce have been to the currency value of $4,268,064.

Government Securities have been more active and quoted higher. In State and Railway bonds, business has been also brisker, with values quoted stronger toward the close. And in the line of Railway and Miscellaneous share property, the dealings have been unusually extensive, generally much lower, though allying sharply toward the close under speculative manipulations.

U. S sixes of 1881 closed on Wednesday of the week at 124½@124¾; U. S. Five-Twenties of 1862, at 117@117¼; U. S. Five-Twenties

1864 at 118@118¼; U. S. Five-Twenties of 1865 120⅞@121; U. S. Five-Twenties of 1865 consolidated, 122⅞@123; U. S. Five-Twenties of 1867, 124¼@124½; U. S. Five-Twenties of 1868, 124¼@124½; U. S. Ten-forties at 118¼@118½; U. S. Fives of 1881, (Funding Loan) 117@116¼; Six per cent. currency Sixes from 122¼@122⅜.

General business has been more active in the produced lines, but at lower prices for Breadstuffs, Provisions, Petroleum, and Naval Stores, which have been offered more freely. Foreign merchandise has also attracted rather more attention; Sugars, quoted a shade higher; Molasses, decidedly cheaper. The Hardware, Boot and Shoe, Hides and Leather, and Dry Goods interests have shown less animation. Metals have been generally dull and heavy. Pig Iron, and Steel Rails have been moving more freely; the former however, exhibiting increased depression in values. Eglinton Pig Iron quoted at $29@$30; Glengarnock, $30@$31; Coltness, $30@$31; No. 1 American Pig at $25@$28; No. 2 do. at $24@$26; Forge, $20@$24; English Rails at $48@$50, gold; American Rails at works, $48@$52; Old Rails, $26@$28. Wrought Scrap, $32@$34. Ocean freights have been quite active, and rates have been generally quoted higher, especially for Grain room on berth and charter, in view of the free arrivals of produce by canal and river.

The following quotations of sales of Railway and other securities are in addition to those given elsewhere in our columns:—

New York.—Pacific R. R. 7s, guar., by Mo., 103; Louisville and Nashville 7s, consol., 1898, 88; Great Western 1st mort., 1888, 78½; Morris and Essex 7s, consol., ex-int., 102; do. 7s, conv., 100; do. 7s, 1871, 106½; Albany and Susq. 2d mort., 104½; North Missouri 1st mort., 90¾; Mil. and St. Paul 1st mort., La C. div., 89; Central Pacific 1st mort., San Joaquin Branch, 92¼; do. ☞ In accordance with the recommendation of the stockholders of the Union Pacific Railroad Company, at their meeting in Boston on the 10th of March, the directors have, by resolution passed on the 2d inst., authorized and directed the treasurer to pay a dividend of 1½ per cent on the capital stock for the quarter ending June 30, 1875. Transfer books close June 15, and open July 6. Dividend payable after July 1, at Union Trust Company, New York, and at company's office, Boston.

☞ A special from Grenada, Col., dated May 29th, says: "The first spike was driven to-day at this place on the extension of the Atchison, Topeka, and Santa Fe Railroad to Pueblo. A large amount of material has accumulated, and track-laying will be pushed forward at the rate of a mile per day. It is expected trains will be running to Los Animas by Aug. 1, and to Pueblo by Oct. 1."

Woodbury and Gloucester Railroad.

The project of constructing a narrow gauge railway between Gloucester and Woodbury, New Jersey, is assuming shape and definiteness. At a meeting recently held in Woodbury a preliminary organization of the stockholders took place. The names of the following gentlemen were presented for Directors: John P. St. John, of Philadelphia, Robert K. Neff, Thos. Glover, Sr., George M. Tatum, Dr. H. C. Clark, Thos. P. Smith, W. H. Livermore, Danl. Thackara, S. W. Stokes, A. W. Cattell, J. M. Henderson, John I. Estell, W. C. Stokes. The length of the road will be 4½ miles, commencing at the Salem pike in Woodbury, and terminating at the public school house in Gloucester, at which point the Gloucester and Camden roads will connect with it. The capital stock will be $50,000, and the value of each share $25. The Camden, Gloucester and Mount Ephraim Company has agreed to place the rolling stock on the road and operate it with their own employes, and guarantee the Woodbury and Gloucester Company 33⅓ per cent. of the gross receipts. It is desired to have the new road in running order in six months.

Richmond and Atlanta Air-line R. R.

Judge Bradley, of the United States Circuit Court, at Atlanta, Ga., on the 24th ult., rendered a decision confirming the possession of the Richmond and Atlanta Air-line Railroad to Col. L. P. Grant, the receiver appointed by Judge Hopkins, of the Superior Court of Fulton county, Ga. The Atlanta News says the decision shows that Judge Bradley entertains a proper respect for the action of a State court, and adds: "By this decision the stockholders have been given the vantage ground. The decision will meet with universal approval here and everywhere along the line of the road. For Atlanta it is of the utmost importance, as it is a guarantee that for some time further the line will be operated by men not inimical to this city."

☞ The Centennial Board of Finance have awarded the contract for the new iron bridge to span Landsdowne Valley in Fairmount Park, to the Walton Manufacturing Co. The contract price is $56,900. The Bridge will be five hundred feet in length, and eighty feet in width, and the height from the centre of the bridge to the bottom of the valley, will be sixty feet. This bridge when completed will be a prominent feature of the Park.

☞ The JAMES CEMENT COMPANY have removed from their old stand, No. 24 Dey Street, to No. 41 Dey Street, New York, where they will be pleased to welcome their friends and customers. J. B. JAMES is President, and W. G. JAMES Treasurer of the company. See their Advertisement in another column.

☞ The Centennial Board of Finance have accepted the proposition of HENRY WORTHINGTON & SONS, of New York, to furnish a six million gallon pumping machine, boiler and engine, free of cost, to pump the water from the Schuylkill to be used at the Centennial.

☞ Sidney Dillon was chosen President and George S. Scott Vice President of the Pacific Mail Steamship Co.

☞ It is stated that Sir Hugh Allan has succeeded in floating the greater portion of his Northern Colonization Railway bonds in Germany.

Boston and Northwestern Railroad.

It is stated that the capital stock of the new Northwestern Railway Company has been nearly all subscribed. The estimated cost of the entire line of 15 miles is $2,500,000, and the following is the accurate location of the road. Starting from the southeasterly portion of the South Boston flats near the Harbor Commissioners' line, the road will run through Dorchester, up Dochester brook valley, thence westerly, crossing the Boston and Providence Railroad between Jamaica Plain and Forest Hills station, by a high iron trestle bridge; thence through a portion of the Bussey farm, across the southwest corner of the town of Brookline and the Woonsocket division of the New York and New England Railroad between Upper Falls and Newton Highlands. Thence it will cross the Charles River about 900 feet from Riverside station, on the Boston and Albany road by a 60-foot iron trestle bridge, and run nearly a mile through the southeastern part of Weston, terminating on the farm of F. T. Bush.—*Boston Journal.*

Redemption of 5-20 Bonds.

The Secretary of the Treasury has made the twentieth call for the redemption of the five twenty bonds of 1862, stating that the principal and interest of the bonds designated will be paid at the Treasury of the United States, in the city of Washington, on and after the 1st of September, 1875, and that the interest on said bonds shall cease on that day. The called bonds are coupon bonds known as the fourth series, act of February 25, 1862, dated May 1, 1862, as follows:—$50—No. 20,301 to No. 21,000, both inclusive; $100—No. 51,601 to No. 59,100, both inclusive; $500—No. 27,501 to No. 31,900, both inclusive; $1,000—No. 80,651 to No. 91,500, both inclusive. Total, $10,000,000. Interest will cease on September 1, 1875.

☞ The determination of the Union Pacific Railroad Company to appeal from the decision of Judge Dillon in the terminus case was carried out at Des Moines on the 27th ult. The company filed its supersedeas bond that day and took out its writ of error to the Supreme Court of the United States. The case will probably be docketed by the middle of July and be ready for hearing before the Supreme Court in October or November.

☞ The gross earnings of the Philadelphia and Erie Railroad in April, 1875, were $277,946 00, the expenses $173,832 00, and the net earnings $104,113 00. In April, 1874, the earnings were $274,053 00, the expenses $231,167 00, and the net earnings $42,886 00—showing an increase in earnings of $3,893 00, a decrease in expenses of $57,335 00, and an increase in the net earnings of $61,227 00.

☞ The case of the Union Pacific Railroad Company vs. The United States Government, which was recently argued before the Court of Claims at Washington, has been decided in favor of the company. The opinion is given on another page. The amount awarded the Company is $512,632 50.

☞ There were filed on the 18th ult., in the office of the Secretary of State of California, articles of incorporation of the East Los Angeles and San Pedro Street Railway Company. Capital, $50,000, in shares of $100 each. Directors—E. E. Hewitt, J. F. Ward, Thomas A. Gray, G. W. Lord, H. J. Crow, F. Sabitchi and R. M. Widney. The principal place of business will be in Los Angeles.

Brown, Brothers & Co.,

No. 59 WALL St., N. Y.,

Issue, against cash deposited, or satisfactory guarantee of repayment, Circular Credits for Travelers, in *dollars* for use in the United States and adjacent countries, and in *pounds sterling* for use in any part of the world.

THEY ALSO ISSUE COMMERCIAL CREDITS, MAKE CABLE TRANSFERS OF MONEY BETWEEN THIS COUNTRY AND ENGLAND, AND DRAW BILLS OF EXCHANGE ON GREAT BRITAIN AND IRELAND.

Hatch & Foote,

BANKERS,

No. 12 Wall Street, N. Y.

BUY AND SELL GOVERNMENTS AND GOLD AT MARKET RATES.
EXECUTE ORDERS AT STOCK EXCHANGE.
INTEREST ALLOWED ON DEPOSITS.

☞ The first mortgage bondholders of the New Haven, Middletown and Willimantic Railroad Company have petitioned the Legislature to be organized under the name of the Boston and New York Air Line Railroad Company. The first mortgage bonds amount to $3,000,000, and the second mortgages to $2,000,000. Middletown and Portland and other towns have guaranteed the second mortgages to a large amount. A short time ago the first mortgage bondholders brought a petition for foreclosure, which was resisted by the towns and is still pending. Meanwhile the present move seems to be acceptable to all interests.

☞ In answer to a communication from Greenleaf, Norris & Co., of No. 66 Exchange place, the first and second comptrollers, in a communication from the United States Treasury Departments, express their conviction that the faith of the United States government is unquestionably pledged to the payment of the principal and interest of the District of Columbia 3-65 bonds, and that no act or statute whatever in any way affects this responsibility.

☞ At the annual meeting of the Nashua and Rochester Railroad Company at Nashua, N. H., on the 27th ult., a board of directors was chosen with Francis H. Kennicutt as President. The report of the directors states that the total cost of the road May 1, was $1,702,473, and also that the road is substantially completed and equipped by the Worcester and Nashua R. R. Co., to which company it is leased. It will be operated as a first class road in every respect.

☞ The Ironton, Ohio, Journal says Belfont furnace is now averaging 37 tons of iron per day. About 4000 tons of Kentucky ore have been received this spring at the furnace from the company's Willard purchase, costing in the neighborhood of $18,000. This is already kilned and ready to roast. The company also have received 4000 tons of Missouri ore this spring and 70,000 bushels of coke from Pittsburg.

☞ The Atlantic and Pacific telegraph is slowly approaching Pittsburgh from the oil regions, as well as from this city. Mr. Gulick, Superintendent of Construction, thinks the line will be completed by the first of August.

The Coal Trade.

The total anthracite production reported for the week ending the 22d ult., is stated by the Philadelphia *Ledger* at 305,313 tons, and for the year to the same date 4,719,324 tons, against 6,528,221 to the same time last year, showing a decrease of 1,808,897 tons. The quantity of coke and coal transported over the Pennsylvania Rail road for the week was 67,365 tons, and for the year 1,186,686 tons, of which 991,141 was coal and 205,555 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 22d ult., there were receipts of 7000 tons of coal, shipments of 3700 tons, leaving but 4000 tons on hand. The *Ledger* adds:

The impression is general that the strike in the coal regions is about over for the present. In the Shamokin coal region all the collieries are reported at work, and some of them at reduced wages. The Reading Railroad Company have issued their usual annual circular of freight and toll charges on anthracite coal transported by that company from June 1st, 1875, charges for the use of cars and barges and for toll by the Schuylkill Navigation from and after the same date, and also gives notice that hereafter, and until further notice, a drawback of ten cents per ton will be paid on shipments of anthracite coal from Schuylkill Haven and Port Clinton that have passed Fairmount Locks to Philadelphia and vicinity. The rates of toll on lump, steamboat and broken coal will be ten per cent less than the schedule rates by canal. The Delaware and Hudson Canal Company and the Delaware, Lackawanna and Western Company have advanced their prices of coal 10 cents per ton, and the Pennsylvania Coal Company 15 cents per ton for the month of June. We have reports from the Lehigh region that the miners at Summit Hill will resume work to-day but on what conditions is not stated. It is expected that almost immediately a general resumption will take place in the Lehigh region, and it is said will be under a reduction of the basis of 1874. Resumption in the Schuylkill region will not probably be many days behind that in the Lehigh region, come that when it may. In the bituminous coal field the strike has been virtually abandoned, the men having generally gone to work, and mostly at wages lower than was paid before the strike. A despatch from Mauch Chunk announcing the resumption at one of the collieries there, says, "The workmen are going in at 20 per cent reduction on the basis of 1874 for one month, after which a new and permanent arrangement will probably be made." A correspondent writing from Wilkesbarre says, "To all intents and purposes the long strike of 1875 in the Wyoming region has come to a termination by the voluntary action of the men, and the 1st of June, will beyond a doubt, see the mines in full operation." Indeed, from all points where trouble has existed with the coal miners, there comes the same encouraging assurance that the time for the resumption of miding is at hand. While consumers have suffered little inconvenience from any lack of supply or advance in prices, operators open the year's business with bare docks and empty yards, thus affording a gratifying assurance of a steady market for coal for months to come.

☞ The stockholders of the Baltimore, Philadelphia and New York, and the Wilmington and Reading Railroad Companies have approved of the agreement entered into, by the directors a short time since for merging and consolidating the latter company with the former. Robert Frazer, of Philadelphia, was elected President of the new organization.

☞ It is proposed to build and equip a Marine Railway to cost $40,000 at Collingwood, Canada, where such a thing is much needed.

Finances of Virginia.

A recent financial circular from Messrs. Thomas Branch & Co., Richmond, Va., in reviewing the financial condition of the State of Virginia, alludes to the fact that Gov. Kemper has taken high ground for the upholding of the credit of the State, and that the press of the State, as well as influential men who were once in sympathy with the "poverty view" of the Governor have, like him, abandoned the repudiation party, and then adds:

No careful estimate of the income to be derived from the revised tax bill has yet been made, but it can hardly fall short of $2,700,000. Of this amount there will be paid in tax receivable coupons $1,080,000; net cash revenue, $1,620 000; expenses of State, as estimated by the auditor, $1,300,000; leaving a surplus of $320,000.

The surplus will be applied to the sinking fund, and any balance to paying part interest on the non-consol debt. The debt statement corrected to 1st April is as follows:

Coupon consol bonds carrying coupons receivable for taxes	$18,000,000
Registered bonds convertible into the foregoing	2,200,000
	$20,200,000
Bonds funded under the amended act, (coupon and registered inter convertable) coupons, not good for taxes	$3,800,000
West Virginia (one third) certificates	12,000,000
Unfunded bonds, all classes, including all lost and destroyed bonds	9,000,000

Five hundred and forty thousand tax paying coupons mature and are thrown on the market 1st January and 1st July. The price has averaged 80a83 January and July, and 90a92 June and December. Tax-payers buy freely. The market is now bare. We quote them at 90, while the bonds are 57, (coupons off) at which price they pay about ten per cent. on cost, besides being exempt from State and municipal taxation in this State, and in consequence they are becoming a favorable investment at home.

It is represented that the result of the past two years' legislation has demonstrated that these consols cannot be successfully assailed.

☞ At a meeting of the directors of the Old Colony Railroad Company, held in Boston on the 21st ult., a vote was passed favoring the construction of the New Bedford and Fall River Railroad (south route), and the operation of the road by the Old Colony Railroad Company, when completed.

☞ John L. Stam has been elected president, William Painter vice president, John F. Bingham secretary, and R. Hynson treasurer of the Kent County R. R. Co.

WELLAND CANAL ENLARGEMENT.

Notice to Contractors.

SEALED TENDERS, ADDRESSED TO THE UNdersigned, and indorsed "Tender for Welland Canal," will be received at this office until the arrival of the Eastern and Western mails on THURSDAY, *the 24th day of June next*, for the construction of a Tunnel, a number of Docks, Regulating Weirs, Bridge Abutments and Piers, Excavation, Dredging, &c., connected with several miles of the enlargement; also the extension and deepening of Port Dalhousie and Port Colborne harbors.

The works will be let in sections, some of which are situated on the new line between Port Dalhousie and Thorold, and others, about one mile in length each, consist principally of deepening and widening the present canal at places between Thorold and Port Colborne.

Maps of the several localities together with plans and specifications of the works, can be seen at this office on and after FRIDAY *the 11th day of June*, where printed forms of tender can be obtained. A like class of information relative to the works north of Allanburg will be furnished at the resident engineer's office, *Thorold*, and for works south of Port Robinson, plans, &c., may be seen at the resident engineer's office, *Welland*.

Contractors are requested to bear in mind that tenders will not be considered unless made strictly in accordance with the printed forms, and, in the case of firms, except there are attached the actual signatures, the nature of the occupation and place of residence of each member of the same; and further, an accepted bank check or other available security for the sum of from $1,000 to $3,000, according to the extent of work on the section, must accompany each tender, which sum shall be forfeited if the party tendering declines entering into contract for the works at the rates stated in the offer submitted.

The amount required in each case will be stated on the form of tender.

The check or money thus sent in will be returned to the respective contractors whose tenders are not accepted.

For the due fulfilment of the contract satisfactory security will be required on real estate or by deposit of money, public or municipal securities or bank stocks to an amount of five per cent on the bulk sum of the contract, of which the sum sent in with the tender will be considered a part.

Ninety per cent only of the progress estimates will be paid until the completion of the work.

To each tender must be attached the actual signatures of two responsible and solvent persons, residents of the Dominion, willing to become sureties for the carrying out of these conditions, as well as the due performance of the works embraced in the contract.

This department does not, however, bind itself to accept the lowest or any tender. By order.

F. BRAUN, Secretary.

DEPARTMENT OF PUBLIC WORKS,
OTTAWA, April 26, 1875.

Railroad Building in Indiana.

The Indianapolis Sentinel, of May 22, says that it is a very safe venture to assert that there is more actual work in railroad building now in progress in Indiana with the sure promise of completion than in any other State. Most of the enterprises are of comparatively small magnitude, but there are a great many of them. They consist of short lines to develop local interests and links to fill up gaps in extended connections. Besides those projects which are begun with a fair prospect of early completion, many more are in contemplation. There has been no time, perhaps, when there were more railroad meetings of citizens held to discuss and plan how they may, by the use of means raised among themselves, build such roads as their particular localities require.

The foregoing is a correct statement of the public debt, as appears from the books and Treasurer's returns in the Department at the close of business, May 31, 1875.

B. H. BRISTOW,
Secretary of the Treasury.

☞ The Boston Evening Traveler says that the lease of the property of the Franklin Telegraph Company to the Atlantic and Pacific Telegraph Company was on Saturday last annulled and canceled by agreement of the parties thereto. This action replaces the lines of the Franklin Company between that city and Washington, and also the exclusive connection with the new ocean cable at Rye Beach, N. H., in the hands of its former management.

☞ The contract for furnishing 20 inch and 30-inch pipe to the Philadelphia Water Department has been awarded to the Gloucester Iron Company, whose shops are located at Gloucester City. The prices to be paid are $1 63½ per hundred pounds for the 30-inch and $1 69 for the 20 inch pipe. About 4000 tons will be needed. The works will now start up with a large force of hands.

☞ At a meeting of the Canton Company in Baltimore on the 21st ult., a proposition of the agent of the Inman Steamship line to run their line from the Canton Company's wharves to Liverpool was accepted. It is said that the first vessel will arrive in Baltimore within thirty days, and that the Northern Central and Union Railroad Companies are united with the Canton Company in support of the enterprise.

☞ The Smyrna (Del.) Times says: "It is understood that the trains on the Kent County railroad, from Chestertown to Massey's, will be shortly run through to Clayton, over the Bombay Hook extension, instead of connecting at Massey's with the Kent and Queen Anne's road to Townsend as now. By this plan the Kent Company can have an independent route which induces the change. The distance from Massey's to Clayton is nine miles."

☞ The Chattanooga Commercial says the advantages of that section as an iron producing country is more conspicuously shown in the cost of fine qualities of ore, as compared with their costs at other points, than in any other respect. Lake Superior ores are worth $7 50 per ton in St. Louis. There, ores that produce the finest qualities of iron can be had delivered in the yard at from $2 50 to $3 per ton, the latter being an outside price.

Corrosion of Iron in Railway Bridges.

Mr. Wm. Kent, of the Stevens Institute of Technology, has made some interesting analyses of the causes of the rapid corrosion of iron in railway bridges. It has frequently been noticed that iron exposed to the smoke, steam and heated gases escaping from passing locomotives, shows a greater tendency to corrode than iron in situations not so exposed. A qualitative chemical analysis of iron rust taken from a bridge on the Pennsylvania Railway showed the presence in a water solution of the rust of iron, ammonia, sulphuric acid, and traces of sulphurious acid and chlorine. A separate portion of the rust was tested for carbonic acid which was found in considerable quantity. The escaping gases from the locomotive contain carbonic acid, carbonic oxide moisture and, if there is sulpher in the coal, sulphurous and sulphuric acid. The presence of the three acids, no matter how small in quantity, is sufficient to promote rapid corrosion. Experiments made by Prof. Calvert tend to show that carbonic acid is the agent which determines the oxidation of iron in the atmosphere, and experiments made by Mr. Kent, that sulphurous acid is rapidly changed to sulphuric acid in the presence of iron and moisture, and that the iron is thereby rapidly corroded. Mr. Kent's conclusion is that the sulphurous acid escaping from the locomotives is one of the most active agents in the corrosion of railway bridges, and if so, its removal or the building of bridges, the iron work of which shall not be exposed to the gases from locomotives, should prevent rapid corrosion and add to the security of iron bridges.

THE JAMES CEMENT CO.

Manufacture a superior quality of **ROSENDALE CEMENT,** (equal to any) put up in new barrels made by themselves, and well papered, and average 300 lbs. Cement to each barrel.

HUDSON RIVER CEMENT WORKS,

Manufactory at Kingston, N. Y.

(LATELY IN JERSEY CITY, N. J.)

MANUFACTURERS OF ROSENDALE HYDRAULIC CEMENT, having facilities for manufacturing 600 barrels daily, are now prepared to furnish, on the most reasonable terms, Rosendale Hydraulic (Diamond A) Cement of a fine and superior quality, all of which is by ourselves manufactured at the works, located on the West bank of the Hudson River, near Rondout, N. Y., from a superior selected quality Cement Stone, quarried exclusively from our (lately Hudson River Cement Co., Jersey City, N. J.) celebrated and extensive quarries, situated at Creek Locks, town of Rosendale, Ulster County, N. Y. Our Cement having been extensively used the last twenty years, and meeting the approval of the most eminent Builders, U. S. and other Engineers, we have authority for declaring our brand, (Diamond A) Cement, the American Standard Hydraulic Cement, all of which is put up in good shipping order, in new, tight, well-made (at the Manufactory) and papered barrels. The largest class vessels can come to our works without extra towing or delay. Cement deliverable at the Works or in New York City. Our barrels will be branded, "Hudson River Cement Works, Rosendale (Diamond A) Cement, Office, No. 95 Liberty Street, New York."

Obligations of a Railroad Company as Carrier beyond its own Line.

RIGHT OF A RAILROAD COMPANY TO CONTRACT AS A COMMON CARRIER FOR THE TRANSPORTATION OF PROPERTY BEYOND THE TERMINUS OF ITS OWN ROAD.—THE COMPANY LIABLE FOR DEFECTIVE CARS.

We give below the decision of the U. S. Supreme Court, in respect of the main question, as delivered by Mr. Justice Hunt, in the case of The Ogdensburg and Lake Champlain Railroad Company, plaintiff in error, vs. Jefferson Pratt and Harrison G. Brigham.—In error to the Circuit Court for the District Court of Massachusetts:

This is an action on the case originally begun in the Superior Court of the Commonwealth of Massachusetts, by Pratt and Brigham against the Ogdensburg and Lake Champlain Railroad Company, a corporation established under the laws of New York, and against the trustees and managers of the Vermont Central and the Vermont and Canada Railroad Companies. The action was brought to recover the value of sundry horses killed and injured by fire, while being transported from Potsdam, in New York, to Boston, and when upon the road of the Vermont Central Railroad Company. A verdict was found in the Superior Court for the plaintiffs, which was set aside, and a new trial was ordered by the Supreme Court of Massachusetts, upon grounds not now presented. (Pratt vs. The Ogdensburg and Lake Champlain Railroad Company, 102 Mass., 557.) Thereupon the case was removed by the defendants to the Circuit Court of the United States and a new declaration filed. At the trial in the Circuit Court the jury found a verdict against the Ogdensburg and Lake Champlain Railroad Company for the sum of $3,919 17, and found a verdict in favor of the other defendants. Judgment was entered upon this verdict, to which the present writ of error is brought. Nine causes of error are assigned in the brief of the plaintiffs. The present four separate principles, and the questions may be thus stated:—

First—Had the Ogdensburg and Lake Champlain Railroad Company power or right to contract as a common carrier to transport the horses to Boston over another railroad, and beyond its own terminus?

Second—Was there competent evidence given on the trial that the company did so contract in relation to the horses in question?

Third—Did the plaintiffs, by putting their horses in a car which they knew was defective and unsuitable, thereby assume the risk of such defects and relieve the company from responsibility for the same?

Fourth—Was there error in admitting in evidence the way bill made and forwarded with the property by the defendants, or in allowing the witness to state for whom the station agent assumed to act?

First—As to the power of a railroad company to contract as a common carrier for the transportation of property beyond the terminus of its own road, the distinction between the liability of a carrier in carrying goods upon its own line and in forwarding them where the duty to carry is at an end is well defined. In the language of Mr. Justice Davis, in Railroad Company vs. Manufacturing Company (16 Wall., 324):—"It is the duty of the carrier, in the absence of any special contract, to carry safely to the end of his line and to deliver to the next carrier in the route beyond." What constitutes a sufficient delivery to the succeeding carrier is often a difficult question, but we have no occasion to embarrass ourselves with it here. The fair result of the American cases limits the carrier's liability as such, when no special contract is made, to his own line, although there are cases which hold the liability as continuing the same throughout the whole route, and such is the English doctrine. A discussion on this point is unnecessary, as the Judge on the trial held the rule as we have stated it, and as was most favorable to the defendants. He charged the jury that the defendants were only liable upon a contract to be proved that they had assumed a liability beyond that imposed by law. The defendants were an incorporation, organized under the General Railroad law of the State of New York. They possessed the powers given to corporations generally, and were subject to the corresponding liabilities. (Laws 1848, p. 221; Laws 1850, p. 211). Assuming the case to stand upon the general principles applicable to the question, the doctrine that a railroad company may subject itself to the obligations of a carrier beyond its own line has been distinctly held by the State of New York, where this contract was made; in the State of Massachusetts, where its performance was to be completed, and in the State of Vermont, where the alleged injury occurred, (Bissell vs. Michigan R. R., 22 N. Y. R., 258; Buffet vs. Troy and Boston R. R., 40 N. Y., 168; Root vs. Great W. R. R., 45 N. Y., 524; Burtis vs. Buff. and St. L. R. R., 24 do., 269; Hill Manufacturing Company vs. B. L. L. R. R. Co., 104 Mass., 122; Feital vs. Middlesex R. R., 109 ib., 398; Noyes vs. Rutland and B. R. R. Co., 27 Vt. R., 110; Morse vs. Brainard, 41 Vt. R.; Railroad Company vs. Transportation Company, 16 Wall., 324; Evansville and Crawfordsville Railroad Company vs. Androscoggin Mills.) In the case of Burtis vs. Buff. sup., it was held that this principle applied to connecting roads extending beyond the limits of the State. The single exception to this holding, so far as we are aware, is the State of Connecticut, where the contrary has been held by its Supreme Court. (Converse vs. N. and N. Y. Tran. Co.,

33 Conn. R., 166; 22 do. 502.) This case, however, does not stand on the general principle only. By the statutes of New York (Stat. 1847, 299, section 9; 2 R. S. fifth ed., 693, section 67) it is enacted as follows:—"Any railroad company receiving freight for transportation shall be entitled to the same rights and subject to the same responsibilities as common carriers. Whenever two or more railroad companies are connected together any company owning either of said roads receiving freight to be transported to any place on the line of either of said roads so connected shall be liable as common carriers for the delivery of such freight at such place. In case any such company shall become liable to pay any sum by reason of the neglect of any other company or companies the company paying such sum may collect the same of the company by whose neglect it became so liable." This statute is declared by Rappallo, J., in Root vs. Great Western, sup., to be declaratory merely. We do not see that there is room to doubt the power of the company to make the contract in question.

The second question was answered in the affirmative.

The third question was answered in the negative, and it is said that it might have been charged further that if the company was negligent in furnishing cars it would not have been relieved from responsibility although there was an agreement that it should not be liable therefor.

The fourth question was answered in the affirmative.

Northern (N. H.) Railroad.

The earnings of this road for the years ending March 31, 1874 and 1875, were as follows:

	1874.	1875.

		209,867 00
Balance of income account		$32,084 48

During the year 485 tons of new rails and 55,734 new sleepers have been placed in the track, and about 2,900 tons of rails have been taken up, repaired, and relaid. One passenger engine, and one passenger and thirty eight freight cars, have been built to supply the place of old ones. A new passenger depot has been built at Potter Place, and other extensive improvements have been made at the same place, at a total cost of over $8,000. Three bridges have been rebuilt, and the road and furniture have been kept in good condition. The report says:

There has been a large decrease of earnings of the road during the past year from those of the preceding year; but, on comparing the statement at the close of this report of the business of the road during the year, with that in the last annual report of the business during the preceding year, it will be seen that the amount of business done, and the number of miles run, in the past year, very considerably exceed those of the prior year. This indicates that, while the great and long continued depression of business throughout the country generally, during the past year, has in some respects diminished the business of the road, yet its greatest effect has been to lessen the prices obtained from that business. In addition to this has been the unusually severe competition which has existed during the year for through business, which constitutes an important item on the road. The result has been, that the increase of business has prevented the reduction of expenses, while at the same time the diminution of rates has reduced the earnings from that business. If regard had been had only to the present effect, the refusal of that business, under the circumstances, would have been advisable. But, considering the importance of that business in favorable times, and the difficulty of regaining it to the line when once diverted from it, it has been thought best for the road to submit to the disadvantage for a time, in the hope of a recompense for it hereafter, when the revival of business shall increase the rates as well as the amount of business.

The equipment of the road March 31, 1875, was as follows: 12 passenger and 17 freight locomotives, 412 long and 101 short merchandise cars, 16 passenger, 7 baggage and 19 gravel cars. Number of miles run by passenger trains, 191,400; by freight trains, 302,543; by other trains 7,321—total, 501,264. Number of passengers carried 181,268; do. carried one mile, 7,272,884. Tons of merchandise carried 416,013; do. carried one mile, 26,235,443.

Trial Balance Sheet, March 31, 1875.

Track service	15,725 00	15,000 00
Locomotive service	1,625 80	6,000 00
Total	$878,241 37	$768,164 21
Net earnings	$259,392 86	$354,943 60

Compared with the year 1873, the gross earnings of 1874 show a decrease of $14,526 42, with a decrease in operating expenses of $110,077 16—making an increase in net earnings of $95,550 74. Percentage of expenses to earnings, 68. The expenses are divided as follows:

	Ordinary.	Extraordinary.	Total.
1873	$750,609 62	$127,632 35	$878,241 37
1874	667,624 00	100,540 21	768,164 21
Decrease.	$82,985 62	$27,092 14	$110,077 16

The expenditures for 1874 not charged to operating expenses were as follows:

Winter Bridge, Savanna	$5,921 81
Equipment (new locomotives & cars).	71,875 97
Racine Warehouse and Dock Co., for deficiency in grain received at Racine Elevator as per contract	23,742 42
Interest and exchange	11,807 42
Interest on bonded debt	245,000 00
Total	$357,847 62

The number of miles of road operated in 1874 (exclusive of side track) was 212¾.

The equipment of the road consists of 34 locomotives (all coal burners); 11 first class passenger, 1 sleeping, 1 business, 3 baggage mail and express, 9 baggage and second class, 416 box and caboose, 64 stock, 33 flat, 1 derrick, 1 pile driver and 48 coal cars.

Miles run by passenger trains, 220,928; by freight trains, 495,822; by coal and gravel trains, 39,785—total, 756,035.

Number of tons carried, 412,670; do. carried one mile, 46,412,248. Rate per mile, 1.85 cents. Number of passengers carried, 213,520; do. carried one mile, 5,862,049. Rate per mile, 3.69 cents. Earnings per mile run on freight $1 73; do. on passengers, $1 11. Expenses per mile run, $1 07. Number of passengers carried per mile run, 0.96. Gross earnings per mile of road, $5,279 00; expenses, $3,611 00; net earnings, $1,668 00.

President.—ALEX. MITCHELL.

Vice President.—S. S. MERRILL.

Directors.—W. S. Gurnee, Russell Sage, S. S. Merrill, Alex. Mitchell, Hans Crocker, Jno. W. Cary, Jno. L. Mitchell, John Plankinton, Henry T. Fuller, E. P. Barton, Wm. Shannon, D. W. Dame, H. A. Mills.

Secretary and Treasurer.—D. R. MAY.

Gen'l Superintendent.—D. A. OLIN.

Manchester and Lawrence Railroad.

At the annual meeting of the stockholders of this company, held in Manchester, N. H., on the 28th ult., the report of the directors was presented and accepted, and the following board of directors unanimously re-elected: Ezekiel A. Straw, Benjamin F. Martin, Edward A. Abbott, Wm. W. Stickney, Jos. W. Smith, Nathan Parker, Aretas Blood. At a meeting of the directors, E. A. Wood was re-elected President, S. N. Bell Clerk, and G. B. Chandler Treasurer.

The report states that the amount received from passengers during the year was $72,395 40; from freight, $50,898 98; express, $7,382 50; mails, $5,286 81; total receipts, $133,645 58; expenditures, $82,528 12; net earnings, $101,117 46. Total amount of tonnage transported, 81,737 tons; whole number of passengers transported, 143,401, being a decrease of 17,598. No injury has been sustained by any passenger or employe of the road during the year, and no accident has happened to the road or rolling stock. The road bed, track, buildings and fixtures are in good condition. 236 tons of new rails and 15,000 new sleepers have been laid during the year.

Baltimore and Potomac Railroad.

At a meeting of the stockholders of the Baltimore and Potomac Railroad Co., held at Baltimore on the 2d inst., the report of the directors for the year ending December 31, 1874, was presented. From this we learn that the total gross earnings of the whole road for the year were $615,415 36, the total working expenses $484,908 46, and the net earnings $130,506 90. The earnings of the Washington line were $574,822 32, the expenses $440,032 50, and the net earnings $134,789 82. The earnings of the Pope's Creek line were $40,593 04, and the expenses $44,875 96, a deficiency of $4,282 92. Compared with the year 1873, the gross earnings show an increase of $233,878 68, with an increase in expenses of $103,441 66, giving a net increase on the business of the whole road of $130,436 97.

The great and steady increase in the business of the road since its opening will be seen from the following statement of total earnings: 1872, from May, when it first commenced transportation $137,554 97; 1873, $381,536 73; 1874, $615,415 36.

The returns for May, 1875, cannot yet be furnished, but for the four months ending April 30 last the gross earnings over the same period last year are $8,469 64, giving promise of a yet more prosperous year, notwithstanding the general reduction in the railroad business of the country, caused by the business depression of the last eighteen months.

The number of passengers carried in 1874 was 783,628; in 1873, 629,377—an increase in number of 154,246, and of 24½ per cent.

This gratifying increase in passenger travel has been largely exceeded by the surprising expansion of tonnage, which was in 1874, 161,314 tons, and in 1873, 87,305 tons, an increase of nearly double, or 84¾ per cent. The report says:

About the middle of May our passenger rates between Baltimore and Washington were largely reduced, and although, as said above, the accounts for the month are not yet made up, an examination shows that the traveling public so appreciated the change as to make our passenger receipts between the two cities three times as large the first week of the reduction as they were the week preceding.

The success of our Washington line is made more apparent by a comparison with the last report of the president and directors of the Baltimore and Ohio Railroad Company for their fiscal year ending September 30, 1874.

In that report the revenues of its Washington branch are given at $373,323 31, "showing a decrease of $67,452 23 compared with the previous year, and a decrease of $107,321 73 compared with 1872." While there was this decrease in the earnings of the old road, it will be noticed from a foregoing statement that our gross receipts on the Washington line were $574,822 32, and our net earnings alone on our Washington line for 1874 were $134,789 82.

It will be observed that the Pope's Creek line has been operated at a loss. This is owing to the failure of the crops of all kinds in southern Maryland since the opening of the road, which passes its entire length through a purely agricultural and sparsely settled country. It is believed, however, that with a more prosperous agricultural production and the increased facilities recently given to encourage the small industries, and the cultivation of fruits and vegetables for which the soil and climate of southern Maryland are so admirably adapted, that this part of the road will also soon be made to pay a profit. A contemplated line of steamers from Pope's creek, to accommodate which a wharf would have to be erected there, and a ferry line from the opposite Virginia shore, which the wharf would invite, will add to this.

A much larger increase of freight and other business is expected, growing out of the recent agreement by which the Western Maryland railroad is to reach tidewater at Canton with coal and iron carried through the Potomac tunnel, &c.

A strong effort is contemplated by the tobacco planters of the three countries of southern Maryland through which our road runs to obtain the building of the recently burned tobacco warehouses at Canton, that their tobacco by going directly through the tunnel may escape drayage and double handling both to the warehouses for inspection and from them for shipment, thus saving largely in expenses to both producer and shipper. The contemplated line of steamers from Canton must also add largely to the volume of our business.

There were laid, during the year 1874, 27.2 tons of steel, and 113.66 tons of iron rails, and 3,001 new cross ties.

At the close of the year, 1874, the company had 24 engines in service and 1 in shop for general repairs; 44 passenger cars in service and 1 in shop; ten baggage, 1 tool, 116 gondolas, 50 stock and 100 box cars all in service; a total of 25 engines, and 322 cars of all kinds.

The following directors were elected, all of them members of the old board: A. J. Cassatt, George B. Roberts, Wm. T. Walters, B. F. Newcomer, George Small, Dr. Eli J. Henkle, and Col. Samuel Cox.

At a meeting of the board held afterwards the following officers were elected: President, Owen Bowie; vice president, A. J. Cassatt; secretary and auditor, John Crowe; treasurer, John S. Leib.

The contracts between the Baltimore and Potomac, Northern Central, and Union railroads and the Canton Company, relating to the transportation of freight, &c., were ratified.

It is expected that active work upon the Canton improvements will be commenced in a week or two, and work upon the new office buildings will soon follow.

Spartanburg and Asheville Railroad.

The Charleston News and Courier publishes the following dispatch from A. C. KAUFMAN, Esq., Secretary and Treasurer of the Spartanburg and Asheville Railroad company. It is dated Spartanburg Court house, May 31, and says:

Spartanburg County has to day redeemed the pledge made on the 10th of last September to subscribe one hundred thousand dollars to the Spartanburg and Asheville Railroad. This vote enables us to obtain one hundred and fifty thousand dollars of county bonds, subscribed by Union conditionally, and is, therefore, equivalent to a quarter of a million of dollars to the company. The Claytons say now that the road will never stop until it reaches Asheville. They are ready to break ground in the mountains at once. Everybody here is in high glee over the good news. Three times three cheers for old Spartanburg.

☞ Contracts are about to be let for construction of the Atlantic and Lake Erie Railway between Pomeroy and Athens, Ohio. The remainder of the line is now all in course of construction.

Erie Railway.

APPLICATION OF MR. JEWETT FOR AN EXTENSION OF POWERS—GRANTING OF THE PETITION BY JUDGE DONOHUE—COPIES OF THE PETITION AND ORDER OF THE COURT.

Mr. Hugh J. Jewett, Receiver of the Erie Railway Company, under the application granted recently by Judge Donohue, in the New York Supreme Court, has petitioned for an extension of powers. The order which made him Receiver provided that he should ask for more power if it was deemed necessary, and on his petition, dated June 3, and filed in the County Clerk's office, Judge Donohue, on the motion of the counsel for the plaintiff, has ordered that the authorization asked for by Mr. Jewett be granted. The petition and the order of the court are as follows:

PETITION.

New York Supreme Court.—The People of the State of New York against the Erie Railway Company, Hugh J. Jewett, Thomas A. Scott, John Taylor Johnston, Marshall O. Roberts, Frederick Schuchardt, W. Butler Duncan, Edwin D. Morgan, Herman B. Baltzer, Samuel L. M. Barlow, L. H. Meyer, Henry G. Stebbins, R. Suydam Grant; Lucius Robinson, John A. C. Gray, Courtlandt Parker, and Homer Ramsdell, Directors of the Erie Railway Company; defendants, William T. Hooker, Joseph Walker, Uriah J. Smith, James Brown, J. C. B. Davis, Dudley S. Gregory, Farmers' Loan and Trust Company, John Earle Williams, Jay Gould, C. T. Hunter, William Butler Duncan, Horatio N. Otis, William C. Rushmore, Cornelius Walsh, John Toney, Zenas H. Russell, Coe F. Young, Dorman B. Eaton, Augustus Frank, Lawrence C. Woodruff, John A. C. Gray, and Legrand Lockwood, defendants as Trustees under various mortgages described and embraced in this action.

The petition of Hugh J. Jewett, Receiver in the above entitled action, respectfully shows to the court that he is advised that the interest of all parties to the said cause requires that he should have further and express authority from this court to deal with matters hereinafter specified, and for the reasons hereinafter stated, and he is advised that the proper provisions for this end were inadvertently omitted from the orders heretofore applied for and obtained:

First—There is about to become due the State of Pennsylvania a considerable sum of money for taxes, for which that State recently recovered a judgment against the Erie Railway Company in the Supreme Court of the United States, and there are other taxes on the property of the company from time to time accruing, all of which it is necessary to pay when due, in order to prevent a sequestration of its property.

The Receiver should have authority to pay all such charges as they become payable.

Second—The entire stock of the coal companies referred to in the complaint in this action is owned by the Erie Railway Company. It is of great importance to all parties that these stocks should be disposed of to the best advantage. At present coal is being mined to supply the road with fuel. It is also being profitably mined to a certain extent for market, by which means the road is also furnished paying freight to that extent.

In the interest of all parties the Receiver should be empowered to continue to take out coal for the purposes aforesaid as long as it shall be profitable to do so.

The Directors are now and for some time have been in negotiation for the disposition of these stocks upon advantageous terms.

Your petitioner believes it would be for the interest of all concerned that he should have power to confirm and carry out any arrangement to that end concluded by the Directors, provided he shall deem it just and expedient so to do.

Third—The Receiver is possessed of various mercantile securities, stocks, bonds, &c., and will become possessed of others from time to time as they are redeemed from pledge. Many of such securities it will be desirable and necessary for him to sell from time to time in the due performance of his duty, and it is important that he should be able to take advantage of any favorable state of the market that may at any time exist.

The Receiver therefore prays that he may have power to sell such securities from time to time, and in such manner as he may in his best judgment deem to be for the interest and advantage of all parties.

Fourth—There are certain sums due for supplies and materials purchased more than four months prior to the appointment of the Receiver, but which have not been due for that period simply because the creditors therefor have extended forbearance at the company's request. Although not within the letter of the former order in this case, the Receiver is advised that such cases are within its spirit, equity, and intent, and ought to be paid, and therefore the Receiver respectfully petitions for power to pay the same.

Fifth—In the due execution of valuable outstanding contracts the Erie Railway Company has received, and the Receiver may be entitled to receive moneys for and on account of other than railroad companys, and therefore not coming strictly under the head of traffic balances with other railroads, and which moneys have been and will be received merely for the purpose of convenient apportionment and distribution.

The Receiver should have power, and he prays for authority to make payments of such said balances as have accrued and such as may hereafter accrue.

Sixth—The said Erie Railway Company owns certain outlying real estate of which the Receiver cannot at present give a full description; there will be certain expenses attending its preservation, the particulars of which the Receiver is not now able to state, but he prays for authority to do what may be needful from time to time to preserve and maintain all such property.

(Signed) HUGH J. JEWETT.

THE ORDER OF THE COURT.

At a special term of the Supreme Court of the State of New York, held at the Court house in the City of New York, on the 3d day of June A. D. 1875, present, Hon. Charles Donohue, Justice. The People of the State of New York, plaintiffs, vs. The Erie Railway Company, Hugh J. Jewett, Thomas A. Scott, John Taylor Johnston, Marshall O. Roberts, Frederick Schuchardt, W. Butler Duncan, Edwin D. Morgan, Herman Baltzer, Samuel L. M. Barlow, L. H. Meyer, Henry G. Stebbins, R. Suydam Grant, Lucius Robinson, John A. C. Gray, Courtlandt Parker and Homer Ramsdell, Directors, of the Erie Railway Company, defendants; William T. Hooker, Joseph Walker, Uriah J. Smith, James Brown, J. C. B. Davis, Dudley S. Gregory, Farmers' Loan and Trust Company, John Earle Williams, Jay Gould, C. T. Hunter, William Butler Duncan, Horatio N. Otis, William C. Rushmore, Cornelius Walsh, John Toney, Zenas H. Russell, Coe F. Young, Dorman B. Eaton, Augustus Frank, Lawrence C. Woodruff, John A. C. Gray and Legrand Lockwood, defendants, as trustees, under various mortgages described and embraced in this action; upon the petition of Hugh J. Jewett, Receiver in the above entitled action, and on the consent of Shipman, Barlow, Larocque, and Macfarland, attorneys for the defendants, the Erie Railway Company and the other defendants who have appeared, and on motion of Edgar Logan, Esq., counsel for the plaintiff—

It is ordered that the several prayers of the said petition be granted, and that the said Receiver be and he is hereby authorized to pay and discharge all lawful demands for taxes and charges upon the premises whereof he is appointed Receiver, or any part thereof, including as well such taxes and charges as have heretofore accrued as those which may accrue; to work the said coal mines referred to in the said petition, and for the purpose and in the manner therein stated, until the further order of this court; to confirm and carry out any lawful contract or agreement that may be made for the disposition of the said stock of the said coal companies referred to in the said petition, or any of them, and to make any lawful disposition which in his judgment will be for the benefit and advantage of all parties; sell from time to time the securities referred to in the said petition when, and as in his judgment the interest of all parties will be promoted thereby, and either at public or private sale; to pay for all supplies and materials, debts or obligations for which have not been due for over four months; to apportion, pay, and distribute from time to time the balances referred to in the said petition, and growing out of the execution of the valid contracts of the said company, and to make all needful disbursements to protect and preserve the real estate of the company, wherever the same may be situate.

(Signed,) CHARLES DONOHUE.

We consent to the entry of the within order June 3, 1875.

SHIPMAN, BARLOW, LAROCQUE & MACFARLAND, Attorneys, &c.

Rapid Transit in Brooklyn.

In its prospects for rapid transit, Brooklyn is not much behind the city of New York. Two of the most liberal charters have been granted by the Legislature, for the construction of railroads for rapid steam transit in this city; and capital only is awaited to enable the corporators to carry them out.

The first act granted for this purpose was by the Legislature of 1871. The incorporators named in it were among the wealthiest and most public-spirited gentlemen of the Western District, numbering among them the following: Samuel McLean, Seymour L. Husted, Henry E. Pierrepont, Demas Barnes, Wm. B. Kendall, Cyrus P. Smith, Alfred S. Barnes, A. B. Baylis, A. A. Low, Edward Fowler, William C. Kingsley, A. M. Bliss, J. S. T. Stranahan, Jeremiah P. Robinson, Daniel A. Robbins, Simeon B. Chittenden, Alexander McCue, Thomas Kinsella, William Richardson, Benjamin F. Tracy, Thomas Sullivan, Felix Campbell, Edward W. Fiske, Henry W. Slocum, Franklin Woodruff, John H. Prentice, with many lesser lights thrown in to represent the interests of the various workers who put the scheme through the legislature, who were incorporated under the title of the Brooklyn Steam Transit Company.

These gentlemen were authorized to construct either an underground or elevated railroad with any number of tracks and lateral branches, on such streets as a majority of the incorporators might deem proper, between Fulton Ferry and the southern limits of Prospect Park at or near Flatbush avenue, for the conveyance of passengers or freight, and were given power to change grades of streets, to open new or to close old ones, where, in their judgment, it was necessary to advantageously locate the route of their road. The act also authorized the incorporators to construct warehouses and docks, and to take property under the general railroad act for all such purposes, but the charter was to be void unless the company organized and constructed at least one mile of the road within three years from the passage of the act.

Nothing was done under this law, and during the session of 1873 a supplemental act was passed conferring all the valuable privileges of the franchise upon the following named gentlemen, H. B. Claflin, John T. Martin, Robert Turner, William N. Adams, Gillian Schenck, Robert S. Bussing, Edwin C. Litchfield, Henry W. Sage, William E. Dodge, Simeon B. Chittenden, John Lefferts, Jacob R. Shepherd, Wm. H. Taylor, James N. Taylor, James N. Smith and Ditmas Jewell. The time for constructing the first mile of the road was extended to July 4th, 1876, and the additional privilege was given of laying tracks on the surface between and across the different streets and avenues between Fulton Ferry and Prospect Park.

The charter for the Brooklyn Elevated Silent Safety Railway Company was granted May 26, 1874, and incorporated the following named gentlemen: Jacob Cole, C. B. Payne, John A. Burtis, J. Q. Kellogg, A. M. Suydam, Gillian Schenck, Robert Irwin, Abraham Lott, N. G. Palmer, J. M.

Phelps, Samuel M. Meeker, John L. Marcellus, Ditmas Jewell, John L. Nostrand, and others, with a capital of five million dollars and a route commencing at Fulton Ferry and running through Washington and York streets, Hudson, Park, Grand, Lexington, Ralph and Marion avenues, and Broadway to East New York, and thence to Woodhaven. This road is to be constructed upon iron columns, erected on the line of each curb, not less than fourteen feet above the sidewalk, connected at the top by iron girders, one track over each side of the street, and must be commenced within two and finished within five years, or the charter lapses.

Under these charters, the citizens of Brooklyn will be compelled to obtain rapid transit, if at all, as the new constitution prohibits the granting of any additional privileges to railroads upon the streets of any city in this State. Both of them are most liberal in the privileges they grant to the incorporators, and as they contemplate the opening up to rapid transit of two different sections of the city and outlying territory, steps should be taken to carry out the provisions of each before the lapse of time shall make the charters void. The construction of these two roads and the completion of the Brooklyn Bridge are all that is needed to make Kings the most populous county in the State, as it is now the most desirable place of residence. The elevated ground lying between Broadway and Fulton avenue bisected by the Elevated road, and the level country between the Park and Coney Island, whereon in the future will be built the thousands of elegant villas for our merchant princes, would be brought into direct and rapid communication with New York, and increased in value many fold. A small tax upon the enhanced value of the building sites along the route of these two roads would pay the entire cost of their construction. We urge upon the incorporators the desirability of proceeding as rapidly as possible with enterprises of such great importance to the future prosperity of the city, and which must prove also of great pecuniary value to their owners.—*Brooklyn Daily Times, June* 1.

Montclair Railroad.

At a meeting of the bondholders of the Montclair Railroad at 115 Broadway, on the 8th inst., by a unanimous resolution the plan of reorganization recommended by the committee appointed by the bondholders on April 12, 1875, was adopted. The following is the text of the resolution:

Resolved, That the existing Bondholders' Committee, to wit, W. B. Leonard, J. De Neufville, A. B. Elliott, James Yereance, M. A. Myers, C. L. Perkins, and J. Wyman Jones, be and the same are hereby appointed a standing committee, representing the first mortgage bondholders, with instructions to carry the said plan of reorganization into effect, and with full power, in their names, but to the use of said bondholders, to do all necessary acts and things for the most speedy consummation of said plan of reorganization, and particularly that they expedite, so far as practicable, the sale of the mortgaged property under the foreclosure proceedings now pending in the Court of Chancery of New Jersey, that they attend such sale when had, and, acting in conjunction with the Trustee or Trustees, they bid at such sale such prices as to them shall seem most conducive to the interests of the first mortgage bondholders; and if the property shall be struck off to them, that they sign and perform the conditions of the sale, and receive the deed of conveyance as the court shall order and approve.

Resolved, That in anticipation of such sale and conveyance the said committee are hereby required to take the necessary steps and proceedings to organize a new corporation in conformity with the requirements and under the provisions of the general laws of New Jersey, to be called the Montclair Railway Company, or at their discretion under the old Montclair Railroad charter. And that the following named gentlemen be requested to become the corporators and first Directors thereof, to wit: J. F. Randolph, Stephen Cary, Smith Ely, Jr., W. H. Power, E. A. Packer, John E. Dewitt, Uriah Gilbert, C. N. Jordan, W B. Leonard, J. De Neufville, J. Wyman Jones, James Yereance, M. A. Myers, C. L. Perkins, R B. Ferris. And so soon as the conveyance of the property to be sold under the decree of foreclosure, purchased by the committee, shall be made to them, that they forthwith convey the same to the said new corporation.

The Coal Trade.

The total anthracite tonnage reported for the week ending the 29th ult., as stated by the Philadelphia *Ledger* was 325,191 tons, and for the year 4,846,359 tons, against 7,033,589 tons to corresponding date last year, a decrease of 2,187,230 tons. The bituminous tonnage for the week was 93,857 tons and for the year, 1,152,634 tons, making a total of all kinds for the year of 5,998,993 tons, against 8,148,274 tons to same time last year, a decrease of 2,149,281 tons. As compared with the previous week's tonnage there is an anthracite increase of nearly forty thousand tons. Notwithstanding the decrease of over 2⅛ millions of tons of coal this year, there appears to be a supply in the market equal to the demand. Prices of coal are quite moderate and there is no probability now of their advancing. The quantity of coke and coal transported over the Pennsylvania Railroad for the week was 77,021 tons, and for the year 1,268,707 tons, of which 1,059,476 was coal and 214,241 coke. This embraces all the coal carried both east and west. At Port Richmond for the week ending the 5th inst., there were receipts of 8000 tons of coal, shipments of 10,000 tons, leaving but 2200 tons on hand.

Chesapeake and Ohio Canal.

At the regular monthly meeting of the directors in Annapolis, Md., on the 5th inst., the President submitted the following report:

I have great satisfaction in reporting that the coal tonnage for the past month not only shows a decided increase over same period of 1874, but is the heaviest tonnage that ever passed over the canal in any one month. The number of tons shipped from Cumberland was 121,439 tons, being an increase as compared with May 1874, of 6,873 tons. The greatest number of tons shipped in any preceding month was in May, 1871, the tonnage for that month being 120,421, which was conveyed from Cumberland to Georgetown in 1,105 boats, while the tonnage of the past month of 121,439 tons was carried in 1,074 boats, or 31 boats less than it required to carry 120,921 tons in 1871, which shows that the improved condition of the work has so increased the carrying capacity of the boats that in 1875 the same number of boats that in 1871 were required to carry 120,921 tons would now carry 124,957 tons, viz: Number of boats leaving Cumberland May, 1871, 1,105, average tonnage 109⅓, aggregate tonnage 120,921 tons; number of boats leaving Cumberland May, 1875, 1,105, average tonnage 113⅓, aggregate tonnage 124,957 tons, thus decreasing the cost of transportation to coal companies and boatmen in one month as compared with May, 1871, $5,045, viz: 403 tons at $1 25 per ton, $5,045.

The accrued revenue for May was $65,724 15, which is a decrease as compared with May, 1874, of $3,277 70, which decrease is accounted for from the fact that the toll and wharfage has been decreased 8 cents per ton and the boat toll reduced to $2 04 each trip.

The expenses for the month were $20,320, 18, showing the net amount of revenue for the month to be $45,493. The balance in the different banks to the credit of the company, May 29, was $55,832 67, to which add accrued revenue not yet collected, $35,489 43 making $91,322 10. I therefore recommend that the board appropriate $50,985 to pay the coupons on the preferred construction bonds due January 1, 1862.

The board accordingly appropriated the above amount to be paid at the banking house of Alex. Brown & Sons, Baltimore, on and after the 24th inst.

Easton and Amboy Railroad.

This is a double track road, about sixty miles in length, extending from Phillipsburg, N. J., (opposite Easton, Pa.) to Perth Amboy, where there is an open outlet to the ocean. It is steadily approaching completion, and is expected to be in full operation during all of June or in July. Being an extension of the Lehigh Valley Railroad, the distribution of the coal tonnage of the latter will be somewhat changed. That great railroad now sends its coal to market from Easton either by way of the Central Railroad of New Jersey or by way of the Belvidere Delaware Railroad to Trenton and thence by the old Camden and Amboy to tide water at South Amboy. Last year the Lehigh Valley gave to the Belvidere Delaware 1,106,476 tons. The most of this tonnage, it is supposed, will hereafter go by the new extension road from Easton to Amboy, to the corresponding loss of the Belvidere Delaware Railroad. The Lehigh Valley Railroad last year also gave to the Morris and Essex Railroad 401,403 tons, to the Central of New Jersey 358,633 tons, and to the Morris Canal 165,277 tons. Hereafter so much of this distributed tonnage as was through freight, and intended for points beyond Jersey City, it is presumed will go by the Easton and Amboy extension. Such portion of this tonnage as may be required for consumption on the lines of the two roads, and such as go to particular points in Jersey City, will be continued to the several companies as last year, but they will no doubt lose a very considerable portion of their tonnage heretofore enjoyed from the Lehigh Valley Railroad. The Morris Canal, being a leased work of the Lehigh Valley Railroad Company, will also be used hereafter mainly for local tonnage, and may eventually cease altogether to be used for transportation purposes. The three New Jersey Railroads named, it will be seen, received from the Lehigh Valley Railroad last year 1,866,513 tons, the great bulk of which will hereafter go to that company's own extension, and will enable it at once to start with profit. Its passenger trade will pass directly on down the road without change of cars, switch on to the Pennsylvania road at Metuchen, and so reach New York. The road is wholly owned by the Lehigh Valley Railroad Company, who have expended thus far about $10,000,000, in its construction, including about $1,000,000 for real estate and wharves at Perth Amboy. Some $2,000,000 more, it is estimated, will be required to complete and equip the work. No stock representing its cost has ever been issued, and it is free of mortgage or debt of any kind.

☞ At a meeting of the board of directors of the Southern Maryland Railroad Company, held at the office of the company in Washington city on the 4th instant, the following gentlemen were elected officers for the next ensuing twelve months: President, Samuel S. Smoot; vice president, Jno. Van Riswick; secretary, Charles H. Winder; treasurer, Wm. S. Lemmon.
